The Hall Of Light A Study Of Early Chinese Kingship:

The Hall of Light William Edward Soothill, 2002 A close examination of early Chinese culture explaining the traditional ideas about monarchy religion and worship rituals and sacrifices customs and other aspects that have influenced the thought and behaviour of the Chinese for well over two millennia *The Hall of light* William Edward Soothill, 1951 Early Chinese Religion, Part One: Shang through Han (1250 BC-220 AD) (2 vols.) John Lagerwey, Marc Kalinowski, 2008-10-31 Together and for the first time in any language the 24 essays gathered in these volumes provide a composite picture of the history of religion in ancient China from the emergence of writing ca 1250 BC to the collapse of the first major imperial dynasty in 220 AD It is a multi faceted tale of changing gods and rituals that includes the emergence of a form of secular humanism that doubts the existence of the gods and the efficacy of ritual and of an imperial orthodoxy that founds its legitimacy on a distinction between licit and illicit sacrifices Written by specialists in a variety of disciplines the essays cover such subjects as divination and cosmology exorcism and medicine ethics and self cultivation mythology taboos sacrifice shamanism burial practices iconography and political philosophy Produced under the aegis of the Centre de recherche sur les civilisations chinoise japonaise et tib taine UMR 8155 and the cole Pratique des Hautes tudes Paris The Hall of Light, a Study of Early Chinese Kingship, by William Edward Soothill,... Edited By... Lady Hosie,... and G. F. Hudson,... William Edward Soothill, 1951 *Imperial Politics and Symbolics in Ancient Japan* Herman Ooms, 2008-10-31 *Imperial Politics and Symbolics in Ancient Japan* is an ambitious and ground breaking study that offers a new understanding of a formative stage in the development of the Japanese state The late seventh and eighth centuries were a time of momentous change in Japan much of it brought about by the short lived Tenmu dynasty Two new capital cities a bureaucratic state led by an imperial ruler and Chinese style law codes were just a few of the innovations instituted by the new regime Herman Ooms presents both a wide ranging and fine grained examination of the power struggles symbolic manipulations new mythological constructs and historical revisions that both defined and propelled these changes In addition to a vast amount of research in Japanese sources the author draws on a wealth of sinological scholarship in English German and French to illuminate the politics and symbolics of the time An important feature of the book is the way it opens up early Japanese history to considerations of continental influences Rulers and ritual specialists drew on several religious and ritual idioms including Daoism Buddhism yin yang hermeneutics and kami worship to articulate and justify their innovations In looking at the religious symbols that were deployed in support of the state Ooms gives special attention to the Daoist dimensions of the new political symbolics as well as to the crucial contributions made by successive generations of immigrants from the Korean peninsula From the beginning a liturgical state sought to co opt factions and clans uji as participants in the new polity with the emperor acting as both a symbolic mediator and a silent partner In contrast to the traditional interpretation of the Kojiki mythology as providing a vertical legitimation of a Sun lineage of rulers an argument is presented for the importance of a

lateral dimension of interdependency as a key structural element in the mythological narrative An enlightening line of interpretation woven into the author's analysis centers on purity This eminently politico ritual value central to Chinese Daoism and Buddhism was used by Tenmu as the emblematic expression of his regime and new political power The concept of purity was most fully realized in the world of the Sai princess in Ise and was later used by Ise ritualists to defend themselves against Buddhist rivals At the end of the Tenmu dynasty it was widely believed that avenging spirits were the principal source of danger and pollution notions understood here as statements about the bloody political battles that were waged in Tenmu court circles The Tenmu dynasty began and ended in bloodshed and was marked throughout by instability and upheaval Constant succession struggles between two branches of the royal line and a few outside lineages generated a host of plots uprisings murders and accusations of black magic This aspect of the period gets full treatment in fascinatingly detailed narratives which the author skillfully alternates with his trademark structural analysis Imperial Politics and Symbolics in Ancient Japan is a boldly imaginative carefully and extensively researched and richly textured history that will reward reading by Japan specialists and students in several disciplines as well as by scholars with an interest in the role of religious symbolism in state formation

