Austerity has proven deadly Over the last decade the damage caused by austerity measures in the UK has had a long lasting and profound effect on many lives The first edition of *Austerity Bites* offered on the ground reportage of one of the most significantly regressive economic strategies of any post war government Over a year Mary O Hara toured the UK to gauge the immediate impact and expectations of people affected and found many clinging to the hope that austerity cuts would not last long as the damage became increasingly apparent Alas this was not how things unfolded Instead much of the Welfare State had its vital support systems systematically undermined The public sector including the NHS is now on its knees Schools are buckling under multiple structural and budgetary pressures Councils even big ones are going broke Homelessness is rampant While Brexit the pandemic and war have no doubt impacted the economic health of the country previous austerity cuts left the UK less prepared to weather such extraordinary events With new commentary *Austerity Bites 10 Years On* assesses on the true scale of the damage these policies have inflicted on the country s most vulnerable groups public institutions and on the wider society It reflects on where we have been where we are now and what needs to happen next to undo the damage and avoid the same mistakes again *Appalachia* ,1901 *Evidence* Gregory Durston,2011-03-24

Sonic Pasts Mariana J López, 2024-12-30. *Sonic Pasts* explores the fields of acoustical heritage and historical soundscapes through an interdisciplinary perspective. Reflecting on different methods of research and dissemination, it critiques biases related to race, ethnicity, gender, socioeconomics and disability that are intrinsic to these fields. Academically rigorous while also deeply personal, *Sonic Pasts* introduces readers to how various disciplines have studied the sounds of the past, the connection those studies have to heritage more widely, including the concept of Intangible Cultural Heritage (ICH) and how sound is represented within UNESCO heritage listings. It offers a novel theoretical and practical framework on different approaches to the design of sound installations and online experiences on the topic, including the ethical challenges presented by different techniques. This book is essential reading for students and researchers considering sounds of the past as well as sound and heritage practitioners seeking to reflect on their current or future practices.

Global Black Narratives for the Classroom: Africa, the Americas and the Caribbean BLAM UK, 2023-12-06. Rather than reserving the teaching of Black history to Black history month, Black narratives deserve to be seen and integrated into every aspect of the school curriculum. A unique yet practical resource, *Global Black Narratives for the Classroom* addresses this issue by providing primary teachers with a global outline of Black history, culture and life within the framework of the UK's National Curriculum. Each topic explored in this essential book provides teachers and teaching assistants with historical, geographic and cultural context to build confidence when planning and teaching. Full lesson plans and printable worksheets are incorporated into each topic alongside tips to build future lessons in line with the themes explored. Volume II of this book explores the following parts: Part 1 guides teachers through planning and delivering lessons focused on Africa. Pupils will benefit from developing a diverse and accurate understanding of the changing nature of Africa throughout history, linking the continent's social history with its geographical features. Part 2, The Caribbean, builds upon the lesson plans of Part 1 to further highlight the interconnectedness of diaspora cultures in influencing the musical, visual and religious practices of the Caribbean and Central America. Part 3 begins by addressing the incorrect assumption that the history of Black people in the Americas begins and ends with plantation slavery. Instead, this section proposes a range of in-depth lesson plans on the diverse histories, cultures and experiences of Black people within the United States. Created by BLAM UK, this highly informative yet practical resource is an essential read for any teacher, teaching assistant or senior leader who wishes to diversify their curriculum and address issues of Black representation within their school. It is published in two practical and comprehensive volumes. Volume 1 covers Britain and Europe, whilst Volume 2 includes Africa, the Americas and the Caribbean. Each volume can be used individually for teaching, but when used together, they provide a truly global perspective on Black history and culture.
