The Countryside in the Age of the Modern State Catherine McNicol Stock, Robert D. Johnston, 2018-05-31 However urban the nation has become Catherine McNicol Stock and Robert D Johnston write twenty percent of its citizens still live outside major metropolitan areas Moreover rural economic activity agricultural extractive recreational and industrial has an enormous impact on the nation's overall economic well being The stories of contemporary rural people still have the power to move us They reflect the values dreams and ideals at the core of the economically racially and ethnically diverse American experience The Countryside in the Age of the Modern State moves rural history into explorations of modern politics diverse rural peoples and their complex relationships to the American state in the twentieth century The volume's contributors examine African American progressive farm organizers the experiences of Caribbean and Mexican farm laborers agrarian intellectuals in the New Deal the politics of land and landscape in the Rocky Mountain west and the origins of today's rural political movements *In the Struggle* Daniel J. O'Connell, Scott J. Peters, 2021-07-13 Scholars working for communities rights in California's Central Valley *In the Struggle* tells the story of the persistent engagement of eight public scholars spanning generations of sustained endeavor a dogged war in which workers and scholars together repeatedly took on the powerful agricultural industry the political machines and even the universities The stories begin in the 1930s with Paul Taylor a professor of economics at University of California Berkeley who pioneered field research and activism as he travelled through the areas marked by the Great Depression together with his wife photographer Dorothea Lange Working in the heart of California's agricultural Central Valley Taylor was the first of a succession of scholars who shared the dual commitment to research and engagement to making problems visible and to effecting change through strategic action Taylor and Lange intentionally wove their political engagement into their identities and work as researchers as they conducted studies led strikes organized underserved communities founded community development programs created nonprofit institutions and more This book documents a tradition of politically engaged scholarship in one of the world's most dramatic contexts full of disparities and contradictions but also ripe with opportunities to make a difference It covers a struggle that continues undiminished in the present **The Fruits of Their Labor** Cindy Hahamovitch, 1997 In 1933 Congress granted American laborers the right of collective bargaining but farmworkers got no New Deal Cindy Hahamovitch's pathbreaking account of migrant farmworkers along the Atlantic Coast shows how growers enlisted the aid of the state in an unprecedented effort to keep their fields well stocked with labor This is the story of the farmworkers_Italian immigrants from

northeastern tenements African American laborers from the South and imported workers from the Caribbean_who came to work in the fields of New Jersey Georgia and Florida in the decades after 1870 These farmworkers were not powerless the author argues for growers became increasingly open to negotiation as their crops ripened in the fields But farmers fought back with padrone or labor contracting schemes and work or fight forced labor campaigns Hahamovitch describes how growers efforts became more effective as federal officials assumed the role of padroni supplying farmers with foreign workers on demand Today s migrants are as desperate as ever the author concludes not because poverty is an inevitable feature of modern agricultural work but because the federal government has intervened on behalf of growers preventing farmworkers from enjoying the fruits of their labor
