*Socially Responsible Investment* Kerstin Strasser, 2011-12-20 Seminar paper from the year 2011 in the subject Business economics Investment and Finance grade 2

University of Innsbruck Department of Banking and Finance course Sales Management language English abstract In the light of the financial crisis SRI Socially responsible investment became popular as never before SRI has already been around for quite some time before the crisis but this industry has never seen such a volume increase as in the last 4 years The EU market for SRI almost doubled since 2007 Cropper 2010 This clearly shows that the events forcing the financial crisis motivated investors to rethink their criteria for making their investment decisions Naturally such a high growth rate of an industry comes from an increasing demand In order to satisfy the increasing demand for SRI products the SRI industry is going through a transformative and innovative phase exploring new areas for SRI creating new products and services However SRI investment has a very broad definition band and cannot be boxed in easily Hence as good as it might be SRI investment brings also many challenges with it because it is such a broad concept Therefore the purpose of this paper is to give an overview about what SRI is and to find answers to the question of How sustainable SRI is In the first chapter the paper will discuss the different definitions and motivations for SRI investments The second chapter will take a closer look on the history of the SRI market and the different categories and approaches to create an SRI portfolio Further it will present the available product categories of the SRI market The third chapter will analyse the development of the SRI market in Europe and the US In the fourth chapter the performance of socially responsible investment will be analyzed Finally the fifth chapter will discuss the main constraints of SRI

Socially Responsible Investment. ECG Factors Julian Popov, 2018-02-20 Akademische Arbeit aus dem Jahr 2017 im Fachbereich BWL Bank B rse Versicherung Note 1 0 Henley Business School University of Reading Veranstaltung Topics in Finance Sprache Deutsch Abstract Investors talk about increasing profits minimising transaction costs or how to evade taxes most effectively but very few investors consider if the company contributes something to society treats employees with respect or tries to reduce harm to environment in fact they do not invest socially responsible But what is socially responsible and how can firms be obtained which make the grade This essay provides a short overview about the history of Socially Responsible Investing SRI and its terminology Furthermore different investment strategies are explained in order to understand the depth and the variety of possibilities using these strategies Knowing these facts the main reason for investors to invest lies within the nature of things the return Every good intention will be flooded by the opposite if the good intention does not perform well and the sinners stocks achieve excess returns The overall opinion about SRI and the most common theory is that the SRI approach is underperforming the market as the investor is restricted in stock selection which decreases the possible level of diversification eventually leading to a lower risk return level But do SRI portfolios

underperform the market respectively the Sin Stocks Moreover this paper tries to use statistical approaches to approve or disapprove the abovementioned theory By regressing the returns of the biggest social index the KLD 400 against the returns of the S P500 and the biggest Sin Stocks Fund called VICEX an informed choice will be possible Furthermore the investment approaches will be analysed in the overall context of their long term performance and possible explanations for under and overperformance In addition this essays appendix provides an approach of investing fulfilling the criteria of SRI and the ESGs which stands for environmental social and corporate governance criteria This project deals with the increasing amount of refugees coming to Germany and the consequent lack of real estate supply This lack of supply causes difficulties regarding the integration process which will eventually lead to a separation of the community and increasing appeal of right wing populists

### **Sustainability and Social Responsibility: Regulation and Reporting**

Graham Gal,Orhan Akisik,William Wooldridge,2017-08-08 This book addresses key issues related to the choice between governments regulating and enforcing society s sustainability and social responsibility objectives and firms reporting on their sustainable and socially responsible activities so stakeholders can exert pressure on firms to achieve society s goals While these may be considered as the two endpoints of a continuum it is clear that there are differing perspectives on the role of governments in sustainability and responsibility At one end of this continuum are stakeholders who believe the only way to achieve a sustainable and socially conscious society is to establish and enforce regulations with the concomitant governmental organizations to oversee and enforce those regulations At the other end are those who consider firms to be crucial organizations for achieving sustainability and socially responsible outcomes and who feel it is the responsibility of stakeholders to determine the legitimacy of firms actions It is probably not the case that any economies exist at either end of this continuum but it is clear that the availability of reliable information is critical for any stakeholder to review the performance of either the governments or the firms This book presents a varied set of papers that explore the issues that must be considered regardless of which position a stakeholder takes
