

# Social Movements

The background of the slide is a painting. It depicts a group of people, mostly men, on a sidewalk. Some are standing, some are sitting or lying down. They appear to be in a state of protest or civil unrest. In the background, there is a building with a sign that says 'HOTEL'. The overall style is somewhat abstract and expressive, with a color palette dominated by earthy tones like browns, tans, and greys, with some brighter colors like red and blue.

**The Loud Minority** Daniel Q. Gillion, 2022-05-17 How political protests and activism influence voters and candidates The silent majority a phrase coined by Richard Nixon in 1969 in response to Vietnam War protests and later used by Donald Trump as a campaign slogan refers to the supposed wedge that exists between protestors in the street and the voters at home The Loud Minority upends this view by demonstrating that voters are in fact directly informed and influenced by protest activism Consequently as protests grow in America every facet of the electoral process is touched by this loud minority benefiting the political party perceived to be the most supportive of the protestors messaging Drawing on historical evidence statistical data and detailed interviews about protest activity since the 1960s Daniel Gillion shows that electoral districts with protest activity are more likely to see increased voter turnout at the polls Surprisingly protest activities are also moneymaking endeavors for electoral politics as voters donate more to political candidates who share the ideological leanings of activists Finally protests are a signal of political problems encouraging experienced political challengers to run for office and hurting incumbents chances of winning reelection The silent majority may not speak by protesting themselves but they clearly gesture for social change with their votes An exploration of how protests affect voter behavior and warn of future electoral changes The Loud Minority looks at the many ways that activism can shape democracy
