

*"A passionate, spiritual culmination of a lifetime's study of both God and the stars." - Midwest Book Review*

The First of Four Books Exploring How God Reveals Himself Through His Creation

*"The Language of God in the Universe" takes a profound new look at Sacred Astronomy, the Gospel in the Stars, and their connection to the Bible. By understanding the allegorical Language that God utilizes to communicate to mankind, and applying it to the Zodiac and the Bible, both are shown to be filled with similar prophetic imagery. Many allegorical ties between the Bible and the Gospel in the Stars are revealed, and once mysterious prophetic Scriptures suddenly make sense. The Universe, and the forty-eight constellations of the ancient Zodiac are the biblical parallels on a giant scale. They tell a compelling story that fully agrees with the Bible, and the unfolding of biblical history. The Magi who found Christ likely knew this, and the book examines their possible use of Sacred Astronomy to locate His whereabouts in Bethlehem in 3 BC.*

*Secondly, the parallel-like allegories found in our Solar System, upon the Earth, and in various elements of nature are explored. By seeking the Language of God apparent in every created thing, each layer of Yah's creation can reveal startling truths about our Creator, His love of mankind, and His desire to save us from our worst enemies: Satan and our fallen nature.*

*A lifelong love of learning and fervent love for God have given Author and Artist Helena Lehman many deep insights that tie biblical symbolism with ancient legends and traditions. In this volume, she invites readers to discover the Soul of God revealed in the Cosmos, and the Earth.*

**Postmodern Times** Gene Edward Veith Jr., 1994-02-15 The modern era is over Assumptions that shaped twentieth century thought and culture the bridges we crossed to this present moment have blown up The postmodern age has begun Just what is postmodernism The average person would be shocked by its creed Truth meaning and individual identity do not exist These are social constructs Human life has no special significance no more value than animal or plant life All social relationships all institutions all moral values are expressions and masks of the primal will to power Alarminglly these ideas have gripped the nation s universities which turn out today s lawyers judges writers journalists teachers and other culture shapers Through society s influences postmodernist ideas have seeped into films television art literature politics and without his knowing it into the head of the average person on the street Christ has called us to proclaim the gospel to a culture grappling with postmodernism We must understand our times Then through the power that Christ gives we can counter the prevailing culture and proclaim His sufficiency to our society s very points of need

Collins, 2023-10-17 This book brings together a series of informative essays on the theme of Creation in various Biblical traditions They include Bernard Batto's Creation Theology in Genesis Robert Di Vito's The Demarcation of Divine and Human Realms in Genesis 2:1-11 Richard Clifford's Creation in Psalms James Crenshaw's When Form and Content Clash The Theology of Job 38:1-40:5 Gale Yee's The Theology of Creation in Proverbs 8:22-31 and Michael Kolarcik's Creation and Salvation in the Book of Wisdom      **The Beginning of Difference** Dr. Theodore Hiebert, 2019-11-19 Difference can enrich us or tear us apart Difference can make our lives stronger fuller and richer or it can destroy them Therefore how we engage difference matters Conflicts between different peoples around the world the movement of refugees from nation to nation tensions over immigration and growing diversity within our society bring difference to our doorstep daily We can engage people who are different constructively and compassionately or we can allow the fear of difference to distance us from others and to demonize them At a time when racial ethnic cultural and religious differences have created heightened tensions we need more than ever to find our bearings We need to re-examine what we think about difference Author Theodore Ted Hiebert re-examines the Bible's stories explaining difference and its beginnings in the book of Genesis exposing the inclination to interpret these stories as a negative view of difference These stories recognize difference as God's intention for the world providing us with constructive resources of living with difference today Hiebert starts with the story of The Tower of Babel and moves beyond it to examine how Genesis's writers saw their unique identity and role in the world not as separate from all others but as members of the human family of which they were a part He presents how biblical characters lived with difference and how the first Christians embraced difference Finally he invites the reader into new conversations about our biblical traditions that reveal a respect for difference a generosity toward others a desire to include rather than exclude and a continuing interest in negotiating difference in ways that build relationships rather than destroy them      The Message of Mission Howard Pesket, Vinoth Ramachandra, 2024-09-19 The root of the word mission means sending All Christian mission has its fountainhead in the God revealed in Scripture who sent his Son for us sends his Spirit to us and summons all people to himself The privilege and responsibility of his church sent into all the world is to testify by his words and deeds to Jesus Christ God's unique son crucified risen and ascended The East West partnership in missiological exploration expounds a variety of Old and New Testament texts and examines a wide range of issues The authors desire is that Jesus Christ might be glorified more and more in the church and in the world their eager expectation is that one day the whole creation will find its consummation in him and God will be all and in all      **Divine Ideas** Thomas M. Ward, 2020-09-03 This Element defends a version of the classical theory of divine ideas the containment exemplarist theory of divine ideas The classical theory holds that God has ideas of all possible creatures that these ideas partially explain why God's creation of the world is a rational and free personal action and that God does not depend on anything external to himself for

having the ideas he has The containment exemplarist version of the classical theory holds that God's own nature is the exemplar of all possible creatures and therefore that God's ideas of possible creatures are in some sense ideas of himself Containment exemplarism offers a monotheism fit for metaphysics insofar as it is coherent simple and explanatorily powerful and offers a metaphysics fit for monotheism insofar as it leaves God truly worthy of the unconditional worship which Christians along with Jews and Muslims aspire to offer to God
