Political Pilgrims Paul Hollander,2017-07-05 Why did so many distinguished Western Intellectuals from G B Shaw to J P Sartre and closer to home from Edmund Wilson to Susan Sontag admire various communist systems often in their most repressive historical phases How could Stalin s Soviet Union Mao s China or Castro s Cuba appear at one time as both successful modernizing societies and the fulfillments of the boldest dreams of social justice Why at the same time had these intellectuals so mercilessly judged and rejected their own Western liberal cultures What Impulses and beliefs prompted them to seek the realization of their ideals in distant poorly known lands How do their journeys fit into long standing Western traditions of looking for new meaning In the non Western world These are some of the questions Paul Hollander sought to answer In his massive study that covers much of our century His success is attested by the fact that the phrase political pilgrim has become a part of intellectual discourse Even in the post communist era the questions raised by this book remain relevant as many Western and especially American intellectuals seek to come to terms with a world which offers few models of secular fulfillment and has tarnished the reputation of political Utopias His new and lengthy introduction updates the pilgrimages and examines current attempts to find substitutes for the emotional and political energy that used to be invested in them

Comparative Children's Literature Emer O'Sullivan,2005-03-05 Emer O Sullivan traces the history of children s literature studies from the enthusiastic internationalism of the post war period which set out from the idea of a world republic of childhood to modern comparative criticism

American Heritage History of the Presidents Michael R. Beschloss,2015-09-19 Here from American Heritage is the story of our presidents From George Washington s reluctant oath taking through George W Bush s leadership challenges after September 11 2001 we view ambitious and fallible men through the new lens of the twenty first century Where did they succeed Where did they fail And what do we know now that we could not have known at the time

Collective Security in the 1930's George Cohan,1970 [The Kentucky Encyclopedia](#) John E. Kleber,2014-10-17 The Kentucky Encyclopedia s 2 000 plus entries are the work of more than five hundred writers Their subjects reflect all areas of the commonwealth and span the time from

prehistoric settlement to today's headlines recording Kentuckians' achievements in art, architecture, business, education, politics, religion, science, and sports. Biographical sketches portray all of Kentucky's governors and U.S. senators as well as notable congressmen and state and local politicians. Kentucky's impact on the national scene is registered in the lives of such figures as Carry Nation, Henry Clay, Louis Brandeis, and Alben Barkley. The commonwealth's high range from writers Harriette Arnow and Jesse Stuart, reformers Laura Clay and Mary Breckinridge, and civil rights leaders Whitney Young Jr. and Georgia Powers to sports figures Muhammad Ali and Adolph Rupp, and entertainers Loretta Lynn, Merle Travis, and the Everly Brothers. Entries describe each county and county seat and each community with a population above 2,500. Broad overview articles examine such topics as agriculture, segregation, transportation, literature, and folklife. Frequently misunderstood aspects of Kentucky's history and culture are clarified and popular misconceptions corrected. The facts on such subjects as mint juleps, Fort Knox, Boone's coonskin cap, the Kentucky hot brown, and Morgan's Raiders will settle many an argument. For both the researcher and the more casual reader, this collection of facts and fancies about Kentucky and Kentuckians will be an invaluable resource.

See How They Ran Gil Troy, 2012-09-18 See How They Ran explores why candidates campaign as they do, why Americans complain about it, and what these evolving patterns and changing images tell us about American democracy itself. On the eve of every election, many Americans become convinced that this presidential campaign is worse than it has ever been. Frustrated, we long for the good old days of dignified campaigns and worthy candidates. However, as Gil Troy's fascinating history demonstrates, they never existed. Originally, candidates did not run for office but awaited the people's call in dignified silence. When Stephen Douglas campaigned in 1860, he pretended to be visiting his mother as he traveled, not actively campaigning. In the post-1945 world, however, both Democratic and Republican candidates have stopped to kiss babies, donned hard hats, and pumped hands along the campaign trails. From the founding of our nation, Americans have wanted a leader who is simultaneously a man of the people and a man above the people. In See How They Ran, Troy shows that our disappointment with current presidential campaigns is simply the latest chapter in a centuries-long struggle to make peace with the idea of leadership in a democratic society. This is an engrossing and essential read.

Popular Culture and Political Economic Thought Thomas Strychacz, 2023-01-30 We live in an era of economic fabling where often fantastic representations of economic life in popular culture sit uncomfortably alongside a neoliberal capitalist fairy tale that the Earth's resources can continue to be exploited into an indefinite future. Popular Culture and Political Economic Thought: Fables of Commonwealth examines a variety of animated movies, TV shows, written fictions, adventure travelogues, and Paleo archeologies and diets to suggest that popular culture poses a multiform challenge to the failing theories and practices of neoclassical economics. This book contends that it does so most successfully by implementing older formations of political economic thought, stages theory, bioeconomics, and a robust discourse on commonwealth. An era of eco-crisis demands a new economics. It therefore also requires a new appraisal of the popular imaginary and its potential for leveraging alternative
