conformed to personal religious beliefs these practices had two common aims a connection with self others and or an ultimate reality and a need to direct and motivate self and or others to develop an organizational culture founded on a sense of shared community This unique and fascinating work will strongly appeal to entrepreneurship leadership and business and management researchers and scholars with a particular interest in the interplay between entrepreneurship and spiritual leadership

Spiritual Leadership Thomas H. Ulrich, 2020-07-24 Spiritual leadership focuses on what you can experience and how you can work on your self Taking a non religious stance this book introduces readers to a dynamic layer model of the self with inner centricity at its core Leaders will learn how to work at different levels of their personality in order to achieve this inner centricity the inner core balance the foundation of effective leadership in the VUCA world and the foundation of personal authenticity and natural authority Spiritual leadership combines classic leadership theories and models of authentic leadership with philosophical concepts and consciousness and awareness techniques inspired by the contemplative mindfulness movement Practical exercises and illustrative examples support the application of the concept in professional leadership and private everyday life

How Spirituality Impacts Ethical Leadership Mary Rose Johnson, 2020-01-09 Almost weekly we hear about corporate and government leaders breaching ethical and moral standards Indeed in recent years corporate corruption and the misrepresentation of the truth has at times appeared overwhelming At the very least corporate and government scandals suggest that we have a crisis in leadership This research investigated what some leaders in the corporate arena who self identify as having a strong spiritual foundation had to say about the impact of their foundation on how they approached leadership in general and ethical issues in particular The research questions that guided this study were 1 how did self identified spiritual corporate leaders describe their spirituality 2 what spiritual practices did they use to develop their spirituality and 3 what leaders who claim to have a rich spiritual life say about the impact of spirituality on their ethical leadership practice The results of this research mirrored that of Mitroff and Denton 1999 All of the individuals who participated in this research study explained that their spirituality was an important part of their leadership practice Also the framework of spirituality in their leadership practice provided guidance in making moral and ethical decisions What is interesting is that the results were the same in spite of different religious affiliations and included those who did not identify with an organized religion These findings suggest that it is imperative for MBA programs to address ethical issues from a spiritual perspective while steering clear of sectarian commitments

Theory S: Spiritual Leadership of Business Organizations Dr. N.S.P.RAJU, 2018-08-21 Leadership is a key function in the management of any organization Many theories exist for the choice of the best leadership style suiting a given situation But none of these could provide cure for the following maladies of the modern day businesses Intense competition amongst leaders causing abnormal stress and strain and the resultant degenerative diseases Fast paced depletion of natural resources leading to the gravest threat to our ecosystem Frequent recessions of the economy leading to lay offs retrenchments and plant closings The

absence of meaning and purpose in the lives of organizational members The business world is in need of a panacea in the form of Exemplary Leadership that can eradicate above ills Only Spiritual Leadership based on the universal principles of Spirituality can provide the hope of rescue The book provides the quintessential qualities of Spiritual Leadership based upon the world's four major religions i.e. Hinduism Christianity Islam and Buddhism

Spiritually and Developmentally Mature Leadership Daniel E. Harris, Lori Holyfield, Linda Jones, Rhonda Ellis, Judi Neal, 2019-02-21 The book goes beyond theory to offer tools and suggestions for developing emerging leaders Inspired by the pioneering work of leadership scholar Andre Delbecq this book points towards an expanded model of leadership that incorporates an active inner life and posits that such fully human models of leadership will be essential to meet the profound challenges of the 21st Century Without presuming to provide definitive answers the text explores central questions such as What is the added value of spiritual maturity to leadership Would the integration of mature spirituality with well developed intellectual and emotional capacities produce more beneficial leadership outcomes for organizations and individuals What would a spiritually and developmentally mature emerging leader look like in 10 to 20 years How do we prepare emerging leaders for the challenges they may face and how do we model spiritually and developmentally mature leadership in ways that resonate with them Professor Andre Delbecq 1936-2016 of the University of Santa Clara created the heuristic of spiritually and developmentally mature leaders to encapsulate his observation that outstanding leaders often seemed to draw strength and wisdom from sources that are not typically studied or taught in leadership courses Thirty scholars and practitioners accepted Delbecq's heuristic as the starting point to explore spiritual components of leadership that do not easily lend themselves to quantification or clear causal links The analysis of their disciplined engagement with the heuristic forms the foundation of an exploratory fully human understanding of leadership This analysis is supported by literature reviews including an overview of Andre Delbecq's relevant work Ultimately the authors call for further collaboration across disciplines and between research and practice to build on the conceptual constructs offered here and especially to create pedagogies for the training of spiritually and developmentally mature leaders
