maintained Magic is oddly but significantly still around us and exerts its influence Focusing on magic in the medieval world thus helps us to shed light on human culture at large

The Illustrated History of Magic and Witchcraft Susan Greenwood,2012-01 Magic has played a part in most cultures throughout human history Traditions and practices may differ but essential elements remain the same This insightful history examines the roots and foundation of magic and the way it has shaped our view of the universe and our place within it The scope of the study is wide covering a range of traditions from the wise woman of a sixteenth century English village to a witchdoctor in Africa or from the customs of the Native American shaman to those of the female shamans of Korea From magic s origins in the Shamanic tradition came religion which for the world s first civilizations had no distinction from magic The book examines these beliefs ideas and convictions through the ages until the present day with the revival of a magical consciousness in the West and the new forms of goddess centred witchcraft The book includes an international sweep of ancient cultural traditions and details the medieval phenomena of witch hunts that still have resonance in modern society In addition it explores the modern wicca movement tracing the development from the 1900s and its links with the Celtic tradition Drawing on the work of numerous scholars and experts as well as first hand research by the author this fascinating anthropological study invites reflection on the many ways that human beings have sought to relate to the world of the spirit Lavishly illustrated with archival material fine art illustrations of legendary magic workers and special photography this volume is a comprehensive examination of a fascinating and timeless subject

The Distorting Mirror Laikwan Pang,2007-10-31 The Distorting Mirror analyzes the multiple and complex ways in which urban Chinese subjects saw themselves interacting with the new visual culture that emerged during the turbulent period between the 1880s and the 1930s The media and visual forms examined include lithography photography advertising film and theatrical performances Urbanites actively engaged with and enjoyed this visual culture which was largely driven by the subjective desire for the empty promises of modernity promises comprised of such abstract and fleeting concepts as new exciting and fashionable Detailing and analyzing the trajectories of development of various visual representations Laikwan Pang emphasizes their interactions In doing so she demonstrates that visual modernity was not only a combination of independent cultural phenomena but also a partially coherent sociocultural discourse whose influences were seen in different and collective parts of the culture The work begins with an overall historical account and theorization of a new lithographic pictorial culture developing at the end of the nineteenth century and an examination of modernity s obsession with the investigation of the real Subsequent chapters treat the fascination with the image of the female body in the new visual culture entertainment venues in which this culture unfolded and was performed how urbanites came to terms with and interacted with the new reality and the production and reception of images the dynamics between these two being a theme explored throughout the book Modernity as the author shows can be seen as spectacle At the same time she demonstrates that although the excessiveness of this spectacle captivated the modern subject it did not completely

overwhelm or immobilize those who engaged with it After all she argues they participated in and performed with this ephemeral visual culture in an attempt to come to terms with their own new modern self

The Politics of Sex, Race and Working-Class Slang in Late Second Empire French Caricature Russell Stephens,2025-08-11 This study examines caricatures as they appeared within popular Parisian magazines in mid 19th century France at the time of the 1867 World s Fair Chapters compare the comic mockery of several of the most important satirists of this time including Am d e de No or Cham 1818 1879 as he was more popularly known and Honor Daumier 1808 1879 A major theme within the analysis is how these caricaturists secretly used argot street slang as documented in two slang dictionaries by Parisian litterateur Alfred Delvau 1825 1867 within their comic images to carry hidden encrypted messages in order to evade the censorship of the day The book focuses primarily on caricatures of Chinese visitors who were part of the 1866 diplomatic visit to Paris and images of Chinese at the 1867 Exposition Universelle showing how the satires which were published by Cham used argot to create highly sexualised images that were often racist in nature In contrast the volume proposes that Daumier used slang in his caricatures to challenge racism and to make secret reference to current political leaders and politics The book will be of interest to scholars working in art history visual culture media studies and communication studies

Magic's Reason Graham M. Jones,2017-12-06 In *Magic s Reason* Graham M Jones tells the entwined stories of anthropology and

entertainment magic The two pursuits are not as separate as they may seem at first As Jones shows they not only matured around the same time but they also shared mutually reinforcing stances toward modernity and rationality It is no historical accident for example that colonial ethnographers drew analogies between Western magicians and native ritual performers who in their view hoodwinked gullible people into believing their sleight of hand was divine Using French magicians engagements with North African ritual performers as a case study Jones shows how magic became enshrined in anthropological reasoning Acknowledging the residue of magic s colonial origins doesn t require us to dispense with it Rather through this radical reassessment of classic anthropological ideas Magic s Reason develops a new perspective on the promise and peril of cross cultural comparison
