The Mechanism Of Mind

RD Boyd

The Mechanism Of Mind:

The Mechanism of Mind Edward de Bono, 2015-07-02 The Mechanism of Mind presents Edward de Bono's original theories on how the brain functions, processes information and organises it. It explains why the brain the mechanism can only work in certain ways and introduces the four basic types of thinking that have gone on to inform his life's work namely natural thinking, logical thinking, mathematical thinking and lateral thinking. De Bono also outlines his argument for introducing the word PO as an alternative to the word NO when putting lateral thinking into practice. Drawing on colourful visual imagery to help explain his theories and thought processes from light bulbs and sugar cubes to photography and water erosion. The Mechanism of Mind remains as fascinating and as insightful as it was when it was first published in 1969. This is a must read for anyone who wants to gain a greater understanding of how the mind works and organises information and how Edward de Bono came to develop his creative thinking tools.

The Mechanism of Mind Edward De Bono, 1967 **The Mechanism of Mind**, 1971 *The Mechanism of Mind* Simon Nelson Patten, 1917 Edward de Bono and the Mechanism of Mind Peter Fritz Walter, 2015-07-09

Edward de Bono and the Mechanism of Mind Great Minds Series Vol 5 is a study that features one of the greatest think tanks of our time. Born in 1933 in Malta, he has been a training expert, corporate consultant, writer and philosopher of world renown for decades. He has been a corporate consultant for DuPont, Exxon, Shell, Ford, IBM, British Airways, Ciba, Geigy, Citibank, to name a few. Unlike many other corporate training experts, Dr de Bono went way beyond the job of a corporate trainer and is to be considered a true business philosopher and conceptualist. His research on perception and the memory matrix of the human brain has had a decisive impact upon accelerated learning. Dr de Bono is the creator of many creativity boosting games and training programs among them the concept of lateral thinking and the 6 Thinking Hats brainstorming technique. In various countries, governments use his techniques in primary schools and high schools for boosting the creativity and learning skills of their students. He has written numerous books with translations into 34 languages, all the major languages plus Hebrew, Arabic, Bahasa, Urdu, Slovene, Turkish, etc. and has been invited to lecture in 52 countries around the world. In 1995, the Malta Government awarded Edward de Bono the Order of Merit. This is the highest award available and is limited to only twenty living persons. For many thousands, indeed millions of people worldwide, Edward de Bono's name has become a symbol of creativity and new thinking.
