The Hunger Marchers In Britain 1920 1939:

The Hunger Marchers in Britain, 1920-1939 Peter Kingsford, 1982 **Hunger** James Vernon, 2007-11-30 This book draws together social cultural and political history to show us how we came to have a moral political and social responsibility toward the hungry Vernon forcefully reminds us how many perished from hunger in the empire and reveals how their history was intricately connected with the precarious achievements of Britain's welfare state **The Lost World of British**

Communism Raphael Samuel, 2017-01-31 A fascinating account of life as a member of the Communist Party of Great Britain The Lost World of British Communism is a vivid account of the Communist Party of Great Britain Raphael Samuel one of post war Britain's most notable historians draws on novels of the period and childhood recollections of London's East End as well as memoirs and Party archives to evoke the world of British Communism in the 1940s Samuel conjures up the era when the movement was at the height of its political and theoretical power brilliantly bringing to life an age in which the Communist Party enjoyed huge prestige as a bulwark for the struggles against fascism and colonialism *The Police and the Expansion*

of Public Order Law in Britain, 1829-2014 Iain Channing, 2015-05-15 Incidences of public disorder and the manner in which they have been suppressed have repeatedly ignited debate on the role of policing the effectiveness of current legislation and the implications for human rights and civil liberties These same issues have reverberated throughout British history and have frequently resulted in the enactment of new legislation that reactively aimed to counter the specific concern of that era This book offers a detailed analysis of the expansion of public order law in the context of the historical and political developments in British society The correlation of key historical events and the enactment of consequent legislation is a key theme that resonates throughout the book and demonstrates the expanding influence of the law on public assemblies and protest which has continued to criminalise and prohibit certain social behaviours Crucial movements in Britain's social and political history who have all engaged in or have provoked public disorder are examined in the book Other incidents of riot and disorder such as the Featherstone Riot 1893 the Battle of Cable Street 1936 the Inner City Riots 1980s and the UK riots 2011 are also covered By positioning legal developments within their historical context the book demonstrates the ebb and flow between the prominence of the competing demands of the liberties of free expression and assembly on the one hand and the protection of the general public and property on the other This book is essential reading for academics and students in the fields of criminology history and law *The Geography of Interwar Britain* Stephen V. Ward, 2025-09-01 As the first

geographical study of interwar Britain The Geography of Interwar Britain originally published in 1988 and now with a new preface by the author breaks new ground incorporating original research and new interpretations of the work of historians and others within a geographical frame of reference The central argument of the book is that the state in interwar Britain intensified uneven capitalist development State actions in many important fields including macro economic policy defence industrial rationalisation labour and unemployment policy local government and regional policy are analysed in detail These

studies show that until the later 1930s state policies worked to the disadvantage of depressed outer Britain and favoured the more prosperous south and midlands. However, shifts in state policies were apparent as rearmament and changes in macro economic policies necessitated new approaches. Significantly, the first stages in the creation of what became the post 1945 political consensus were evident at this time, particularly in regional and industrial location policy. The book will be of interest to geographers, economic and social historians, political scientists, sociologists and planners.

Ernest Bevin (Routledge Revivals) Peter Weiler, 2016-05-05. First published in 1993, this book presents a biography of a central figure in the development of both the labour movement and British politics in the first half of the twentieth century. This highly accessible account of Bevin's life and career was the first to make use of documents pertaining to his activities during the Second World War and bring together numerous secondary studies to posit an alternative interpretation. The book is split into chronological sections dealing with his early years, his time as a trade union leader from 1911 to 1929, the beginnings of his involvement in the labour party during 1929-1939, and his time in office as Minister of Labour and then Foreign Secretary.

A Companion to Early Twentieth-Century Britain Chris Wrigley, 2008-04-15. This Companion brings together 32 new essays by leading historians to provide a reassessment of British history in the early twentieth century. The contributors present lucid introductions to the literature and debates on major aspects of the political, social and economic history of Britain between 1900 and 1939. Examines controversial issues over the social impact of the First World War, especially on women. Provides substantial coverage of changes in Wales, Scotland and Ireland, as well as in England. Includes a substantial bibliography which will be a valuable guide to secondary sources.

Urban Redevelopment and Modernity in Liverpool and Manchester, 1918-1939 Charlotte Wildman, 2016-09-22. This book is open access and available on www.bloomsburycollections.com. It is funded by Manchester University. Faced with economic decline, unprecedented levels of unemployment and new forms of political extremism during Britain's last great economic crash, politicians and planners in Liverpool and Manchester responded by investing in dramatic and ambitious programmes of urban regeneration. *Urban Redevelopment and Modernity in Liverpool and Manchester 1918-1939* is the first book to provide the hitherto unknown story of the innovative transformation of these cities. Charlotte Wildman challenges academic scholarship in British history which associates the post 1918 period with the emasculation of local government and the decline of civic culture. She shows that local politicians, planners, architects, businessmen and even religious leaders embraced innovative trends in creating distinct forms of urban modernities which particularly changed the way women experienced the transformed city. *Urban Redevelopment and Modernity in Liverpool and Manchester 1918-1939* offers a complex, interactive and multipolar interpretation of the ways cities develop, pointing to new methods and ways of understanding both interwar Britain and urban history more generally. At a time of debate and discussion about devolution and decentralisation of government, this book makes an opportune contribution to debates about urban governance and regionalism in contemporary Britain.

