The Gods in Chains Curuppumullagē Jinarājadāsa, 1929 *Women Philosophers in Nineteenth-Century Britain* Alison Stone, 2023 Many women wrote philosophy in nineteenth century Britain and they wrote across the full range of philosophical topics Yet these important women thinkers have been left out of the philosophical canon and many of them are barely known today The aim of this book is to put them back on the map It introduces twelve women philosophers Mary Shepherd Harriet Martineau Ada Lovelace George Eliot Frances Power Cobbe Helena Blavatsky Julia Wedgwood Victoria Welby Arabella Buckley Annie Besant Vernon Lee and Constance Naden Alison Stone looks at their views on naturalism philosophy of mind evolution morality and religion and progress in history She shows how these women interacted and developed their philosophical views in conversation with one another not only with their male contemporaries The rich print and periodical culture of the period enabled these women to publish philosophy in forms accessible to a general readership despite the restrictions women faced such as having limited or no access to university education Stone explains how these women became excluded from the history of philosophy because there was a cultural shift at the end of the nineteenth century towards specialised forms of philosophical writing which depended on academic credentials that were still largely unavailable to women **The Theosophical Review** ,1905 *Confessional Lutheranism and German Theological*

Wissenschaft James Ambrose Lee II, 2022-01-19 This book investigates the relationship between nineteenth century German theological Wissenschaft and the emergence of confessional Lutheranism It argues that the first generation of confessional Lutherans contributed to the discourse over the nature of theological Wissenschaft Part I examines the intellectual context of nineteenth century theological Wissenschaft Chapter 2 presents Kant s and Schelling s conceptions of Wissenschaft in relationship to theology Chapter 3 analyzes Schleiermacher s contribution to the debate about the integrity of theology as a Wissenschaft and concludes by considering the developments represented by F C Baur and Albrecht Ritschl Part II investigates the different Lutheran approaches to theological Wissenschaft represented by Adolf Harle August Vilmar and Johannes von Hofmann Chapter 4 examines Harle s Theologische Encyklop die as the first expression towards a confessional Lutheran Wissenschaft Chapter 5 highlights Vilmar s antagonistic posture towards modern German theology while attending to his construction of an alternative approach to modern theology Chapters 6 and 7 contextualize Hofmann against the landscape of German theology while situating his theological Wissenschaft within his contentious work Der Schriftbeweis Chapter 8 reflects upon these efforts at establishing a theological Wissenschaft in service to the church and the university

Handbook of the Theosophical Current Olav Hammer, Mikael Rothstein, 2013-01-09 This title represents pioneering research into an important but under researched current The three sections in the book are devoted to the Theosophical Society Theosophically influenced religious currents and the interaction between Theosophy and surrounding culture The Divine Vision Curuppumullagē Jinarājadāsa, 1928 **Omega Maxims & Maximum Omega** John O'Loughlin, 2022-04-23 OMEGA MAXIMS MAXIMUM OMEGA is a major project of reverse title volumes even by John O Loughlin s amazingly productive and generally profound standards and brings his philosophizing in this genre to a climax not least in respect of a deeper approach to subatomic metaphysics or metaphysics conceived in subatomic terms and rising and falling diagonals with due attention to particle and wavicle differentials both of which terms he appropriated from Arthur Koestler in the interests of his own uniquely comprehensive philosophy Modernist Idealism Michael J. Jeffrey Franklin, 2011-03-15 Buddhism is indisputably gaining prominence in the West as is evidenced by the growth of Buddhist practice within many traditions and keen interest in meditation and mindfulness In The Lotus and the Lion J Jeffrey Franklin traces the historical and cultural origins of Western Buddhism showing that the British Empire was a primary engine for curiosity about and then engagement with the Buddhisms that the British encountered in India and elsewhere in Asia As a result Victorian and Edwardian England witnessed the emergence of comparative religious scholarship with a focus on Buddhism the appearance of Buddhist characters and concepts in literary works the publication of hundreds of articles on Buddhism in popular and intellectual periodicals and the dawning of syncretic religions that incorporated elements derived from Buddhism In this fascinating book Franklin analyzes responses to and constructions of Buddhism by popular novelists and poets early scholars of religion inventors of new religions social theorists and philosophers and a host of social and religious commentators Examining the work of figures ranging from Rudyard Kipling and D H Lawrence to H P Blavatsky Thomas Henry Huxley and F Max Müller Franklin provides insight into cultural upheavals that continue to reverberate into
