The Last Parallel:

The Last Parallel Martin Russ, 2016-12-21 Nothing can truly prepare you for the horrors of war Martin Russ of the US Marine Corps tells his own story of being on the front lines during the war As part of his military training Russ was based at Camp Pendleton but as a young man he had desires and wishes he wanted to fulfil prior to going to war This was the calm before the storm and Russ had no idea what was in store for him Learning the ways of being a marine meant that emotions needed to be kept at bay The slightest display of affection would result in the other men's mockery For Russ dampening emotions was not entirely possible though He had an ailing grandfather and he was exposed to suicide and death Camp Pendleton was there to ready the men for war and in the process harden them to the horrors that were inevitable in any war War was not something one read about and prepared themselves for The first hand experiences of a marine are captured through his eyes the loss and devastation experienced by these marines is exceptionally provided In November 1952 Russ and his comrades boarded the General Wm Weigel from San Diego to Inchon Korea The two week journey itself was uneventful Russ details the preparations the marines made prior to disembarking and the conditions in which the men had to adapt to on Inchon However living conditions meals laundry recreation were reasonably favoured by Russ By January he had become the automatic rifleman of the squad platoon of the Able Company On his first night on watch duty Russ came close to facing the Chinese and it wasn't long before the raid began Although a time of suffering illness and death Russ's experience during the war is essentially presented through his own eyes Portraying the feelings emotions and hardships endured The last Parallel provides an in deep illustration of life at war Praise for Martin Russ One of the most gripping stories of combat ever told New York Times The only book I have ever read that evoked the gut clutching quality of this war Chicago Tribune Magnificent Chicago Tribune Martin Russ was born in 1931 He was a military author ex Marine and associate professor The Last Parallel was based around his own experiences during the Korean War His other later books were based on accounts provided by other combat veterans Russ died in 2010 **The Last Parallel** Martin Russ, 1957 *The Last Parallel a Marine's War Journal - Scholar's Choice Edition* Martin Russ, 2015-02-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping

this knowledge alive and relevant *The Last Parallel. A Marine's War Journal, Etc* Martin Russ,1963 **Modern Java Recipes** Ken Kousen,2017-08-11 The introduction of functional programming concepts in Java SE 8 was a drastic change for this venerable object oriented language Lambda expressions method references and streams fundamentally changed the idioms of the language and many developers have been trying to catch up ever since This cookbook will help With more than 70 detailed recipes author Ken Kousen shows you how to use the newest features of Java to solve a wide range of problems For developers comfortable with previous Java versions this guide covers nearly all of Java SE 8 and includes a chapter focused on changes coming in Java 9 Need to understand how functional idioms will change the way you write code This cookbook chock full of use cases is for you Recipes cover The basics of lambda expressions and method references Interfaces in the java util function package Stream operations for transforming and filtering data Comparators and Collectors for sorting and converting streaming data Combining lambdas method references and streams Creating instances and extract values from Java s Optional type New I O capabilities that support functional streams The Date Time API that replaces the legacy Date and Calendar classes Mechanisms for experimenting with concurrency and parallelism *Official Gazette of the United States Patent Office* United States. Patent Office,1969 Graphical Methods in Applied Mathematics George Charles Turner,1909 *Non-deterministic Concurrent Logic Programming In Pandora* Reem Bahgat,1993-05-20 This monograph is the first comprehensive study of the design application and implementation of Pandora a new parallel logic programming language Pandora combines stream and parallelism with don t know non determinism in a unified and efficient manner As a result it provides a programming paradigm of non deterministic concurrent communicating processes which opens up interesting application areas that cannot conveniently be expressed in existing logic programming languages The author describes the use of Pandora for constraint programming solving resource allocation problems heuristic search and distributed discrete event simulation The final chapters describe in detail the implementation of Pandora on single as well as multi processor architectures The volume is aimed at the community of logic programming students and professionals as well as researchers and professionals in artificial intelligence It will also be of great interest to researchers in programming language design and parallel processing **Cracking the Kube** Filippo Ulivieri,2024-12-15 Maestro Genius Legend Respected Celebrated Worshipped Stanley Kubrick is one of the most famous and discussed filmmakers yet much about his work remains mysterious For the past twenty years Filippo Ulivieri has interviewed Kubrick s closest collaborators and associates gathering firsthand accounts of his films creation and the director s personality He has also delved into archives uncovering production documents memos correspondence and never before seen material This collection features Ulivieri s most up to date research challenging myths misconceptions clich s and false theories about Stanley Kubrick s life and films Think you know Kubrick Think again The Assistant Engineer Jean Pierre Genthon,1907 **Notes and Queries** ,1902 **Introduction to Programming with C++ for Engineers** Boguslaw Cyganek,2020-12-01 A complete textbook and

