Moving Pictures Will Romano,2023-01-02 There s nothing like it in the Rush catalog or indeed in the entire prog rock canon Stylistically expansive and intellectually ambitious 1981 s Moving Pictures was a landmark release one that helped define the progressive genre and that ensured Rush s place in the rock pantheon In this definitive account of the album s creation and legacy author Will Romano explores the rare alchemy behind a record that continues to inspire musicians and listeners even today While Permanent Waves and Hemispheres were important releases in Rush s evolution as a band Moving Pictures marked a turning point for the Canadian trio in more ways than one It was not only a creative triumph but a commercial one with sales and airplay that blasted them into the stratosphere of rock stardom Beyond the individual power of its seven songs however the key to its lasting significance is the distinctive overarching vision that Geddy Lee Alex Lifeson and Neil Peart brought to the album As Romano shows Moving Pictures reconciled opposing creative sensibilities to a remarkable degree giving the record real thematic depth while at the same time rendering it the very antithesis of a concept album Each track was carefully layered with cinematic and multisensory meaning paradoxically using music to evoke experiences beyond the strictly aural Consistently insightful and frequently surprising this book is filled with behind the scenes details based on new research and interviews and it guides readers through the album s dizzying array of allusions and inspirations Newbies and fervent Rush fans alike will find this an illuminating exploration of one of the band s most enduring achievements

The Orientation of Future Cinema Bruce Isaacs,2013-02-14 What is the fate of cinema in an age of new technologies new aesthetic styles new modes of cultural production and consumption What becomes of cinema

and a century long history of the moving image when the theatre is outmoded as a social and aesthetic space as celluloid gives over to digital technology as the art house and multiplex are overtaken by a proliferation of home entertainment systems The Orientation of Future Cinema offers an ambitious and compelling argument for the continued life of cinema as image narrative and experience Commencing with Lumière's Arrival of a Train at a Station Bruce Isaacs confronts the threat of contemporary digital technologies and processes by returning to cinema's complex history as a technological and industrial phenomenon The technology of moving images has profoundly changed and yet cinema materialises ever more forcefully in digital capture and augmentation 3 D perception and affect High Frame Rate cinema and the evolution of spectacle as the dominant aesthetic mode in contemporary studio production

Seeing into Screens Tessa Dwyer, Claire Perkins, Sean Redmond, Jodi Sita, 2018-01-25 Seeing into Screens Eye Tracking and the Moving Image is the first dedicated anthology that explores vision and perception as it materializes as viewers watch screen content While nearly all moving image research either imagines how its audience responds to the screen or focuses upon external responses this collection utilizes the data produced from eye tracking technology to assess seeing and knowing gazing and perceiving The editors divide their collection into the following four sections eye tracking performance which addresses the ways viewers respond to screen genre actor and star auteur and cinematography eye tracking aesthetics which explores the way viewers gaze upon colour light movement and space eye tracking inscription which examines the way the viewer responds to subtitles translation and written information found in the screen world and eye tracking augmentation which examines the role of simulation mediation and technological intervention in the way viewers engage with screen content At a time when the nature of viewing the screen is extending and diversifying across different platforms and exhibitions Seeing into Screens is a timely exploration of how viewers watch the screen

American Lonesome Gavin Cologne-Brookes, 2018-11-14 American Lonesome The Work of Bruce Springsteen begins with a visit to the Jersey Shore and ends with a meditation on the international legacy of Springsteen's writing music and performances Gavin Cologne-Brookes's innovative study of this popular musician and his position in American culture blends scholarship with personal reflection providing both an academic examination of Springsteen's work and a moving account of how it offers a way out of emotional solitude and the potential lonesomeness of modern life Cologne-Brookes proposes that the American philosophical tradition of pragmatism which assesses the value of ideas and arguments based on their practical applications provides a lens for understanding the diversity of perspectives and emotions encountered in Springsteen's songs and performances Drawing on pragmatist philosophy from William James to Richard Rorty Cologne-Brookes examines Springsteen's formative environment and outsider psychology arguing that the artist's confessed tendency toward a self-reliant isolation creates a tension in his work between lonesomeness and community He considers Springsteen's portrayals of solitude in relation to classic and contemporary American writers from Frederick Douglass Nathaniel Hawthorne and Emily Dickinson to Richard Wright