The

politics of hunger Carl J. Griffin, 2020-02-18 The 1840s witnessed widespread hunger and malnutrition at home and mass starvation in Ireland And yet the aptly named Hungry 40s came amidst claims that notwithstanding Malthusian prophecies absolute biological want had been eliminated in England The eighteenth and early nineteenth centuries were supposedly the period in which the threat of famine lifted for the peoples of England But hunger remained in the words of Marx an unremitted pressure The politics of hunger offers the first systematic analysis of the ways in which hunger continued to be experienced and feared both as a lived and constant spectral presence It also examines how hunger was increasingly used as a disciplining device in new modes of governing the population Drawing upon a rich archive this innovative and conceptually sophisticated study throws new light on how hunger persisted as a political and biological force *Unemployment and the state in Britain* Stephanie Ward, 2016-05-16 Unemployment and the state in Britain offers an important and original contribution to understandings of the 1930s Through a comparative case study of south Wales and the north east of England the book explores the impact of the highly controversial means test the relationship between the unemployed and the government and the nature of some of the largest protests of the interwar period This study will appeal to students and scholars of the depression social movements studies of the unemployed social policy and interwar British society *Blind Workers against Charity* M. Reiss, 2015-05-26 Founded in 1893 the National League of the Blind was the first nationwide self represented group of visually impaired people in Britain This book explores its campaign to make the state solely responsible for providing training employment and assistance for the visually impaired as a right and its fight to abolish all charitable aid for them *Idle Hands* Professor John Burnett, 2002-09-11 Idle Hands is the first major social history of unemployment in Britain covering the last 200 years It focuses on the experiences of working people in becoming unemployed coping with unemployment and searching for work and their reactions and responses to their problems Direct evidence of the impact of unemployment drawn from extensive personal biographies complements economic and statistical analysis **Cultures of Protest and Industrial Conflict in Italy since 1945** Ilaria Favretto, 2025-10-15 The history of the twentieth century in Italy is marked by industrial unrest And yet our knowledge of the cultures that informed those protests and equally important of the forms they took is still limited leaving important questions unanswered on their meanings functions mechanisms of transmission continuities and discontinuities with earlier waves of mobilization and global connections In this illuminating and thought provoking book Favretto explores the protest methods and the underpinning protest cultures of Italian industrial workers from the collapse of Fascism to the present day Challenging common portrayals of the labour movement as unimaginative and conventional in its tactics the book demonstrates the variety of forms of industrial protest encompassing actions such as sit ins protest camps and hunger strikes which are typically not associated with industrial conflict Transcending the boundaries of contemporary history the book also uncovers the persistence and reinvention of tactics commonly identified with the pre modern period such as time wasting sabotage and theft and it shows the influence of earlier

cultures and carnivalesque practices of popular contention such as charivari known as rough music in Britain and scampanata and other names in Italy By analysing tactics and cultures distinct from the official union protest repertoire that studies of post 1945 Italy and the labour movement often presume obsolete the book provides a more profound understanding of workers protest practices and underlying cultures and a better comprehension of their breadth and scope It casts new light on the impact of internal migration on workers protest rituals and practices working class women s participation in collective action Communists and Catholics distinctive protest cultures and moving to recent decades the effects of de industrialisation on industrial conflict and its forms The book fills an important gap in the study of the Italian labour movement and Italian history enriching our understanding of the mechanisms behind the transmission and innovation of protest cultures and tactics Its attention to the foreign experiences that shaped Italian labour industrial conflicts and analysis of tactics that have seen worldwide usage over extended periods also make it an essential contribution to a global history of protest

Professor Arthur Marwick History The 1930s remembered as the decade of dole queues and hunger marches mass
unemployment the means test and the rise of fascism also saw the development of new industries the growth of comfortable
suburbia and rising standards of living for many In Britain in the Depression the authors look behind the legends for an
objective and timely reassessment as Britain again struggles with the economic and spiritual ills of recession and
unemployment **Regards sur le communisme britannique** ,2007 *The Best Police in the World* Barbara
Weinberger,2016-12-05 Based on interviews with former police officers this book addresses two main issues Firstly the
question of how the police themselves viewed the priorities of the job and what they considered their role to be This is the
first study to consider this question and its implications for the style and content of police work Secondly it challenges the
view of the prewar period as a Golden Age and shows that policing from the 1930s to the 1960s was not as unproblematic as
has often been assumed Police violence and the fabrication of evidence were more prevalent than the cosy image of the
British TV series Dixon of Dock Green would have us believe The fact that this image often went unchallenged has much to
do with prevailing concepts of masculinity and with the greater moral certitude of the police within a more stable and
stratified society The Ex-service Movement in England and Wales, 1916-1930 Charles Kimball,1990
