Bibliographic Index ,1994 *Philosophy and Technology II* Carl Mitcham,Alois Huning,2012-12-06 Until recently the philosophy and history of science proceeded in a separate way from the philosophy and history of technology and indeed with respect to both science and technology philosophical and historical inquiries were also following their separate ways Now we see in the past quarter century how the philosophy of science has been profoundly influenced by historical studies of the sciences and no longer concerned so single mindedly with the analysis of theory and explanation with the relation between hypotheses and experimental observation Now also we see the traditional historical studies of technology supplemented by philosophical questions and no longer so plainly focussed upon contexts of application on invention and practical

engineering and on the mutually stimulating relations between technology and society Further alas the neat division of intellectual labor those clearly drawn distinctions between science and technology between the theoretical and the applied between discovery and justification between internalist and externalist approaches all have become muddled Partly this is due to internal revolutions within the philosophy and history of science the first result being recognition of their mutual relevance Partly however this state of muddle is due to external factors science at the least in the last half century has become so intimately connected with technology and technological developments have created so many new fields of scientific and philosophical inquiry that any critical reflection on scientific and technological endeavors must henceforth take their interaction into account

[An Ethical Global Information Society](#) Jacques J. Berleur, Diane Whitehouse, 2013-11-11 Many challenges lie ahead in the development of a global information society Culture and democracy are two areas which may be under particular threat The book reflects on today's complex and uncertain cultural and democratic developments arising as a result of an increasingly global technologically connected world In particular it focuses on the Internet examining new metaphors for communication defining the issues at stake and proposing options actions and solutions Among the issues discussed were multi cultural developments cultural sensitivities and the involvement of cultural minorities generation gaps gender issues technology access for the elderly and the disabled technology transfer

Computers and Society in the Past Half Century Abbe Mowshowitz, 2024-04-17 Almost fifty years ago the author wrote the first comprehensive critical study of social issues in computing *The Conquest of Will* 1976 This new book revisits this seminal study featuring an overview of technological advances over the past half century and provides a unique comparison between what was believed and expected of computers back in 1976 and actual outcomes up to the present time Despite the extraordinary changes in technology much of what has emerged in contemporary society was anticipated fifty years ago and we are still grappling with some of the same basic challenges For example the computer's threat to privacy has been a constant issue ever since the late 1950s but the regulatory framework designed in the 1960s has been upended by the Internet Artificial Intelligence too has been a contentious issue since the late 1950s but until recently discussion was largely confined to academia and there was little urgency to regulate its further development and application The comparisons offered in this book will highlight what we got right and wrong in the past and point to the sources of good and bad predictions While there have been many studies of social issues in computing published since *The Conquest of Will* appeared in 1976 this is an unusual and valuable longitudinal comparison of the current situation with what prevailed and was predicted half a century ago

Encyclopedia of Philosophy and the Social Sciences Byron Kaldis, 2013-03-07 This encyclopedia magnificently edited by Byron Kaldis will become a valuable source both of reference and inspiration for all those who are interested in the interrelation between philosophy and

