Thesis and Theoretical Perspectives

The book "Social Things: An Introduction to the Sociological Life" by Lemert (2012) focuses on introducing sociologic concepts and theories through various interpretations and stories. The author's main thesis is a broad presentation of sociology, including such sections as the history and the connection with other disciplines (new post-disciplinary social theory, queer theory, globalization, etc.). The theoretical perspectives in the mentioned books are contemporary issues regarding sociological life and things on a global scale. For example, the author discusses the tsunami that occurred in Japan in 2011 and the environmental crises, which are man-made disasters largely caused by people. Lemert (2012) argues that it is sociological incompetence along with disorganization that led to such lamentable consequences. Another example is queer theory, the onset of which refers to gender identity is also interpreted by the author as a theoretic perspective.

Biases, Strengths, and Weaknesses

The only evident bias is associated with the writing style of the author who sometimes rapidly moves to other topics and frequently repeats his thoughts regarding one or the other issue. It may seem that the author wants to clarify his attitude to a certain topic by being as much precise as possible. However, this distracts a reader from the main point to some extent. As a result, the style seems to be incoherent and inaccurate. As for the presentation of facts, there is no bias.

Speaking of the strengths of the given book, one may note that it presents the modern realities and helps to understand them. It is one of those books that make it clear what one or the other event or disaster means on a global scale in terms of
