The Kulunge Rai Charles McDougal, 1979 Socio anthropological study of the Kulunge Rais an ethnic group of eastern Nepal *Culture, Creation, and Procreation* Monika Böck, Aparna Rao, 2001-01-01 As reproduction is seen as central to kinship and the biological link as the primary bond between parents and their offspring Western perceptions of kin relations are primarily determined by ideas about consanguinity genealogical relations and genetic connections Advocates of cultural constructivism have taken issue with a concept that puts so much stress on heredity as being severely biased by western ideas of kinship Ethnosociologists in particular developed alternative systems using indigenous categories This symbolic approach has however been rejected by some scholars as plagued by the problems of the analytical separation of ideology from practice of largely overlooking relations of domination and of ignoring the questions of shared knowledge and choice This volume offers a corrective by discussing the constitution of kinship among different communities in South Asia and addressing the relationship between ideology and practice cultural models and individual strategies The Kulunge Rai Charles McDougal, 1979 Socio anthropological study of the Kulunge Rais an ethnic group of eastern Nepal **Nationalism and Ethnicity in a Hindu Kingdom** D. Gellner, J. Pfaff-Czarnecka, J. Whelpton, 2012-12-06 With its systematic coverage of different groups this book demonstrates how similar trends of ethnic formation are affecting all parts of Nepal Yet within the boundaries of a single culturally diverse state very different forms of ethnicity have emerged This is a truly thematic collection with a well defined focus on the important contemporary topics of ethnic identity and nationalism The importance of the theme is self evident in a world attempting to come to grips with such problems in virtually all modern states Anyone with an interest in contemporary Nepal should study this volume Nepal is the only officially Hindu kingdom in the world and remains so in spite of a revolution or people s movement in 1990 which overthrew the partyless Panchayat regime and instituted a multiparty constitutional monarchy Since November 1994 it has also had an elected Communist government the first of its kind in South Asia This volume takes a long term view of the various processes of ethnic and national development that have been displayed both before and after 1990 It brings together twelve carefully chosen ethnographic and historical chapters covering all of the major ethnic groups and regions of Nepal **Nature, Culture and Religion at the Crossroads of Asia** Marie Lecomte-Tilouine, 2017-08-03 This book explores how ethnic groups living in the Himalayan regions understand nature and culture The first part addresses the opposition between nature and culture in Asia s major religious traditions such as Hinduism Buddhism Islam and Shamanism The second part brings together specialists of different representative groups living in the heterogeneous Himalayan region They examine how these indigenous groups perceive their world This includes understanding their mythic past in particular the place of animals and spirits in the world of humans as they see it and the role of ritual in the everyday lives of these people The book takes into account how these various perceptions of the Himalayan peoples are shaped by a globalized world The volume thus provides new ways of

viewing the relationship between humans and their environment
