Spirituality Matters:

Religion Matters: Volume 2 P. T. Babie, Rick Sarre, 2024-07-19 This book constitutes the second volume of Religion Matters The Contemporary Relevance of Religion Springer 2020 Offering a fresh and much needed perspective it explores the role of religion in the modern neo liberal world The book acclaims that religion is a contextual and contested term which is extensively discussed in the Introduction Designed to be read selectively this book allows readers to delve into topics and traditions of specific interest without the necessity of reading the entire volume In contrast to volume 1 where contributors critically engaged with religion and various disciplines this book poses a fundamental question Can religion contribute to the discipline under consideration Authors were selected based on their ability to address this question Some chapters concluded that religion may offer very little to the discipline under consideration highlighting the value of volume 1 s critical stance on the place of religion in contemporary society However the project s overall aim remained somewhat unfulfilled leading to the creation of this second volume The primary omission from the first book was a comprehensive exploration of the sciences and health sciences which this second volume aims to rectify Furthermore additional authors were chosen to investigate the nature of connectedness facilitated by religion horizontally through membership within wider communities societies cultures or religious traditions and vertically by examining historical relationships within a particular faith tradition culture community or society This volume also broadens its focus to include non Christian perspectives Indigenous perspectives and an increased representation of female contributors

Philippe Huguelet, Harold G. Koenig, 2009-03-30 This book was the first to specifically address the impact of religion and spirituality on mental illness **Engaged Spirituality** Gregory C. Stanczak, 2006 In Engaged Spirituality Gregory C Stanczak challenges this assumption arguing that spirituality plays an important social role as well Based on more than one hundred interviews with individuals of diverse faith traditions the book shows how prayer meditation and ritual provide foundations for activism Among the stories a Buddhist monk in Los Angeles intimately describes the physical sensations of strength and compassion that sweep her body when she recites the Buddha s name in times of selfless service and a Protestant reverend explains how the calm serenity that she feels during retreats allows her to direct her multi service agency in San Francisco to creative successes that were previously unimaginable In an age when Madonna studies Kabbalah and the internet is bringing Buddhism to the white middle class it is clear that formal religious affiliations are no longer enough Stanczak s critical examination of spirituality provides us with a way of discussing the factors that impel individuals into social activism and forces us to rethink the question of how religion and spirituality might be defined Cultivating the Spirit Alexander W. Astin, Helen S. Astin, Jennifer A. Lindholm, 2010-10-26 Cultivating the Spirit THIS GROUNDBREAKING WORK IS BASED on a five year study of how students change during the college years and the role college plays in facilitating the development of their spiritual qualities Students the authors argue grapple with the big questions in life Who am I What are my values Do I have a mission in life Why am I in college What kind of person do I want to be What sort of world do I want to help to create Their answers to these questions help determine their academic and career choices and are tied to the development of personal qualities such as empathy caring and social responsibility The study finds that while

students religious engagement declines during college at the same time they become substantially more caring tolerant connected with others and actively engaged in a spiritual quest Spiritual growth also enhances academic performance leadership development and satisfaction with college The study provides strong evidence pointing to specific experiences during college that can contribute to students spiritual growth The need for spiritual development in college is apparent Two thirds of the students in the study express a strong interest in spiritual matters well over half report that their professors never encourage discussions of religious or spiritual matters and about the same proportion report that professors never provide opportunities to discuss the purpose and meaning of life Cultivating the Spirit aims to raise the awareness of academic administrators faculty and the public at large to the vital role that spirituality plays in student learning and development Throughout the book the authors identify strategies for enhancing students development and encourage the academy to give greater priority to the spiritual aspects of students educational and personal development

A New Old Spirituality? Tone Stangeland Kaufman, 2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals How can their spirituality be characterized and understood Drawing on in depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality practical theology congregational studies and the sociology of religion this book offers a nuanced understanding of clergy spirituality Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors the ministry itself vocational spirituality daily life everyday spirituality and spiritual practices located at the margins of daily life intentional spirituality The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives Hence the author makes the case that their spirituality can aptly be described as a new old spirituality The book also seeks to nuance Paul Heelas's and Linda Woodhead's Spiritual Revolution claim and thus engages in the broader spirituality vs religion discourse A New Old Spirituality is an exciting example of how qualitative empirical research can be used in creative ways to make a practical theological argument It is a book for scholars students and practitioners

