Spokesmen For The Despised Fundamentalist Leaders Of The Middle East:

The Mind of the Terrorist Jerrold M. Post, 2024-09-04 In contrast to the widely held assumption that terrorists as crazed fanatics Jerrold Post demonstrates they are psychologically normal and that hatred has been bred in the bone He reveals the powerful motivations that drive these ordinary people to such extraordinary evil by exploring the different types of terrorists from national separatists like the Irish Republican Army to social revolutionary terrorists like the Shining Path as well as religious extremists like al Qaeda and Aum Shinrikyo In The Mind of the Terrorist Post uses his expertise to explain how the terrorist mind works and how this information can help us to combat terrorism more effectively Religion and State L.

Carl. Brown, 2001-08-20 If Westerners know a single Islamic term it is likely to be jihad the Arabic word for holy war The image of Islam as an inherently aggressive and xenophobic religion has long prevailed in the West and can at times appear to be substantiated by current events L Carl Brown challenges this conventional wisdom with a fascinating historical overview of the relationship between religious and political life in the Muslim world ranging from Islam s early centuries to the present day Religion and State examines the commonplace notion held by both radical Muslim ideologues and various Western observers alike that in Islam there is no separation between religion and politics By placing this assertion in a broad historical context the book reveals both the continuities between premodern and modern Islamic political thought as well as the distinctive dimensions of modern Muslim experiences Brown shows that both the modern day fundamentalists and their critics have it wrong when they posit an eternally militant unchanging Islam outside of history They are conflating theology and history They are confusing the ought and the is he writes As the historical record shows mainstream Muslim political thought in premodern times tended toward political quietism Brown maintains that we can better understand present day politics among Muslims by accepting the reality of their historical diversity while at the same time seeking to identify what may be distinctive in Muslim thought and action In order to illuminate the distinguishing characteristics of Islam in relation to politics Brown compares this religion with its two Semitic sisters Judaism and Christianity drawing striking comparisons between Islam today and Christianity during the Reformation With a wealth of evidence he recreates a tradition of Islamic diversity every bit as rich as that of Judaism and Christianity **Islamism in the Modern World** W. J. Berridge, 2018-12-13

Islamism in the Modern World is an accessible student oriented introduction to the debates surrounding the historic origins of contemporary Islamism It explores controversies surrounding contemporary Islamists indebtedness to various European and Islamic thinkers as well situating debates concerning the relationship between political Islam violence and democracy in an historic context W J Berridge explores the continuities discontinuities and the impacts of long term social economic and political change on the nature of Islamism as an ideology Readers are encouraged to subject the claims of current

commentators to the scrutiny of historical analysis exploring the complexities of the relationship between Islamist and European thinkers whether classical Renaissance or modern liberal fascist or Marxist The book understands political Islam in the longue dur e comparing medieval early modern and modern Islamist thinkers as well as discussing the compatibility of Islamism and indeed Islam itself with supposedly Western values such as democracy feminism and human rights Each chapter contains a short bibliography of relevant primary and secondary sources as well as excerpts from key sources and a glossary of Arabic terms making this the ideal introduction to the subject for history students

Years of Upheaval Raphael Israeli, 2017-07-05 Years of Upheaval discusses Axial periods in history years that witnessed such fundamental reversals in history as to make the world turn upside down and inaugurate a new era Raphael Israeli sees the post 1989 period as such a period in Islam He explores events in the Islamic world since the end of the 1980s and during the 1990s and their aftermath particularly following the Iranian Islamic Revolution the Rushdie Affair and the death of Khumeini Israeli posits these events signalled a new age of Islamic violence and fundamentalism The period has seen the dissipation of state borders and the rise of transnational and trans territorial movements such as ISIS that have been extraordinarily attractive to young people in the Islamic world The hopeful Arab Spring 2010 2013 has been replaced by a threatening Islamic winter A number of major events shook the Muslim world on both the Asian and the African continents as well as peripheral Islamic minorities in Australia Canada and Latin America Among them were the Islamic Bomb and the rise of radical Islamic movements notably Hamas and Hezbollah and the rift between Sunnites and Shiites These and other momentous events in the Islamic world occasioned the Arab Spring and produced unrest in a wide swath of the Muslim world Even more importantly these were forming trends that are characterizing the decades thereafter

Islam Between Culture and Politics B. Tibi, 2001-11-07 Bassam Tibi offers a radical solution to the problems faced by Islam in a rapidly changing and globalizing world He proposes a depoliticization of the faith and the introduction of reforms to embrace secular democracy pluralism civil society and individual human rights The alternative to this is the impasse of fundamentalism The pivotal argument is that Islam is being torn between the pressure for cultural innovation and a defensive move towards the politicization of its symbols for non religious ends

