The Land and Peasant in Rumania David Mitrany, 1968 *The Land & the Peasant in Rumania: the War and Agrarian Reform (1917-21)* David Mitrany, 1930 *The Land and the Peasant in Rumania, the War and Agrarian Reform (1917-21)*, by David Mitrany,... David Mitrany, 1930 The Return of the Peasant A.L. Cartwright, 2017-11-22 This title was first published in 2001 Of the many far reaching issues facing post communist states in the wake of the collapse of communist rule few have continued to pose such dilemmas for future progress as the land question This book provides a historical account of national and local attempts to reform land ownership and agricultural production and in particular the way in which land law defined the land question Using archive work to demonstrate the selectivity of the law in righting wrongs and case studies to illustrate the practical obstacles to attempts at reconstructing the pre communist system this work is a critical and detailed portrait of the forces that stand to shape the future of post communist rural life A History of Modern Political Thought in East Central Europe Balázs Trencsenyi, Michal Kopeček, Luka Lisjak Gabrijelčić, Maria Falina, Mónika Baár, 2018-11-10 A History of Modern Political Thought in East Central Europe is a synthetic work authored by an international team of researchers covering twenty national cultures and 250 years It goes beyond the conventional nation centered narratives and presents a novel vision especially sensitive to the cross cultural entanglement of political ideas and discourses Its principal aim is to make these cultures available for the global market of ideas and revisit some of the basic assumptions about the history of modern political thought and modernity as such The present volume is the final part of the project following Volume I Negotiating Modernity in the Long Nineteenth Century and Volume II Part I Negotiating Modernity in the Short Twentieth Century 1918 1968 OUP 2018 Its starting point is the defeat of the vision of socialism with a human face in 1968 and the political discourses produced by the various consolidation or normalization regimes It continues with mapping the exile communities and domestic dissidents critical engagement with the local democratic and anti democratic traditions as well as with global trends Rather than achieving the coveted end of history however the liberal democratic order created in East Central Europe after 1989 became increasingly contested from left and right alike Thus instead of a comfortable conclusion pointing to the European integration of most of these countries the book closes with a reflection on the fragility of democracy in this part of the world and beyond Heroes and Victims Maria Bucur, 2009-11-20 Heroes and Victims explores the cultural power of war memorials in 20th century Romania through two world wars and a succession of radical political changes from attempts to create pluralist democratic political institutions after World War I to shifts toward authoritarian rule in the 1930s to military dictatorships and Nazi occupation to communist dictatorships and finally to pluralist democracies with populist tendencies Examining the interplay of centrally articulated and locally developed commemorations Maria Bucur's study engages monumental sites of memory local funerary markers rituals and street names as well as autobiographical writings novels oral narratives and film This book reveals the ways in which a community's religious ethnic

Crafting the Third World Joseph LeRoy Love,1996 This innovative study compares the history of economic ideas and ideologies in Romania and Brazil and more broadly those in East Central Europe and Latin America in the late nineteenth and twentieth centuries Whereas previous histories of the idea of economic development have focused on First World theorists this book considers theorists in two backward countries who made important contributions to the field Latin America is well known to economic historians as the region that gave rise to the Structuralist school and Dependency movement Less well known is the fact that East Central Europe is important as the early training ground and the empirical concern of the first generation of development economists This comparative study examines the ways in which economists and other social scientists in Romania and Brazil confronted the issues of economic backwardness *Bibliography on Land Settlement* ,1934 For a number of years the three industries of seed growing canning and trucking through their national organizations have discussed the need for accurate descriptions of the important varieties in the crop plants with which they are concerned

Vlad III Dracula Kurt Treptow,2022-07-01 The fifteenth century Romanian Prince Vlad III Dracula also known as Vlad the Impaler is one of the most fascinating personalities of medieval history Already during his own lifetime his true story became obscured by a veil of myths As a result he has been portrayed both as a bloody tyrant who degenerated down throughout the centuries into the fictional vampire of the same name created by Bram Stoker at the end of the nineteenth century and as a national and Christian hero who bravely fought to defend his native land and all of Europe against the invading Turkish infidels Even in more recent historiography the true history of Dracula has been obscured by Communist and nationalist historiography *A History of Romanian Oil Vol I* Gh. Agricultural Economics Literature ,1931 The Balkans in Travel Writing Marija Knežević, 2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region s path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is
