s chief executive officer Since scholars agree that the rhetorical presidency arose in the twentieth century with Theodore Roosevelt the book commences with Roosevelt s address followed by all subsequent presidents inaugurals including that of Bill Clinton The authors methodology applies classical rhetoric to the nexus of political discourse the interrelationships between the speaker the speech and the audience discussing vox populi elocutio inventio and actio Each of the chapters analyzes the political situation with regard to political purpose giving special attention to genre criticism and to the themes of campaign rhetoric that were or were not carried forth into the inaugural address The essayists explicate the evolution of each inaugural s preparation criticize its delivery and evaluate its persuasive strengths and weaknesses by accounting for its reception by the media and by the American people Recommended for scholars of political communication and rhetoric political science history and presidential studies      **American Book Publishing Record Cumulative, 1950-1977: Title index** R.R.
