

# THE KOREAN WAR:

Reflections of a  
Young Combat  
Platoon Leader

By Dr. Howard Matthias

# The Korean War Reflections Of A Young Combat Platoon Leader

**Julia Schneider**

## **The Korean War Reflections Of A Young Combat Platoon Leader:**

**The Korean War** Howard Matthias,1992-10-01      **The Korean War** Keith D. McFarland,2009-12-04 The Korean War is the most comprehensive and detailed bibliography compiled to date on the American involvement in The Forgotten War In this revised and expanded second edition Keith D McFarland s clearly written annotations provide concise descriptions of more than 2 600 of the most important books articles and documents written in English on the conflict in Korea Key topics include origins of the war the political and military roles of North and South Korea the United States the Soviet Union China Great Britain Canada Australia South Africa Turkey and other United Nations members campaigns and battles weapons and uniforms and the military and diplomatic aspects of the war Specific subjects are easy to find using the index organized by topic and author making The Korean War a necessity for every academic or research library      **In the Shadow of the Greatest Generation** Melinda L. Pash,2014-05-22 Largely overshadowed by World War II s greatest generation and the more vocal veterans of the Vietnam era Korean War veterans remain relatively invisible in the narratives of both war and its aftermath Yet just as the beaches of Normandy and the jungles of Vietnam worked profound changes on conflict participants the Korean Peninsula chipped away at the beliefs physical and mental well being and fortitude of Americans completing wartime tours of duty there Upon returning home Korean War veterans struggled with home front attitudes toward the war faced employment and family dilemmas and wrestled with readjustment Not unlike other wars Korea proved a formative and defining influence on the men and women stationed in theater on their loved ones and in some measure on American culture In the Shadow of the Greatest Generation not only gives voice to those Americans who served in the forgotten war but chronicles the larger personal and collective consequences of waging war the American way      **American Soldiers** Peter S. Kindsvatter,2003-04-03 Some warriors are drawn to the thrill of combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair This was certainly true for twentieth century American ground troops Whether embracing or being demoralized by war these men risked their lives for causes larger than themselves with no promise of safe return This book is the first to synthesize the wartime experiences of American combat soldiers from the doughboys of World War I to the grunts of Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry Peter Kindsvatter gets inside the minds of American soldiers to reveal what motivated them to serve and how they were turned into soldiers He recreates the physical and emotional aspects of war to tell how fighting men dealt with danger and hardship and he explores the roles of comradeship leadership and the sustaining beliefs in cause and country He also illuminates soldiers attitudes toward the enemy toward the rear echelon and toward the home front And he tells why some broke down under fire while others excelled Here are the first tastes of battle as when a green recruit reported that for the first time I realized that the people over the ridge wanted to kill me while

another was befuddled by the unfamiliar sound of bullets whizzing overhead Here are soldiers struggling to cope with war s stress by seeking solace from local women or simply smoking cigarettes And here are tales of combat avoidance and fraggings not unique to Vietnam of soldiers in Korea disgruntled over home front indifference and of the unique experiences of African American soldiers in the Jim Crow army By capturing the core band of brothers experience across several generations of warfare Kindsvatter celebrates the American soldier while helping us to better understand war s lethal reality and why soldiers persevere in the face of its horrors *Eyewitness Korea* James Goulty,2018-11-30 Today the Korean War of 1950 1953 is overshadowed by later twentieth century conflicts in Vietnam and the Middle East yet at the time it was the focus of international attention It threatened to lead to a third world war and although fought on a limited scale it still involved over a million men under UN command and even more on the Communist side It left the American and British troops who took part with a range of intense recollections that often marked them for the rest of their lives and it is these experiences that James Goulty draws on in this eyewitness history of the conflict He uses official documents letters diaries regimental histories memoirs oral histories and correspondence to show what the war was like for those who took part Their accounts vividly contrast the American and British experience as seen through the eyes of individual servicemen and they throw fresh light on the relations between the UN forces on their different attitudes tactics training and equipment and on the tensions that developed between them *A Companion to American Military History* James C. Bradford,2009-11-03 With more than 60 essays *A Companion to American Military History* presents a comprehensive analysis of the historiography of United States military history from the colonial era to the present Covers the entire spectrum of US history from the Indian and imperial conflicts of the seventeenth century to the battles in Afghanistan and Iraq Features an unprecedented breadth of coverage from eminent military historians and emerging scholars including little studied topics such as the military and music military ethics care of the dead and sports Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and identifies areas where conflicting interpretations are in need of further study Sgt. Reckless Robin Hutton,2014-07-28 New York Times Bestseller She wasn t a horse she was a Marine She might not have been much to look at a small Mongolian mare they called her but she came from racing stock and had the blood of a champion Much more than that Reckless became a war hero in fact she became a combat Marine earning staff sergeant s stripes before her retirement to Camp Pendleton This once famous horse recognized as late as 1997 by Life Magazine as one of America s greatest heroes the greatest war horse in American history in fact has unfortunately now been largely forgotten But author Robin Hutton is set to change all that Not only has she been the force behind recognizing Reckless with a monument at the National Museum of the Marine Corps and at Camp Pendleton but she has now recorded the full story of this four legged war hero who hauled ammunition to embattled Marines and inspired them with her relentless and reckless courage The Final Crucible Lee Ballenger,2006 Close quarters combat during the Korean War *Air University Library Index to Military*

