*Social Structure* Alfred Reginald Radcliffe-Brown, 1963      *The Theory of Social Structure* S.F. **Radcliffe-Brown. Meyer Fortes** Meyer Fortes, 1963      *The Essential Edmund Leach: Anthropology and society* Edmund Ronald Leach, Senior Research Fellow James Laidlaw, 2000-01-01 This volume contains a selection of Edmund Leach's writings on society taken largely though not exclusively from the early part of his career It includes such essays as *Rethinking Anthropology* and extracts from *Political Systems of Highland Burma*      *Human Organizations and Social Theory* Murray J. Leaf, 2010-10-01 In the 1930s George Herbert Mead and other leading social scientists established the modern empirical analysis of social interaction and communication enabling theories of cognitive development language acquisition interaction government law and legal processes and the social construction of the self However they could not provide a comparably empirical analysis of human organization The theory in this book fills in the missing analysis of organizations and specifies more precisely the pragmatic analysis of communication with an adaptation of information theory to ordinary unmediated communications The study also provides the theoretical basis for understanding the success of pragmatically grounded public policies from the New Deal through the postwar reconstruction of Europe and Japan to the ongoing development of the European Union in contrast to the persistent failure of positivistic and Marxist policies and programs

Macksey, Eugenio Donato, 2007-09-04 At a 1966 international symposium hosted by the Johns Hopkins University many of the leading figures of European structuralist criticism first

presented their ideas to the American academic community The proceedings of this event which proved epoch making on both sides of the Atlantic were first published by the Johns Hopkins University Press in 1970 and are now available once again with a reflective new preface by editor and symposium convener Richard Macksey Thicker Than Water Melissa Meyer, 2014-02-04 Blood is more than a fluid solution of cells platelets and plasma It is a symbol for the most basic of human concerns life death and family find expression in rituals surrounding everything from menstruation to human sacrifice Comprehensive in its scope and provocative in its argument this book examines beliefs and rituals concerning blood in a range of regional and religious contexts throughout human history Meyer reveals the origins of a wide range of blood rituals from the earliest surviving human symbolism of fertility and the hunt to the Jewish bris and the clitoridectomies given to young girls in parts of Africa The book also explores how cultural practices influence gene selection and makes a connection with the natural sciences by exploring how color perception influences the human proclivity to create blood symbols and rituals The Realism Reader Colin Elman, Michael Jensen, 2014-08-12 The Realism Reader provides broad coverage of a centrally important tradition in the study of foreign policy and international politics After some years in the doldrums political realism is again in contention as a leading tradition in the international relations sub field Divided into three main sections the book covers seven different and distinctive approaches within the realist tradition classical realism balance of power theory neorealism defensive structural realism offensive structural realism rise and fall realism and neoclassical realism The middle section of the volume covers realism s engagement with critiques levelled by liberalism institutionalism and constructivism and the English School The final section of the book provides materials on realism s engagement with some contemporary issues in international politics with collections on United States U S hegemony European cooperation and whether future threats will arise from non state actors or the rise of competing great powers The book offers a logically coherent and manageable framework for organizing the realist canon and provides exemplary literature in each of the traditions and dialogues which are included in the volume Offering substantial commentary and analysis and including enhanced pedagogy to facilitate student learning The Realism Reader will provide a one stop shop for undergraduates and masters students taking a course in contemporary international relations theory with a particular focus on realism

**Middle Class African Marriage** Christine Oppong, 2023-07-05 In the 1970s among peoples of the third world migration paid employment and urban living had caused changes in domestic economies in decision making in households and in the sexual division of labour and power This was particularly so in areas formerly subjected to colonial domination and therefore the influence of European mores and institutions This book previously published in 1974 as *Marriage Among a Matrilineal Elite* this edition in 1981 provides one of the few detailed accounts of such changes by a writer who has lived the kind of life she describes that of the urban educated Akan of Southern Ghana people who have migrated from farming and fishing villages to Accra the capital to find employment in government institutions after protracted higher education often overseas