the many facets of the social sciences A must read for every student of the humanities Wulf Gaertner University of Osnabrueck Germany Byron Kaldis Encyclopedia of Philosophy and the Social Sciences is a triumph The entries are consistently good the coverage is amazing and he has managed to involve the whole scholarly community in this field It shows off the field very well and will be a magnificent resource for students and others Stephen Turner USF USA Like all good works of reference this Encyclopedia of Philosophy and the Social Sciences is not to be treated passively it provides clear and sometimes controversial material for constructive confrontation It is a rich resource for critical engagement The Encyclopedia conceived and edited by Byron Kaldis is a work of impressive scope and I am delighted to have it on my bookshelf David Bloor Edinburgh UK This splendid and possibly unique work steers a skilful course between narrower conceptions of philosophy and the social sciences It will be an invaluable resource for students and researchers in either or both fields and to anyone working on the interrelations between them William Outhwaite Newcastle UK A work of vast scope and widely gathered expertise the Encyclopedia of Philosophy and the Social Sciences is a splendid resource for anyone interested in the interface between philosophy and the social sciences Nicholas Rescher Pittsburgh This encyclopedia is the first of its kind in bringing together philosophy and the social sciences It is not only about the philosophy of the social sciences but going beyond that it is also about the relationship between philosophy and the social sciences The subject of this encyclopedia is purposefully multi and inter disciplinary Knowledge boundaries are both delineated and crossed over The goal is to convey a clear sense of how philosophy looks at the social sciences and to mark out a detailed picture of how the two are interrelated interwoven at certain times but also differentiated and contrasted at others The Entries cover topics of central significance but also those that are both controversial and on the cutting edge underlining the unique mark of this Encyclopedia the interrelationship between philosophy and the social sciences especially as it is found in fresh ideas and unprecedented hybrid disciplinary areas The Encyclopedia serves a further dual purpose it contributes to the renewal of the philosophy of the social sciences and helps to promote novel modes of thinking about some of its classic problems The Encyclopedia of Philosophy and the Social Sciences edited by Byron Kaldis provides a unique needed and invaluable resource for researchers at every level Unique because nothing else offers the breadth of coverage found in this work needed because it permits researchers to find longer but also relatively brief clear but nonetheless expert articles introducing important topics and invaluable because of the guidance offered to both related topics and further study It should be the place that any interested person looks first when seeking to learn about philosophy and the social sciences Paul Roth UC Santa Cruz USA The Encyclopedia of Philosophy and the Social Sciences edited by Byron Kaldis covers an enormous range of topics in philosophy and the social sciences and the entries are compact overviews of the essential issues Harold Kincaid University of Alabama at Birmingham USA *Computers and Networks in the Age of Globalization* Leif Bloch Rasmussen, Colin Beardon, Silvio Munari, 2013-04-17 In modernity an individual identity was constituted from civil society while in a globalized

network society human identity if it develops at all must grow from communal resistance A communal resistance to an abstract conceptualised world where there is no possibility for perception and experience of power and therefore no possibility for human choice and action is of utmost importance for the constituting of human choosers and actors This book therefore sets focus on those human choosers and actors wishing to read and enjoy the papers as they are actually perceiving and experiencing their lives in a diversity of social and cultural contexts In so doing the book tries to imagine in what kind of networks humans may choose and act based on the knowledge and empirical evidence presented in the papers The topics covered in the book include People and Their Changing Values Citizens in a Network Society The Individual and Knowledge Based Organisations Human Responsibility and Technology Exclusion and Regeneration This valuable new book contains the edited proceedings of the Fifth World Conference on Human Choice and Computers HCC 5 which was sponsored by the International Federation for Information Processing IFIP and held in Geneva Switzerland in August 1998 Since the first HCC conference in 1974 IFIP s Technical Committee 9 has endeavoured to set the agenda for human choices and human actions vis vis computers Quick Bibliography Series ,1976 **Quick Bibliography Series** National Agricultural Library (U.S.). Reference Division,1993 **Encyclopedia of Business and Professional Ethics** Deborah C Poff,Alex C. Michalos,2023-05-24 This encyclopedia edited by the past editors and founder of the Journal of Business Ethics is the only reference work dedicated entirely to business and professional ethics Containing over 2000 entries this multi volume major research reference work provides a broad based disciplinary and interdisciplinary approach to all of the key topics in the field The encyclopedia draws on three interdisciplinary and over lapping fields business ethics professional ethics and applied ethics although the main focus is on business ethics The breadth of scope of this work draws upon the expertise of human and social scientists as well as that of professionals and scientists in varying fields This work has come to fruition by making use of the expert academic input from the extraordinarily rich population of current and past editorial board members and section editors of and contributors to the Journal of Business Ethics *Resources in Education* ,1994
