Inter-American Human Rights System Par Engstrom, Courtney Hillebrecht, 2020-05-21 At the time of the adoption of the American Declaration on the Rights and Duties of Man in 1948 there was little indication that the Declaration would ultimately yield a highly institutionalized system comprised of a quasi judicial Inter American Commission and an authoritative Inter American Court of Human Rights Today however the Inter American Human Rights System IAHRs has emerged as a central actor in the global human rights regime This comprehensive volume explores the institutional changes and transformations that the IAHRs has undergone since its creation offering contributions and insights from a variety of disciplines including history law and political science The book shows how institutional change has affected and been affected by the System s normative leanings rules of procedure and institutional design as well as by the position of the IAHRs within the broader landscape of the Americas The authors examine institutional change from a variety of angles

including the process of change in historical context normative and legal developments and the dynamic relationship between the IAHRs and other regional and international human rights institutions This book was originally published as a special issue of The International Journal of Human Rights

Regional Human Rights Systems Christina M. Cerna, 2016-12-05 Over the past sixty years the regional human rights systems have surpassed the UN human rights bodies in affording protection to the victims of human rights violations Most of these systems have courts that are empowered to issue legally binding judgments and reparations for violations of human rights which states have been unwilling to accord the UN system The essays selected for this volume examine the structure and functioning of the principal regional human rights systems in the world today 1 the Inter American Commission and Court of Human Rights 2 the European Court of Human Rights 3 the African Commission and Court of Human and Peoples Rights and 4 the ASEAN Intergovernmental Human Rights Commission These systems guarantee primarily civil and political rights Central to all four systems is the necessity of a democratic form of government to guarantee these rights although not all governments parties to these regional treaties are democracies These articles trace the history of these systems in particular the expansion of their membership to include almost all

independent countries in the region and their evolution towards recognition of a right to democracy **Doctrine, Practice, and Advocacy in the Inter-American Human Rights System** James L. Cavallaro, Claret Vargas, Clara Sandoval, Bernard Duhaime, 2019-06-20 Doctrine Practice and Advocacy in the Inter American Human Rights System is the first casebook to focus on the Inter American human rights system the primary system for advancing and protecting rights in the Western hemisphere Created by the Organization of American States the Inter American Commission on Human Rights and the Inter American Court of Human Rights are autonomous and independent bodies that make up the Inter American system Together they play a vital role working closely with victims civil society and states to protect fundamental human rights in the Western hemisphere particularly in Latin America While the system is relatively unknown in legal academia in the United States and Canada its study is mandatory in most law schools in the Americas Government appointees civil servants high level actors private attorneys judges and legal scholars and media regularly engage with the system in Latin America implementing its determinations and applying its rulings and interpretations concerning the human rights of their citizens Thus critical matters affecting vital rights such as the peace process in Colombia disappearances in Mexico gang violence in the Northern Triangle El Salvador Honduras and Guatemala or trials for perpetrators of crimes against humanity in Argentina all directly involve the rulings and actors of the Inter American system Increasingly the Inter American system has advanced rights protection in the United States and Canada The statements and determinations of the Inter American Commission on the detention center at Guantanamo for example led to a global consensus opposing the prolonged use of pretrial detention at that site while the Commission's ruling on the juvenile death penalty was cited by the United States Supreme Court in its holding finding that practice unconstitutional A report by the Commission on murdered and missing indigenous women in British Columbia led to the creation of a National Commission of Inquiry on the subject by Canada This book provides analysis on a wide range of practical issues that advocates face when interacting with the Commission or Court and explores current debates on possible reforms of the system At the same time it provides materials that consider the political dynamics that empower and constrain the system Doctrine Practice and Advocacy in the Inter American Human Rights System takes as its point of departure a critical look at the real world successes and failures of the system and human rights advocates in the Americas including the tensions and trade offs commonly confronted by activists as they seek to advance human rights