The Church and Employment Law John Duddington, 2022-12-16 This book examines the current law on the employment status of ministers of religion together with religious workers and volunteers and suggests reforms in this area of the law to meet the need for ministers to be given a degree of employment protection It also considers the constant theme in Christian history that the clergy should not be subject to the ordinary courts and asks whether this is justified with the growth of areas such as employment law The work questions whether it is possible to arrive at a satisfactory definition of who is a minister of religion and along with this who would be the employer of the minister if there was a contract of employment Taking a comparative perspective it evaluates the case law on the employment status of Christian and non Christian clergy and assesses whether this shows any coherent theme or line of development The work also considers the issue of ministerial employment status against the background of the autonomy of churches and other religious bodies from the State together with their ecclesiology The book will be of interest to academics and researchers working in the areas of law and religion employment law and religious studies together with both legal practitioners and human resources practitioners in these areas

Jochimsen, 2011-02-28 Too many students are disappointed They want to make a difference in their chosen professions They are inspired by successful visionaries but they have little idea how to follow in their oversized footsteps Their colleges and universities promise more professional development than they can possibly deliver especially in terms of moral development for the professions Experts coming from a range of perspectives in higher education agree that moral formation for the professions must increasingly take place in higher education Tragically the recent evolution of teaching has stripped educators of much of the rationale for moral formation The recent record of moral lapses by managers testifies to this crisis of moral education The authors call for a revival of moral formation in higher education for the professions They supply the needed resources to redesign classic as well as cutting edge teaching and learning toward practical moral education in the professions This book is carefully designed to apply traditional Christian principles appropriately to evolving professional practices The authors strategies address the problems surrounding calling vocation and the growing need for virtue training in the professions In particular the authors provide clear direction for how to meet the need for professional profiles that meet the standards of the marketplace Practice and Profile provides the reader with a tested and proven model of faith formation appropriate to the professions It also goes into specific useful detail as to how the model mobilizes learning in classroom and professional settings It aids institutions of higher learning in their struggle with demands for new learning environments and new moral competencies Foremost it gives students a grasp of how to become dedicated professionals who make a difference *Secrets of Next-Level Entrepreneurs* Alex Brueckmann, 2023-03-28 Create a profitable sustainable business while improving yourself and your community In *Secrets of Next Level Entrepreneurs* 11 Powerful Lessons To

Calling the Soul Back Christina Garcia Lopez, 2019-04-02 Spirituality has consistently been present in the political and cultural counternarratives of Chicana literature. *Calling the Soul Back* focuses on the embodied aspects of a spirituality integrating body, mind, and soul. Centering the relationship between embodiment and literary narrative, Christina Garcia Lopez shows narrative as healing work through which writers and readers ritually call back the soul, one's unique immaterial essence, into union with the body, counteracting the wounding fragmentation that emerged out of colonization and imperialism. These readings feature both underanalyzed and more popular works by pivotal writers such as Gloria Anzaldúa, Sandra Cisneros, and Rudolfo Anaya, in addition to works by less commonly acknowledged authors. *Calling the Soul Back* explores the spiritual and ancestral knowledge offered in narratives of bodies in trauma, bodies engaged in ritual grieving, bodies immersed in and becoming part of nature, and dreaming bodies. Reading across narrative, nonfiction, performative monologue, short fiction, fables, illustrated children's books, and a novel, Garcia Lopez asks how these narratives draw on the embodied intersections of ways of knowing and being to shift readers' consciousness regarding relationships to space, time, and natural environments. Using an interdisciplinary approach, *Calling the Soul Back* draws on literary and Chicana studies scholars as well as those in religious studies, feminist studies, sociology, environmental studies, philosophy, and Indigenous studies to reveal narrative's healing potential to bring the soul into balance with the body and mind.