The study is particularly interesting because it focuses upon people from an ethnic area practicing matrilineal descent and inheritance in which women and men have traditionally both worked in agriculture in which husbands and wives have customarily resided in separate houses affording both sexes considerable autonomy as spouses and in which women have held important political offices as well as sharing responsibilities for maintenance of dependent children Akan women provide an important model of responsible energetic females who have in the past and to some extent in the present avoided the domestic trap of wifely dependence But as we read the trap is open to those who forsake traditional patterns of economic endeavour or whose resources vis vis their men folk are reduced The book was also a significant contribution to the comparative sociology of the family at the time providing an exercise in methodology in which the aim has been to evolve ways of documenting and comparing two major aspects of change in conjugal family relationships On one hand the division of labour resources and power between spouses the jointness or segregation of the conjugal role relationship and on the other the extent to which the conjugal family is a functionally discrete unit in a number of domestic activity areas in popular and ambiguous terms whether the family is extended or nuclear The use of sociological concepts developed in other areas of the world gives this book a significant position in the development of a cross culturally valid sociology of the family The subject matter and conceptual frameworks used here will thus be of interest to sociologists economists and anthropologists in general and to specialists in African and Black studies Women s Studies and Sex Roles in particular as well as to the male and female feminists around the world

**An Inquiry Into the Nature of the Family , Ethnography and the Historical Imagination** John Comaroff, Jean Comaroff, 2019-04-02 Over the years John and Jean Comaroff have broadened the study of culture and society with their reflections on power and meaning In their work on Africa and colonialism they have explored some of the fundamental questions of social science delving into the nature of history and human agency culture and consciousness ritual and representation How are human differences constructed and institutionalized transformed and sometimes effaced empowered and sometimes resisted How do local cultures articulate with global forms How is the power of some people over others built sustained eroded and negated How does the social imagination take shape in novel yet collectively meaningful ways Addressing these questions the essays in this volume several never before published work toward an imaginative sociology demonstrating the techniques by which social science may capture the contexts that human beings construct and inhabit In the introduction the authors offer their most complete statement to date on the nature of historical anthropology Standing apart from the traditional disciplines of social history and modernist social science their work is dedicated to discovering how human worlds are made and signified forgotten and remade

**Literature as System** Claudio Guillen, 2015-03-08 Writing in the tradition of Ortega y Gasset s History as a System and Saussure s linguistic model Claudio Guill n proposes a structural approach to literary history Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished

backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Social Structure Meyer Fortes,1963      *Fanti Kinship and the Analysis of Kinship Terminologies* David B.

Kronenfeld,2023-12-11 This book examines Fanti kinship terminology from a variety of analytic and formal perspectives Based on work with a broad number of informants David B Kronenfeld details and analyzes internal variation in usage within the Fanti community shows the relationship between terminology and social groups and communicative usage and relates these findings to major theoretical work on kinship and on the intersections of language thought and culture The terminological analysis in this study employs a great variety of formal approaches assesses the strengths and weaknesses of each approach and covers a wide range of types of usage This work also performs a systematic formal analysis of behavior patterns among kin joining this approach with the analysis of a kinship terminological system Rather than treating kinship terminology as a special isolated piece of culture this study also ties its analysis to more general semantic and cultural theoretical issues Including computational and comparative studies of kinship terminologies this volume represents the fullest analysis of any kinship terminological system in the ethnographic record      **An Introduction to Theory in**

**Anthropology** Robert Layton,1997 In this innovative introduction Robert Layton reviews the ideas that have inspired anthropologists in their studies of societies around the world An Introduction to Theory in Anthropology provides a clear and concise analysis of the theories and traces the way in which they have been translated into anthropological debates The opening chapter sets out the classical theoretical issues formulated by Hobbes Rousseau Marx and Durkheim Successive chapters discuss Functionalism Structuralism Interactionist theories and Marxist anthropology while the final chapters address the competing paradigms of Socioecology and Postmodernism Using detailed case studies Professor Layton illustrates the way in which various theoretical perspectives have shaped competing or complementary accounts of specific human societies      **Out of Time** Nicholas Thomas,1996 A lucid theoretical reflection on the intersection of anthropology and history

Feasting and Social Oscillation A. Thomas Kirsch,1973 This work argues that anthropologists have observed and recorded religious rites and rituals but have largely ignored the role of religion when constructing an analytical framework The author contends that religious phenomena are inextricably intertwined with issues of power politics and economics among the upland groups such as the Kachin of Southeast Asia      Issues in Resource Management and

Development in Kenya Robert A. Obudho,J. B. Ojwang,2000      Resources for the Teaching of Anthropology David G.