Learning to Rule Daniel Barish, 2022-02-08 In the second half of the nineteenth century local leaders around the Qing empire attempted to rebuild in the aftermath of domestic rebellion and imperialist aggression At the same time the enthronement of a series of children brought the question of reconstruction into the heart of the capital Chinese scholars Manchu and Mongolian officials and writers in the press all competed to have their ideas included in the education of young rulers Each group hoped to use the power of the emperor both his functional role within the bureaucracy and his symbolic role as an exemplar for the people to promote reform Daniel Barish explores debates surrounding the education of the final three Qing emperors showing how imperial curricula became proxy battles for divergent visions of how to restabilize the country He sheds light on the efforts of rival figures who drew on China's dynastic history Manchu traditions and the statecraft tools of imperial powers as they sought to remake the state Barish traces how court education reflected arguments over the introduction of Western learning the fate of the Manchu Way the place of women in society notions of constitutionalism and emergent conceptions of national identity He emphasizes how changing ideas of education intersected with a push for a renewed imperial center and national unity helping create a model of rulership for postimperial regimes Through the lens of the education of young emperors Learning to Rule develops a new understanding of the late Qing era and the relationship between the monarchy and the nation in modern China

The Mandate of Heaven S J Marshall, S. J. Marshall, 2015-12-14 The Mandate of Heaven was originally given to King Wen in the 11th century BC King Wen is credited with founding the Zhou dynasty after he received the Mandate from Heaven to attack and overthrow the Shang dynasty King Wen is also credited with creating the ancient oracle known as the Yijing or Book of Changes This book validates King Wen's association with the Changes It uncovers in the Changes a record of a total solar

eclipse that was witnessed at King Wen's capital of Feng by his son King Wu shortly after King Wen had died before he had a chance to launch the full invasion. The sense of this eclipse as an actual event has been overlooked for three millennia. It provides an account of the events surrounding the conquest of the Shang and founding of the Zhou dynasty that has never been told. It shows how the earliest layer of the Book of Changes the Zhouyi has preserved a hidden history of the Conquest.

Recovering Confucian Authority Robert L. Chard, 2024-11-04 The political and cultural power of Confucianism is nowhere more apparent than in ritual. Confucian educated officials proficient in Ritual Learning shape the ritual institutions that express dynastic legitimacy. This book follows the workings of Ritual Learning during the first three centuries of the Common Era, a time marked by three dynastic changes and difficult recovery of the ritual order under new regimes. Contrary to common understanding, the Eastern Han is a time of flux, uncertainty, and neglect in Confucian ritual forms, and the following third century is an era when Confucian dominance over imperial ritual crystallized as never before. **Critical**

Readings on Tang China Paul W. Kroll, 2019-01-14 The Tang dynasty, lasting from 618 to 907, was the high point of medieval Chinese history, featuring unprecedented achievements in governmental organization, economic and territorial expansion, literature, the arts, and religion. Many Tang practices continued with various developments to influence Chinese society for the next thousand years. For these and other reasons, the Tang has been a key focus of Western sinologists. This volume presents English language reprints of fifty-seven critical studies of the Tang in the three general categories of political history, literature, and cultural history and religion. The articles and book chapters included here are important scholarly benchmarks that will serve as the starting point for anyone interested in the study of medieval China. The Tithe

Maps of England and Wales Roger J. P. Kain, Richard R. Oliver, 1995-07-20 A reference work on the tithe maps of England and Wales for historians, geographers, and lawyers. *The Holistic Inspirations of Physics* Val Dusek, 1999 While many books have claimed parallels between modern physics and Eastern philosophy, none have dealt with the historical influences of both Chinese traditional thought and non-mechanistic holistic Western thought on the philosophies of the scientists who developed electromagnetic field theory. In *The Holistic Inspirations of Physics*, R. Valentine Dusek asks to what extent is classical field theory a product of organic and holistic philosophies and frameworks. Electromagnetic theory has been greatly influenced by holistic worldviews. Dusek posits and he highlights three alternative scientific systems that made the development of electromagnetic theory possible: medieval Chinese science, Western Renaissance occultism, and the German Romantic traditions. He situates these alternative approaches in their social context and background and traces their connection with components of accepted physical science in relation to a number of social movements and philosophical theories. Readers will learn of specific contributions made by these alternative traditions, such as the Chinese inventing the compass and discovering the Earth's magnetic field and magnetic declination. Western alchemical ideas of active forces and occult influences contributed to Newton's theory of gravitation force as action at a distance rather than as a result of purely mechanical