Islam Between Culture and Politics Bassam Tibi, 2005-08-31 Bassam Tibi offers a radical solution to the problems faced by Islam in a rapidly changing and globalizing world He proposes a depoliticization of the faith and the introduction of reforms to embrace secular democracy pluralism civil society and individual human rights The alternative to this is the impasse of fundamentalism The pivotal argument is that Islam is being torn between the pressure for cultural innovation and a defensive move towards the politicization of its symbols for non religious ends

The Battle for God Karen Armstrong, 2011-08-10 In the late twentieth century fundamentalism has emerged as one of the most powerful forces at work in the world contesting the dominance of modern secular values and threatening peace and harmony around the globe Yet it remains incomprehensible to a large number of people In The Battle for God Karen Armstrong brilliantly and sympathetically

shows us how and why fundamentalist groups came into existence and what they yearn to accomplish We see the West in the sixteenth century beginning to create an entirely new kind of civilization which brought in its wake change in every aspect of life often painful and violent even if liberating Armstrong argues that one of the things that changed most was religion People could no longer think about or experience the divine in the same way they had to develop new forms of faith to fit their new circumstances Armstrong characterizes fundamentalism as one of these new ways of being religious that have emerged in every major faith tradition Focusing on Protestant fundamentalism in the United States Jewish fundamentalism in Israel and Muslim fundamentalism in Egypt and Iran she examines the ways in which these movements while not monolithic have each sprung from a dread of modernity often in response to assault sometimes unwitting sometimes intentional by the mainstream society Armstrong sees fundamentalist groups as complex innovative and modern rather than as throwbacks to the past but contends that they have failed in religious terms Maintaining that fundamentalism often exists in symbiotic relationship with an aggressive modernity each impelling the other on to greater excess she suggests compassion as a way to defuse what is now an intensifying conflict BONUS This edition contains an excerpt from Karen Armstrong's Twelve Steps to a Compassionate Life

Death to the Infidels Mitchell Bard, 2025-06-25 For more than a century much of the attention given to the Middle East has focused on the Arab Israeli conflict The rise of a Palestinian offshoot of Egypt's Muslim Brotherhood the Islamic Resistance Movement or Hamas transformed the nature of the conflict between Israel and the Palestinians According to Bard the dispute in the view of Hamas is not over a division of Palestine but rather about Jews ruling over Muslims and the presence of Jews on Islamic land However this Islamic Jewish conflict is not simply confined to the Middle East Muslim terrorist attacks have been directed at Jews all around the world from Europe to Asia to Latin America Radical Muslims in European countries are becoming more brazen particularly in France where the Muslims constitute nearly ten percent of the population In just the last year there have been several Muslim attacks on Jews throughout France Death to the Infidels documents the growth of radical Islam in the Middle East and how from the author's interpretation it has transformed what had primarily been a political conflict into a one sided religious war limiting the prospect for peace particularly in Israel

Hamas and Palestine Martin Kear, 2018-10-25 Hamas and Palestine The Contested Road to Statehood analyses the Palestinian Islamist movement Hamas between 2005 and 2017 The book expounds how Hamas has employed a dual resistance strategy consisting of political and armed resistance as a mechanism to achieve maintain and defend its continued political viability Hamas entered politics to transform the role of the Palestinian Authority from an administrative institution into one driving the Palestinian quest for independence To achieve this the analysis explains how Hamas implemented a process of soft Islamisation in Gaza This was intended to build the institutional capacity of the Authority based on the bureaucratisation and professionalisation of key institutions while selectively increasing the role of Islam in society The book provides a detailed explanation of key shifts in Hamas's political behaviour as it adapts to

the vagaries and vicissitudes of governing Gaza despite the imposition of Israel's political and economic siege. Employing the Inclusion-Moderation theoretical framework, the book traces Hamas's transformation from a non-state armed group into a legitimate actor in Palestinian politics. The book's analysis also highlights the key role that Hamas's national liberation agenda has on shifting its behaviour towards adopting more moderate and inclusive policy stances. Specifically, the analysis demonstrates how Hamas has made measurable shifts in its political behaviour towards accepting the primacy of the two-state solution and its dealings with Israel and the Peace Process. The book provides a comprehensive assessment of Hamas's time in government and its capacity to deal with the vicissitudes of governing. It is a valuable resource for students and researchers interested in the Israeli-Palestinian conflict and Middle East Politics.
