The Gift in the Heart of Language Genevieve Vaughan, 2015-05-15T00:00:00+02:00

Genevieve Vaughan offers a paradigm shifting view of the structure of material and verbal communication based on mother child experience and confirmed by recent research in infant psychology This view justifies a relational epistemology that informs the material gift economy as well as the structure of language itself Provisioning economies give value to the receivers and the circulation of gifts consolidates community Understanding language as verbal gifting unites other

orientation with reason to liberate us from biopathic patriarchal conceptions of humanity. Sketched against this background, Vaughan introduces a conception of monetized exchange as a gift-denying and expropriating psychological mechanism which is an unintended collective by-product of verbal communication. This view stands as a warning against visions of the future in which the institutions of money and the market can be fixed to be more caring and sanitized business as usual can halt the destruction of Mother Earth. Rather, a gift economy which takes as its model the mother-child interaction, the gifting in language and the gifting in mother-centered societies provides hope for a positive future.

The Routledge Handbook of Language and Culture Farzad Sharifian, 2014-12-17 The Routledge Handbook of Language and Culture presents the first comprehensive survey of research on the relationship between language and culture. It provides readers with a clear and accessible introduction to both interdisciplinary and multidisciplinary studies of language and culture and addresses key issues of language and culturally based linguistic research from a variety of perspectives and theoretical frameworks. This Handbook features thirty-three newly commissioned chapters which cover key areas such as cognitive psychology, cognitive linguistics, cognitive anthropology, linguistic anthropology, cultural anthropology, and sociolinguistics. These chapters offer insights into the historical development, contemporary theory, research, and practice of each topic and explore the potential future directions of the field. They show readers how language and culture research can be of practical benefit to applied areas of research and practice such as intercultural communication and second language teaching and learning. Written by a group of prominent scholars from around the globe, The Routledge Handbook of Language and Culture provides a vital resource for scholars and students working in this area.

Straight to the Heart Daniel Blackaby, Mike Blackaby, 2024-08-06 Our approach to apologetics needs to change when the very idea of truth is controversial. But as authors Daniel Blackaby and Mike Blackaby teach us, we can still reach people if we understand what they value most. This practical guide to our current landscape explores five effective communication pathways: Story. As people wired for narrative, we can speak through the stories we live and tell. Beauty. In an increasingly industrialized world, we can point people to pockets of beauty that reveal the attractiveness of God. Art. In a society that celebrates the arts, we can cultivate creativity in the church and send artists out as cultural missionaries. Desire. To a people motivated by love, identity, and purpose, we can show how Jesus is the perfect fulfillment of our deepest longings. Community. As relational creatures where connectivity is disappearing, we can offer a community of unified diversity. Culture may be in flux, but God's Word remains true. Straight to the Heart helps us speak to the passions that drive our culture without compromising the life-changing truth of the gospel.

The Heart as a Drum Robin Riley Fast, 1999 An accessible introduction to a wide range of contemporary poetry by Native Americans

Paradigm Shift in Language Planning and Policy Ettien Koffi, 2012-01-27 The book proposes a paradigm shift in language planning and language policy in Africa For the past fifty years the dominant model has been the hegemonic model whereby a language of wider communication LWC is imposed on minority languages It is now time for a paradigm shift in favor of a more egalitarian model in which all the languages spoken in the same country irrespective of their size are planned The paradigm shift concerns four critical areas status planning cost benefit planning acquisition planning and corpus planning Such a shift is justified for the following reasons First the hegemonic model has a dismal track record of success in Africa and elsewhere Second the hegemonic model exacerbates linguistic conflicts in many countries Consequently policy makers shun it for fear of jeopardizing the fragile social fabric in their respective countries Last a shift away from the hegemonic model is recommended because it is too costly to implement The democratic model is undergirded by the Strategic Game Theory proposed by David Laitin It forecasts a 3 1 language outcome for most African countries This outcome supports the three language formula now called for by the United Nations Development Program UNDP