*Periodicals* ,1992      *Forthcoming Books* Rose Army,2003      *In from the Cold* John Blaxland,Michael Kelly,Liam Brewin Higgins,2020-03-05 Open hostilities in the Korean War ended on the 27th of July 1953 The armistice that was signed at that time remains the poignant symbol of an incomplete conclusion of a war that retains a distinct possibility of resuming at short notice So what did Australia contribute to the Korean War from June 1950 to July 1953 What were the Australians doing there How significant was the contribution and what difference did it make What has that meant for Australia since then and what might that mean for Australia into the future Australians served at sea on land and in the air alongside their United Nations partners during the war They fought with distinction from bitterly cold mountain tops to the frozen decks of aircraft carriers and in dogfights overhead This book includes the perspectives of leading academics practitioners and veterans contributing fresh ideas on the conduct and legacy of the Korean War International perspectives from allies and adversaries provide contrasting counterpoints that help create a more nuanced understanding of Australia s relatively small but nonetheless important contribution of forces in the Korean War The book finishes with some reflections on implications that the Korean War still carries for Australia and the world to this day      Warriors and Scholars Peter B. Lane,Ronald E. Marcello,2005 Annotation Presents scholarship from eminent historians on topics of their specialty alongside veteran accounts for the war being discussed The editors have added contextual and commentary footnotes These papers originally from the University of North Texas s annual Military History Seminar are organized chronologically starting from World War II      **Subject Guide to Books in Print** ,1997      **MARINES** Chuck Mansfield,2023-10-29 The history and lore of the United States Marine Corps are likely unmatched Steeped in the rich history and tradition of the Corps since its founding in 1775 this book focuses on more recent history specifically the author s experiences as a young Marine in the 1960s including his tour of duty in Vietnam It also includes biographical profiles of more than 100 other Marines who fought in Vietnam or other conflicts Most of those profiled are Marines with whom the author served or has come to know since his active military service The 30th Marine Commandant General Carl Mundy has written Few who have borne the title United States Marine fail to identify with it throughout their entire lives Marines are as Shakespeare has written We few we happy few we band of brothers And brothers are members of a family This family is The few The proud The Marines      *Westmoreland's War* Gregory Daddis,2014 This groundbreaking study offers a major reinterpretation of American strategy during the first half of the Vietnam War Gregory A Daddis argues senior military leaders developed a comprehensive campaign strategy one not confined to attrition of enemy forces This innovative work is a must for a genuine understanding of the Vietnam War      Civil Rights in the White Literary Imagination Jonathan W. Gray,2013-02 The statement The Civil Rights Movement changed America though true has become something of a clich Civil rights in the White Literary Imagination seeks to determine how exactly the Civil Rights Movement changed the literary possibilities of four iconic American writers Robert Penn Warren Norman Mailer Eudora Welty and William Styron Each of these writers published significant works prior to the Brown v

Board of Education case in 1954 and the Montgomery Bus Boycott that began in December of the following year making it possible to trace their evolution in reaction to these events The work these writers crafted in response to the upheaval of the day from Warren s Who Speaks for the Negro to Mailer s The White Negro to Welty s Where Is the Voice Coming From to Styron s Confessions of Nat Turner reveal much about their own feeling in the moment even as they contribute to the national conversation that centered on race and democracy By examining these works closely Gray posits the argument that these writers significantly shaped discourse on civil rights as the movement was occurring but did so in ways that intentionally or not often relied upon a notion of the relative innocence of the South with regard to racial affairs and on a construct of African Americans as politically and or culturally na ve As these writers grappled with race and the myth of southern nobility their work developed in ways that were simultaneously sympathetic of and condescending to black intellectual thought occurring at the same time