Flannery O Connor and Joyce Carol Oates As part of this critique he discusses the difference between escapist and pragmatic romanticism the notion of multiple selves as played out both in Springsteen s work and in our perception of him and the impact of performances both recorded and live By drawing on his own experiences seeing Springsteen perform including on tours showcasing the album The River in 1981 and 2016 Cologne Brookes creates a book about the intimate relationship between art and everyday life Blending research cultural knowledge and creative thinking American Lonesome dissolves any imagined barriers between the study of a songwriter literary criticism and personal testimony **Implementing a**

crowd-sourced picture archive for Bad Harzburg Rieke Freund,Jan Philip Rätsch,Franziska Hradilak,Benedikt Vidic,Oliver Heß,Nils Lißner,Hendrik Wölert,Jens Lincke,Tom Beckmann,Robert Hirschfeld,2023-06-06 Pictures are a medium that helps make the past tangible and preserve memories Without context they are not able to do so Pictures are brought to life by their associated stories However the older pictures become the fewer contemporary witnesses can tell these stories Especially for large analog picture archives knowledge and memories are spread over many people This creates several challenges First the pictures must be digitized to save them from decaying and make them available to the public Since a simple listing of all the pictures is confusing the pictures should be structured accessibly Second known information that makes the stories vivid needs to be added to the pictures Users should get the opportunity to contribute their knowledge and memories To make this usable for all interested parties even for older less technophile generations the interface should be intuitive and error tolerant The resulting requirements are not covered in their entirety by any existing software solution without losing the intuitive interface or the scalability of the system Therefore we have developed our digital picture archive within the scope of a bachelor project in cooperation with the Bad Harzburg Stiftung For the implementation of this web application we use the UI framework React in the frontend which communicates via a GraphQL interface with the Content Management System Strapi in the backend The use of this system enables our project partner to create an efficient process from scanning analog pictures to presenting them to visitors in an organized and annotated way To customize the solution for both picture delivery and information contribution for our target group we designed prototypes and evaluated them with people from Bad Harzburg This helped us gain valuable insights into our system s usability and future challenges as well as requirements Our web application is already being used daily by our project partner During the project we still came up with numerous ideas for additional features to further support the exchange of knowledge **Kenneth Strickfaden, Dr.**

Frankenstein's Electrician Harry Goldman,2014-09-17 Kenneth Strickfaden innovative genius of illusionary special effects from silent films to the age of television set the standard for Hollywood s mad scientists Strickfaden created the science fiction apparatus in more than 100 motion picture films and television programs from 1931 s Frankenstein to the Wizard of Oz and The Mask of Fu Manchu to television s The Munsters The skilled technician known around Hollywood s back lots as Mr Electric once doubled for Boris Karloff in a dangerous scene and was nearly electrocuted From his birth in 1896 to his

death in 1984 Strickfaden's life was filled with adventure. He spent his early years working the amusement parks on both coasts, served overseas as a Marine during World War I, took a 1919 cross country trip in a dilapidated Model T and favored risky pursuits like automobile and speedboat racing. He worked as an aeronautical mechanic constructing airplanes for an historic around the world flight. A science teacher at heart, he gave 1,500 traveling science demonstration lectures across the U.S. and Canada. Besides covering Strickfaden's entire personal and professional life, this book discusses how later films show his influence. It reveals the fate of his collection of equipment and is richly illustrated with numerous rare and previously unpublished photographs. Appendices provide a selection of notes, doodles and scribbles from Strickfaden's notebooks, informal sketches, correspondence documents, a chronology of his film and television contributions, a bibliography, a film index and a complete subject index.

Talkies, Road Movies and Chick Flicks Heidi Wilkins, 2016-02-19 The representation of gender in film remains an intensely debated topic, particularly in academic considerations of US mainstream cinema where it is often perceived as perpetuating rigid binary views of gender and reinforcing patriarchal dominant notions of masculinity and femininity. While previous scholarly discussion has focused on visual or narrative portrayals of gender, this book considers the ways that film sound—music, voice, sound effects and silence—is used to represent gender. Taking a socio-historical approach, Heidi Wilkins investigates a range of popular US genres including screwball comedy, the road movie and chick flicks to explore the ways that film sound can reinforce traditional assumptions about masculinity and femininity, impart ambivalent meanings to them or even challenge and subvert the notion of gender itself. Case studies include *His Girl Friday*, *Easy Rider* and *Bridesmaids*.

The Cinema of Steven Soderbergh Andrew de Waard, R. Colin Tait, 2013-05-07 The industry's only director, cinematographer, screenwriter, producer, actor, editor, Steven Soderbergh is contemporary Hollywood's most innovative and prolific filmmaker. A Palme d'Or and Academy Award winner, Soderbergh has directed nearly thirty films, including political provocations, digital experiments, esoteric documentaries, global blockbusters and a series of atypical genre films. This volume considers its slippery subject from several perspectives, analyzing Soderbergh as an expressive auteur of art cinema and genre fare, as a politically motivated guerrilla filmmaker and as a Hollywood insider. Combining a detective's approach to investigating the truth with a criminal's alternative value system, Soderbergh's films tackle social justice in a corporate world embodying dozens of cinematic trends and forms advanced in the past twenty-five years. His career demonstrates the richness of contemporary
