Blackwood's Edinburgh Magazine , 1852 **The English Woman in History** Doris Stenton, 2022-03-29 First published in 1957 The English Woman in History displays the place women have held and the influence they have exerted within the changing pattern of English society Ever since the days of Queen Elizabeth I the position of women in English society has been a matter of general debate In the seventeenth century many men produced books in praise of women following the example of Thomas Heywood Most of these books were devoted to the praises of individual women but their authors generally produced arguments against subjection of all women to the unthinking dominance of men While married women were still legally subject to their husbands and no women were allowed to take part in public affairs it was impossible to write objectively about women s place in the world The women who at the end of the seventeenth century began to write were generally fired by a sense of injustice and men tended to write condescendingly of charm and beauty which interested them more than intelligence and wit Now that women are bearing public responsibilities with success it is possible for historians to look back dispassionately over the centuries and trace the stages by which this position has been won It is a survey of this nature which Lady Stenton has attempted in this book This is a must read for students and scholars of women s history gender studies and women s movement **The Lady's Realm** , 1899 **The Twilight Zone FAQ** Dave

Thompson, 2015-11-01 The Twilight Zone is among the most beloved shows in American television history a pioneering fantasy behemoth that bridged the cultural gap between the 1950s and 1960s with thought provoking mystery mind boggling theorems and occasionally outright horror The Twilight Zone FAQ takes the reader back to that halcyon era looking back on the show and its impact as a force for societal change via reflections on the manifold topics and controversies that the show took on from the space race to the Red Menace from paranoia to madness and beyond Dave Thompson traces the history of the show from its earliest flowering in the mind of then unknown Rod Serling through its slow birth shaky beginning and breathless five season run and he shows how it became the blueprint for so much of the fantasy television that has followed Chapters deal with the comic books novels and many other spin offs including the movie the TV revamps and even the amusement park ride In addition this FAQ offers a full guide to every episode providing details on the cast and music and pinpointing both the best and the worst of the series all adding up to a brightly opinionated time machine that catapults the