collisions and contact action Dusek also describes the extent to which women's culture supplied often without credit the philosophical background ideas that were absorbed into mainstream field theory *Science and Civilisation in China, Part 2, Mechanical Engineering* Joseph Needham, 1965-01-02 As Dr Needham's immense undertaking gathers momentum it has been found necessary to subdivide volumes into parts each to be bound and published separately The first part of Volume 4 already published deals with the physical sciences the second with the diverse applications of physics in the many branches of mechanical engineering and the third will deal with civil and hydraulic engineering and nautical technology With this part of Volume 4 then we come to the application by the Chinese of physical principles in the control of forces and in the use of power we cross the frontier separating tools from the machine We have already noticed that the ancient Chinese concept of *chhi* somewhat similar to the *pneuma* of the Greeks asserted itself prominently in acoustics but we discover here that the Chinese tendency to think pneumatically was also responsible for a whole range of brilliant technological achievements for example the double acting piston bellows the rotary winnowing fan and the water powered metallurgical blowing machine ancestor of the steam engine as well as for some extraordinary insights and predictions in aeronautics **Confucian Academies in East Asia**, 2020-03-31 The fifteen studies presented in *Confucian Academies in East Asia* offer insight into the history and legacy of these unique institutions of knowledge and education The contributions analyze origins spread and development of Confucian academies across China Korea Vietnam and Japan from multiple perspectives This edited volume is one of the first attempts to understand Confucian academies as a complex transnational intellectual and cultural phenomena that played an essential role in various areas of East Asian education philosophy religious practice local economy print industry and even archery The broad chronological range of essays allows it to demonstrate the role of Confucian academies as highly adaptable and active agents of cultural and intellectual change since the eighth century until today An indispensable handbook for studies of Confucian culture and institutions since the eighth century until the present Contributors are Chien Iching Chung Soon woo Deng Hongbo Martin Gehlmann Vladimir Glomb Lan Jun Lee Byoung Hoon Eun Jeung Lee Thomas H C Lee Margaret Dorothea Mehl Steven B Miles Hoyt Cleveland Tillman Nguyen Tu n C ng Linda Walton and Minamizawa Yoshihiko *Wen Xuan or Selections of Refined Literature, Volume I* David R. Knechtges, Tong Xiao, 2014-07-14 A text of central importance to the Chinese literary tradition the *Wen xuan* was compiled by Xiao Tong 501-531 and is the oldest surviving anthology of Chinese literature arranged by genre This volume the first of a planned eight volume translation of the entire work contains thoroughly annotated translations of the first section of the *Wen xuan* the rhapsodies on the metropolises and capitals Originally published in 1983 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly

Politics and Religion in Ancient and Medieval Europe and China Frederick Hok-ming Cheung, Ming-chiu Lai, 2021-11-01 Now distributed by Brill for The Chinese University Press Seven diverse papers written by ancient and medieval historians are collected in this volume These papers were presented at the academic conference Politics and Religion in Ancient and Medieval Europe and Asia organized by the Department of History and New Asia College of The Chinese University of Hong Kong in March 1996 Although the papers vary widely in the region and time span of coverage from ancient Egypt the early Roman Empire Norman England to medieval China they have in common their concern about the relationship between politics and different religions Christianity Buddhism Taoism and others in ancient and medieval Europe and Asia and the respective intellectual and cultural interactions Professor Mu chou Poo in his paper explores the ancient Egyptian attitudes toward foreigners and foreign culture as an effort to understand Egyptian culture from a new perspective and as a preliminary attempt to probe into the issues concerning the nature of ancient ethnicity and cultural consciousness Professor Yen zen Tsai s paper looks into the way the early Roman Empire treated mystery cults under its rule Professor Ming chiu Lai discusses the impact of a Buddhist ritual on Chinese religious culture between the second and sixth centuries Professor Chi tim Lai in his paper argues that some Taoist teachings advocated a new world order but they were not the real force that provoked the rebellions during the Eastern Jin Dynasty Professor Puay peng Ho exhibits the political meanings of the imperial buildings in the Tang period and sheds light on the research about legitimacy in medieval China Professor Warren Hollister s paper which is also the keynote speech points out that the high culture of twelfth century western Europe was largely the product of monastery Finally Professor Frederick Hok ming Cheung examines the role of the Church in Anglo Norman politics The book will furnish a basis for further investigation on politics and religion in the ancient and medieval world and inspire scholarly inquiries into the comparative dimensions of these important historical phenomena This volume is distributed by Brill for The Chinese University Press

