## **The Land And People Of Sierra Leone:**

*The Land and People of Sierra Leone* Mary Louise Clifford, 1974 Introduces the geography history economy government culture and people of the West African coastal country possessing one of the world's best natural harbors Sierra Leone Bankole Kamara Taylor, 2014-02 This work looks at Sierra Leone its people and history Other subjects are also covered to provide a general introduction to the country It is not intended for academic specialists and it is not an in depth study of the country It is written from the perspective of a layman or general reader who simply wants to know some important things about this West African country Sierra Leone is one of the oldest countries in Africa And before it won independence in 1961 it was also one of the oldest colonies on the continent Only two African countries won independence in 1961 both from the same colonial power Great Britain They were Sierra Leone on 27 April and Tanganyika on 9 December The history of Sierra Leone is also one of the most tragic But Sierra Leone still is one of the most fascinating countries on the continent in spite of the horrendous tragedy it went through during the civil war in the 1990s The fact that it emerged intact from that brutal conflict is strong testimony to the resilience of the Sierra Leonean people against overwhelming odds which could have broken weaker souls *Human Security and Sierra Leone's Post-Conflict Development* Francis Wiafe-Amoako, 2014-07-22 Achieving security and development in the post conflict era is a challenge with which stakeholders have to grapple While stakeholders are quick to claim success when physical hostilities cease between the belligerents ensuring sustainable peace has been a daunting task In some countries in Africa the post conflict era is characterized by organizing elections to ensure greater political participation It is believed that elections will begin a process of openness and trust in the governing system A supplement to electoral democracy has been power sharing arrangements used to resolve post election violence and ensure stability within the state However what underlie most conflicts in Africa is the marginalization and lack of an enabling environment to achieve individual life objectives Policies and strategies to achieve security and enhance development post conflict have at best been an extremely slow process and sometimes elusive In Sierra Leone for instance though the official declaration of the end of war and the successful general elections held in 2002 2007 and 2012 have led to some domestic stability developmental targets in the post conflict era have proceeded at a snail's pace The country continues to rank at the bottom of most UNDP human development indicators since 2002 *Human Security and Sierra Leone's Post Conflict Development* analyzes the extent to which human security issues have been addressed and subsequently implemented in the post conflict reconstruction process While Sierra Leone has made tremendous efforts at implementing reforms in the areas of political sensitization promotion of civil rights and civil liberties as well as personal security the lack on the part of the government to effectively address the unemployment problem has negatively affected security and developmental targets Thus the post conflict management strategies in Sierra Leone fail to secure and promote some aspects of human security leading to fragile peace and slow progress in achieving sustainable security and development Human security is an all

encompassing phenomenon and must be addressed to achieve overall wellbeing of the people especially in post conflict environments

What are Sierra Leonean and diaspora authors writing about today What genres are they working in What are future possibilities and directions of travel The ethnically and linguistically diverse nation of Sierra Leone boasts a rich cultural legacy and in the first decades of the twenty first century has built an internationally recognized literary canon despite the ravages caused by a brutal civil war and then the Ebola and Covid pandemics While acknowledging the country's literary and creative heritage dating back to the mid twentieth century this book interrogates a number of prominent themes and critical perspectives on Sierra Leone's contemporary literature Drawing from body studies post colonial theory spatial theory trauma theory ecocriticism history and cultural studies scholars and writers from West Africa and the United States tease out the beginnings ecology and dynamism of a bona fide national literature They do so through a careful examination of such themes as social oppression and class distinction dystopia ethnocentricity homophobia misogyny and gender disparities anthropocentrism self discovery social transformation identity social degradation genocide and trauma while also theorizing constructs such as home migration displacement community and return Throughout contributors argue for a better appreciation of a vibrant national literature by Sierra Leoneans themselves as well as its place in and contribution to world literature more generally

The Bulletin of the Southern Association of Africanists Southern Association of Africanists (U.S.), 1976      Land Tenure in Sierra Leone Ade Renner-Thomas, 2010 This book gives a brief account of the background to the dual land tenure system in force in Sierra Leone and explains the reasons why the dualism derived from the different colonial experience of the former Colony and Protectorate of Sierra Leone still persists almost fifty years after the two entities were merged to form a unitary State of Sierra Leone The book gives an account for the benefit of both law students and legal practitioners of the main features of the English derived land law in the Western Area and of the forms of land holding in the Provinces which are governed predominately by customary law The book also highlights the practical problems that legal practitioners may be confronted with in advising clients wanting to enter into transactions involving land in Sierra Leone and in drafting legal documents for the creation or transfer of interests in land in different parts of the country By giving an account of developments relating to policy initiatives and by laying bare the achievements and shortcomings of land tenure reform to date the book aims to stimulate debate on current proposals for reform not only among law students and practitioners of the law but also among policy makers and members of the wider non legal community It offers a brief but constructive criticism of the dual land tenure system and offers some proposals for reform of the system changes in the light of stated policies
