Dandaneau, 2001-01-24 For use as a primary or supplemental text for Introductory Sociology Social Theory and senior capstone courses An unabashedly critical text for those who want to connect their students personal experiences with what is happening at the societal global level today The emphasis is on teaching the sociological imagination i e to instill in students a unique and radical form of consciousness that will allow them to conceptualize today s chief global and individual problems

and the relations between them Dandaneau adopts a perspective like that of C Wright Mills and argues that the sociological imagination is the most needed type of consciousness in the world today The author encourages students to think through a wide variety of topics from ecological crises to panic disorder from hyperreality to the sociology of disability from Generation X to Generation Next As Dandaneau says The point is not so much to learn the truth but to learn how to think about essential issues and troubles as sociologists themselves try to do to become a participant with others in facing down the challenges of our present epoch It is an elegant and profound meditation on thinking sociologically Written with a rare panache one seldom finds in sociology it s the product of a view of contemporary social life that is profoundly troubling What this adds up to is a distinctive sociological and moral voice Peter Kivisto Augustana College Rock Island Illinois *The Sociology of Community Connections* John G. Bruhn, 2011-07-18 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world particularly in the United States Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century Nonetheless people exist in groups and connections are vital to their existence and in the daily performance of activities The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future

early career teachers so that they can more successfully transition into the profession The Socially Just School John Smyth, Barry Down, Peter McInerney, 2014-07-08 This book explores schools and how they can function as social institutions that advance the interests and life chances of all young people especially those who are already the most marginalized and at an educational disadvantage Social justice is a key theme as the book examines the needs of youth the concept of school culture school community relations socially critical pedagogy curriculum and leadership and a socially critical approach to work The Socially Just School is based upon four decades of intensive writing and researching of young lives This work presents an alternative to the damaging school reform in which schools are made to serve the interests of the economy education systems the military corporate or national interests Readers will discover the hallmarks of socially just schools They educationally engage young people regardless of class race family or neighbourhood location and they engage them around their own educational aspirations They regard all young people as being morally entitled to a rewarding and satisfying experience of school not only those whose backgrounds happen to fit with the values of schools They treat young people as having strengths and being at promise rather than being at risk and with deficits or as bundles of pathologies to be remedied or fixed They are active listeners to the lives and cultures of their students and communities and they construct learning experiences that are embedded in young lives This highly readable book will appeal to students and scholars in education and sociology as well as to teachers and school administrators with an interest in social justice **Wealth, Whiteness, and the Matrix of Privilege** Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power Wealth Whiteness and the Matrix of Privilege shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it is not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities **Feminist Fieldwork Analysis** Sherryl Kleinman, 2007-04-20 Advice for researchers who want to translate a feminist sensibility into qualitative analysis Each chapter provides a guiding feminist principle studies that show the principle in action and analytic questions that researchers can keep in mind in the field or at the desk Taking Up Space Pattie Thomas, Ph.D., 2005-10-01 Taking Up Space is a sociological memoir about being fat and the physical emotional and economic costs of trying to pass for thin in a culture that stigmatizes fat people Making her own life a case study medical sociologist Pattie Thomas Ph D with the help of her co author and husband Carl Wilkerson M B A outlines how stigma limit and shape the life chances of all people and are supported within culture Through narrative text

poetry essays photos and drawings Dr Thomas shares her own process and demonstrates how a sociologically examined life can be a source for personal growth An extensive resource section challenges both the popular reader and the academic to further exploration Kathleen LeBesco author of *Revolting Bodies The Struggle to Redefine Fat Identity* has called *Taking Up Space* a road map through the minefield of the war on obesity Foreword by Paul Campos author of *The Obesity Myth* published in paperback as *The Diet Myth* The original trade paperback edition of *Taking Up Space* was published in 2005 The ebook edition was published in 2012 and contains an additional updated preface
