Outline of Christian Ethics Kwing Hung, 2014-10-14 Outline of Christian Ethics is a Q yet the extent of the book is broad and deep Dr Hung does not use purely rational and argumentative methods he employs the method of lighthearted conversation with the reader Every chapter is introduced with some stories to stir up the interest of the reader Furthermore statistical facts are added to strengthen the persuasive power of the points made The wealth of information contained in this book will help busy pastors and Christians find the necessary information quickly Rev Dr Peter Au principal Canadian Chinese School of Theology at Tyndale Seminary Toronto *Rousseau's Ethics of Truth* Jason Neidleman, 2016-07-01 In 1758 Rousseau announced that he had adopted vitam impendere vero dedicate life to truth as a personal pledge Despite the

dramatic nature of this declaration no scholar has yet approached Rousseau's work through the lens of truth or truthseeking. What did it mean for Rousseau to lead a life dedicated to truth? This book presents Rousseau's normative account of truthseeking, his account of what human beings must do if they hope to discover the truths essential to human happiness. Rousseau's writings constitute a practical guide to these truths; they describe how he arrived at them and how others might as well. In reading Rousseau through the lens of truth, Neidleman traverses the entirety of Rousseau's corpus and in the process reveals a series of symmetries among the disparate themes treated in those texts. The first section of the book lays out Rousseau's general philosophy of truth and truthseeking. The second section follows Rousseau down four distinct pathways to truth: reverie, republicanism, religion, and reason. With a strong grounding in both the Anglophone and Francophone scholarship on Rousseau, this book will appeal to scholars across a broad range of disciplines.

Hermeneutical Theology and the Imperative of Public Ethics Paul S. Chung, 2013-10-23. *Hermeneutical Theology and the Imperative of Public Ethics* is a groundbreaking attempt to present constructive missional theology in an integrative and interdisciplinary framework as it provocatively utilizes and contextualizes Reformation theology and hermeneutics concerning ethical theology embedded within the wider horizon of World Christianity. Mission as constructive theology is explored and refined in an hermeneutical and interdisciplinary fashion underlying a new horizon of postcolonial theology and mission in light of God's act of speech. Missional church founded up God's grace of justification and Christ's diakonia of reconciliation becomes ethically oriented public church as it is engaged in multireligious diversity of people's lives and lifeworld in the postcolonial context of World Christianity.

Lutherrenaissance Past and Present Christine Helmer, Bo Kristian Holm, 2015-06-17. This volume makes a distinctive contribution to the upcoming 500th anniversary of Luther's reformation by looking back to the previous centennial in 1917 and tracing forward the enduring impact of the questions raised by Lutheran scholars then to contemporary research in religious studies, history, and theology. The great flourishing of interest in Luther's religious experience and thought in Berlin at the turn of the twentieth century was known as the Lutherrenaissance, an extraordinarily generative moment of scholarly creativity within the Lutheran tradition. Thinkers such as Holl Harnack and Otto took up questions that would reverberate throughout twentieth-century

religious and theological inquiry on the nature of history for instance dialectical theology and the question of mysticism in religious experience The Lutherrenaissance also planted the seeds of a political theology that contributed to the alliance of Lutheran theologians with National Socialism Contributors to this volume attentive to both to the rich contributions of the Lutherrenaissance and its darker consequences open an unprecedented conversation across the century Then and now the study of religion and theology were in periods of transition then and now scholars were working at the very foundations of the various disciplines of religious inquiry across the social sciences and humanities Contributors aim to bring the critical insights of that period to bear on key questions in the study of religion and theology today with particular attention to the global context within which present day scholars work It exemplifies new perspectives in Luther scholarship today the rich and fertile grounds of the Lutheran tradition in its engagement with unprecedented global circumstances