Court Culture and Literature in Early China David R. Knechtges, 2024-12-11 The studies brought together here focus upon the literary and cultural activity of the Chinese court during the Han and early medieval period The first section concerns court literature in the Former Han and deals with the role of literature especially poetry at both the imperial and princely courts including one study of the writings attributed to an imperial concubine who used poetry to express her resentment at falling from the emperor s favour The next section looks at a leading court writer of the Late Western Han dynasty Yang Xiong while the third part deals with the leading poetic genre of this period the fu or rhapsody These papers examine major themes such as praise travel dating and authenticity and problems of translation The volume concludes with two articles on food culture in early and medieval China

Shizi, 2012-07-03 By blending multiple strands of thought into one ideology Chinese Syncretists of the pre imperial period created an essential guide to contemporary ideas about self society and government Merging traditions such as Ruism Mohism

Daoism Legalism and Yin Yang naturalism into their work Syncretists created an integrated intellectual approach that contrasts with other more specific philosophies Presenting the first full English translation of the earliest example of a Syncretist text this volume introduces Western scholars to both the brilliance of the syncretic method and a critical work of Chinese leadership Written by Shi Jiao China's first syncretic thinker during the Warring States Period of 481 to 221 BCE Shizi is similar to Machiavelli's The Prince in that it dispenses wisdom to would be rulers It stresses the need for leaders to be detached and objective It further encourages self cultivation and effective government recommending that rulers maintain self discipline hire reliable people delegate power transparently and promote others in an orderly fashion The people it is argued will emulate their leader's wisdom and virtue and a just and peaceful state will result Paul Fischer provides an extensive introduction and a chapter by chapter summary and analysis of the text outlining the importance of syncretism in Chinese culture and explores the text's particular features authorship transmission loss and reconstruction over time The Shizi set the stage for a long history of syncretic endeavor in China and its study provides insight into the vital traditions of early Chinese philosophy It is also a template for interpreting other well known works such as the Confucian Analects the Daoist Laozi the Mohist Mozi and the Legalist Shang jun shu **The World of Thought in Ancient China** Benjamin Isadore Schwartz, 2009-06-30 The center of this prodigious work of scholarship is a fresh examination of the range of Chinese thought during the formative period of Chinese culture Schwartz looks at the surviving texts of this period with a particular focus on the range of diversity to be found in them but also considers views which stress the unity of Chinese culture

Myth and Meaning in Early Taoism N. J. Girardot, 1988 Myth and Meaning in Early Daoism examines some of the earliest texts associated with the Daoist tradition primarily the Daode jing Zhuangzi and Huainanzi from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of hundun the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as creatio continua in cosmic social and individual life Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective this work when it was written challenged many prevailing conceptions of the Daode jing and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions While controversial and at times playfully provocative the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world Hsin-lun (New Treatise) and Other Writings by Huan T'an (43 B.C.-28 A.D.) Timoteus Pokora, 2020-08-06 Better known in his own times than later Huan T'an 43 BCE 25 CE was a scholar official independent in his thought and unafraid to criticize orthodox currents of his time A practitioner of the Old Text exegesis of the Classics he maintained a position on the court during a turbulent time of political crises uprisings and civil war spanning the reigns of four emperors His principal work Hsin lun differs from other books on political criticism in that it does not deal primarily with history but takes many examples from

contemporary social and political life While belonging to the Old Text group of court officials and scholars Huan T an differed radically from them in his stress on direct knowledge in his range of practical experience and in his outspoken criticism of popular opinions He was not a systematic philosopher but his ideas were influential in the return to a more worldly conception of Confucianism To translate Huan T an s writings one must reconstruct the texts Timoteus Pokora uses two nineteenth century fragments as a basis around which to orient quotations from Hsin lun from sixty four other sources primarily encyclopedias and commentaries Pokora provides notes to give context to these short references and to account for discrepancies between quotations and originals and he includes a large index to add coherence and points of entry
