Defence Industries in the 21st Century Çağlar Kurç, Richard A. Bitzinger, Stephanie G. Neuman, 2021-05-13 Defence Industries in the 21st Century explores the transformation in the global defence industrial production through examining the interaction between international and domestic factors With the global defence industry and arms market likely continue to expand and mature the ways in which this progression could influence international politics remain obscure In practice as the contents of this book show the defence industrial bases and arms export policies of emerging states display significant variance This variance is the result of a unique balance between domestic and international factors that has shaped the defence industrialisation behaviour and policies of the less industrialised states One of the most important conclusions of the book is that the interplay between domestic and international factors clearly influences the variation in the emerging states defence industrialisation policies as well as their success or failure While international factors create opportunities they also limit the options available to emerging economies Domestic factors also play an important role by shaping the policy choices of the states decision makers Exploring the balance between international and domestic factors and the ways in which they influence defence industrialisation in emerging states Defence Industries in the 21st Century will be of great interest to scholars of Defence Industries Arms Manufacturing and Defence Strategic and Security Studies more generally The chapters were originally published in Defence Studies Comparative Strategy and All Azimuth

The Shadow Factory James Bamford, 2009-07-14 James Bamford has been the preeminent expert on the National Security Agency since his reporting revealed the agency's existence in the 1980s Now Bamford describes the transformation of the NSA since 9 11 as the agency increasingly turns its high tech ears on the American public The Shadow Factory reconstructs how the NSA missed a chance to thwart the 9 11 hijackers and details how this mistake has led to a heightening of domestic surveillance In disturbing detail Bamford describes exactly how every American's data is being mined and what is being done with it Any reader who thinks America's liberties are being protected by Congress will be shocked and appalled at what is revealed here

Air Defence Artillery in Combat, 1972 to the Present Mandeep Singh, 2020-11-23 It covers chapter by chapter the anti air battle in wars from Yom Kippur 1973 onwards a readable well researched and well presented book Army Rumour Service ARRSE Anti aircraft artillery truly came into prominence during the Second World War shooting down more aircraft than any other weapon and seriously affecting the conduct of air operations Development continued into

the Cold War resulting in the extensive introduction of surface to air missiles or SAMs. Though the first combat success of such weapons was during the Vietnam War when a Soviet designed S 75 Dvina missile shot down a USAF F 4C Phantom on 24 July 1965, it was the Yom Kippur War of 1973 which brought surface to air missiles to the center stage. During this short but bitter conflict, Egyptian and Syrian air defenses shot down nearly fifty Israeli aircraft in the first three days alone, almost a fourth of Israel's entire combat aircraft fleet. In all, Israel lost 104 aircraft during the war, and for the first time, more aircraft were lost to SAMs than any other cause. The age of surface to air missiles had dawned. In this unique examination, the author details the development of not just surface to air missiles but all anti-aircraft artillery since 1972. The part that such equipment played in all of the major conflicts since then is explored, including the Soviet-Afghan War, the Falklands War in which Rapier was deployed, the conflict in Lebanon, Kosovo, and Bosnia, the Gulf War, Operation Desert Storm in 1991, and Operation Iraqi Freedom in 1993. The investigation is brought right up to date by a study of the weapons, tactics, and engagements seen in the conflicts in Syria and Yemen.

Sustainable Economy Raymond W. Y. Kao, 2010. This book explains how corporate social responsibility is linked to long-term sustainability of an economy and that the activities of an organization should not be only for its self-interest but must also be honed for the benefit of common good. A major approach the book advocates is corporate decision makers in an organization should work towards earning the trust of stakeholders rather than focus on short-term profitability. It also emphasizes the importance of recognizing and rewarding the contribution and commitment by participants of an organization. Written by academics and consultants, this book will be of interest to academicians, media professionals, organizational participants, entrepreneurs, and general public.

Reconstructing a Shattered Egyptian Army Youssef Aboul-Enein, 2014-06-15. Central to CDR Youssef Aboul Enein's career has been the mission to introduce America's military leaders to Arabic works of military significance. Just like American military leaders who had an obsession for all things Russian during the Cold War in order to understand the Soviets, the war on al Qaida, and the complex nuances of the Arab Spring demand a deeper comprehension of the Middle East from direct sources. The memoirs of General Mohamed Fawzi, Egyptian War Minister from 1967 to 1971, were first published in 1984 but his work has not been translated and remains undiscovered by English-speaking readers. Many in the United States Armed Services have yet to be introduced to his ideas, perspectives, and the seeds by which the 1973 Yom Kippur War were laid. In this new contribution to his series of essays written for Infantry Journal, Aboul Enein has determined to bring to life the military thoughts of this Arab War Minister. This book is a joint Infantry Naval Institute Press project that has condensed the entire collection of essays on Fawzi to a single volume to provide future generations of America's military leaders with access to his ideas. Fawzi is unique among Arab generals for his scathing critique of his own armed forces and from his critical examination of what went wrong in 1967, he was able to slowly resurrect the Egyptian Armed Forces to a level that enabled Sadat to consider an offensive in 1973. This Egyptian general will provide insights into the level of Soviet cooperation and military aid provided Egypt after the

1967 Six Day War known simply in Arabic by one word al Naksah the setback not to be confused with the 1948 Arab Israeli War known by one word al Nakbah the catastrophe While Fawzi lapses into conspiracy indulges in wishful thinking and employs the language of pan Arabism on occasion much like Soviet military theorists couched their ideas in Marxist Leninist rhetoric this will not stop serious American students of war from recognizing his brilliance about the lessons learned from the crushing defeat of Egyptian arms in the 1967 Six Day War Los Angeles Magazine ,2005-04 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian
