Philosophising Experiences and Vision of the Female Body, Mind, and Soul: Historical Context and Contemporary Theory Musingafi, Maxwell Constantine Chando, Mafumbate, Racheal, Khumalo, Thandi Fredah, 2021-04-23

Much of our understanding of the world our societies and ourselves rests on theories and knowledge generated predominantly by men of certain nationalities and economic classes This male dominated and culturally specific theorizing and knowledge have generally resulted in the exclusion of women and other groups from the process of formal theorizing and knowledge building Feminism argues that the male dominated knowledge represents a skewed perception of reality and is only partial knowledge Feminism is a generalized wide ranging system of ideas about social life and human experience developed from a woman centered perspective It treats women as the central subjects in the investigative process and seeks to see the world from the distinctive vantage points of women in the social world The best way to empower women and better the situation for women is to take women's daily experiences and their informal theorizing into account and on this basis adopt feminist approaches to building theory and knowledge

Philosophising Experiences and Vision of the Female Body Mind and Soul Historical Context and Contemporary Theory provides an overview and introduction to the study of feminist theory and practice in the social sciences This book provides a starting point for further and more advanced study of the nexus of feminism gender and development and translates feminist theory and concepts into practice The chapters investigate in a historical context mainstream and contemporary theories of feminism and gender studies This book is ideal for post graduate students of social science researchers of development management business management public governance and gender and development activists feminists and practitioners stakeholders researchers academicians and students interested in feminist theory and knowledge building

African Womanhood and the Feminist Agenda Musingafi, Maxwell Constantine Chando, Hungwe, Chipu, 2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood Frequently these narratives are crafted by outsiders predominantly Western scholars often distorting the lived experiences and unique perspectives of African women This has led to a skewed and sometimes negative perception of African women reinforcing stereotypes and sidelining their voices in critical discussions Moreover this misrepresentation has real world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women *African Womanhood and the Feminist Agenda* emerges as an essential solution to the misrepresentation of African women This comprehensive and meticulously researched book offers an alternative narrative one that is rooted in African perspectives and experiences It addresses the historical

cultural and political dimensions of African womanhood providing a rich and nuanced understanding of this multifaceted topic

Health Promotion and the Policy Process Carole Clavier, Evelyne de Leeuw, 2013-09-12 Scholars and governments recognize the importance of policy development and implementation for population health but there is a lack of systematic theoretical and conceptual development in the health field to address the issue Health Promotion and the Policy Process is the first book to take an in depth look at the theoretical advances in the political sciences including discussing the significance of political economy and sociology which so far have

made little progress in health promotion development The book argues that focusing on how public policies work makes it possible to move beyond the more behavioural health education approach and make the transition from political statements to political strategies The authors draw from a wide array of theories on the policy process in the fields of political science and political sociology to illuminate health promotion strategies and objectives For example they discuss how Kingdon s Multiple Streams Model Sabatier s Advocacy Coalition Framework and policy network theories can contribute to greater health equity healthy public policies and community development Through practical and critical tools research and experience based discussion Health Promotion and the Policy Process discusses how theories can be used to influence evaluate orient or implement health promotion interventions and policies This book will be essential reading for health promoters who want to make a difference by influencing social determinants of health at the policy level including students public health professionals researchers practitioners decision makers and those concerned with applied policy research

Whitaker's Books in Print ,1998 **Structural Social Work** Robert P. Mullaly,1997 The need for an alternative to conventional social work is more obvious today than ever before Given its acceptance of our present social order and its emphasis on reform of the individual and limited social reform conventional social work appears powerless to deal with the increasing social problems that have already overloaded a diminishing welfare state By continuing to recycle mainstream theories of social work practice that do nothing to change the present order conventional social work actually contributes to the ideological hegemony of patriarchy classism racism and other oppressive thought structures The New Structural Social Work reveals the shortcoming of welfare capitalism as a social system and shows how conventional social work has failed to respond to systemic social problems Mullaly presents a coherent and consistent theory of progressive social work with oppression as its central focus and examines elements of its political practice It is shown how this practice is carried out within the social agency outside the agency and within the personal lives of structural social workers This third edition has been extensively revised and updated and includes DT an expanded discussion of the political paradigms that influence social work in Canada DT a new chapter on feminist antiracist and postmodernist critiques of the neo conservative liberal social democratic and Marxist paradigms that dominated the nineteenth and twentieth centuries DT a new chapter that assesses the influence of the Third Way and the role that social work plays in Third Way jurisdictions such as the UK DT improved pedagogical aids to make this book more accessible to the mid level university market [The Cumulative Book Index](#) ,1999
