insight into the distinctiveness of his own claims **A Primer in Social and Sociological Theory** Kenneth Allan, 2010-04-14 A fascinating guide to thinking theoretically about the social world Organized around the discourses of modernity democracy and citizenship A Primer in Social and Sociological Theory Toward a Sociology of Citizenship helps readers to develop skills in critical thinking and theory analysis as they explore nine central ideas of thought modernity society self religion capitalism power gender race and globalization Each chapter concludes with a section that discusses the craft of citizenship as it relates to the chapter content **Social Theories of History and Histories of Social Theory** Harry F. Dahms, 2013-12-11 Representing a range of approaches and emphasizes the chapters in this volume address and illustrate linkages between social theory and history social theory and historical analysis as mutually supportive frames of analysis and affinities between the history of social thought and the history of modern societies *Sociological Objects* Geoff Cooper, Andrew King, Ruth Rettie, 2009 This volume interrogates the changing relationship between contemporary and classical sociology and the conceptual and theoretical foundations of the discipline In three thematic sections the book explores the conception of sociological objects social practice and social theory **Dimensions of Sociological Theory** David Cheal, 2005-01-21 There are many differences of opinion between sociologists about how best to investigate social issues and about the quality of the answers that different questions produce This book looks at a range of sociological theories from the last two hundred years taking a thematic approach that helps students to better integrate the material and to understand the significance of the individual theorists With illustrations from the work of John Stuart Mill Emile Durkheim Talcott Parsons Karl Marx Karl Mannheim Michel Foucault Anthony Giddens and Erving Goffman this book provides an accessible and comprehensive guide for introductory students of sociology and social theory