reference for engineers to learn the fundamentals of computer programming with modern C Introduction to Programming with C for Engineers is an original presentation teaching the fundamentals of computer programming and modern C to engineers and engineering students Professor Cyganek a highly regarded expert in his field walks users through basics of data structures and algorithms with the help of a core subset of C and the Standard Library progressing to the object oriented domain and advanced C features computer arithmetic memory management and essentials of parallel programming showing with real world examples how to complete tasks He also guides users through the software development process good programming practices not shunning from explaining low level features and the programming tools Being a textbook with the summarizing tables and diagrams the book becomes a highly useful reference for C programmers at all levels Introduction to Programming with C for Engineers teaches how to program by Guiding users from simple techniques with modern C and the Standard Library to more advanced object oriented design methods and language features Providing meaningful examples that facilitate understanding of the programming techniques and the C language constructions Fostering good programming practices which create better professional programmers Minimizing text descriptions opting instead for comprehensive figures tables diagrams and other explanatory material Granting access to a complementary website that contains example code and useful links to resources that further improve the reader s coding ability Including test and exam question for the reader s review at the end of each chapter Engineering students students of other sciences who rely on computer programming and professionals in various fields will find this book invaluable when learning to program with C

The Photographic History of the Civil War: Forts and artillery Francis Trevelyan Miller, Robert Sampson Lanier, 1911 Thousands of scenes photographed 1861-65 with text by many special authorities The History of the Campaigns 1796-1799: The history of the campaign of 1799 in Italy , 1800 Real-time Systems Dan Ionescu, Aurel Cornell, 2007 This book collects the research work of leading edge researchers and practitioners in the areas of analysis synthesis design and implementation of real time systems with applications in various industrial fields Their works are grouped into six parts together encompassing twenty chapters Each part is devoted to a mainstream subject the chapters therein developing one of the major aspects of real time system theory modeling design and practical applications Starting with a general approach in the area of formalization of real time systems and setting the foundations for a general systemic theory of those systems the book covers everything from building modeling frameworks for various types of real time systems to verification and synthesis Other parts of the book deal with subjects related to tools and applications of these systems A special part is dedicated to languages used for their modeling and design The applications presented in the book reveal precious insights into practitioners secrets

The History of the Campaigns in the Years 1796, 1797, 1798, and 1799, in Germany, Italy, Switzerland, Etc , 1812 **Attack of Fortified Places. Including Siege-works, Mining, and Demolitions** James Mercur, 2022-09-04 In Attack of Fortified Places Including Siege works Mining and Demolitions James

Mercur delves into the intricate techniques and strategies of 19th century military engineering The book meticulously dissects the art of siege warfare illustrating the nuanced methods of breaching fortified structures through a combination of theoretical knowledge and practical application Mercur s literary style showcases his extensive research and expertise using detailed diagrams and historical examples that underscore the complexities of siege tactics within the broader context of military history James Mercur a noted military engineer of the late 19th century drew upon his extensive field experience and scholarly pursuits to compose this pivotal text His unique perspective is rooted in a career that bridged theoretical frameworks with on ground execution thus enriching his analysis of military fortifications Mercur s understanding of the evolving nature of warfare influenced by his observations of contemporary conflicts provided a critical backdrop for his examination of siege operations This seminal work is essential for anyone interested in military history engineering or strategy Scholars students and military practitioners alike will find Mercur s insights invaluable as they explore the dynamics of siege warfare making it a critical addition to any military history library

The Auditory Periphery Biophysics and Physiology Peter Dallos, 2012-12-02 The Auditory Periphery Biophysics and Physiology is an attempt to provide comprehensive and detailed information regarding biophysics and physiology in terms of the peripheral auditory system Eight detailed chapters are presented in the book where the first and last serve as introduction and summary The introductory chapter provides background on the anatomy and functional organization of the auditory system The second chapter illustrates the most common experimental techniques A whole chapter is dedicated to the discussion of the middle ear while Chapters 4 and 5 discuss cochlear mechanisms and potentials The topic most studied but less understood in the operation of the ear is also emphasized in the book which is the production of distortion The topic of feedback mechanisms and systems is also covered This book aims to be of help to various specialists such as biophysicists bioengineers physiologists otolaryngologists and speech and hearing scientists

Provoke the Scheming Ghost Husband Yun ZaiQingXiaoShuiZaiPing, 2020-06-11 My name is Wu Xiangxiang and I m dressing the dead at the funeral home Ever since I became a part of this profession I ve always run into a ghost Furthermore getting married for no reason at all getting carried away by the dark devils all night long He didn t know whether to laugh or cry as he mocked Ever since I entered the funeral home I ve been favored by the Ghost King The harem has three thousand beauties and the Ghost King only dotes on me I advised the Ghost King that it must rain He pampered me pampered me and made me cry

The Thirteen Books of Euclid's Elements, Tr. from the Text of Heiberg Euclid, 1908

This is likewise one of the factors by obtaining the soft documents of this **The Last Parallel** by online. You might not require more mature to spend to go to the books launch as with ease as search for them. In some cases, you likewise get not discover the notice The Last Parallel that you are looking for. It will entirely squander the time.

However below, later than you visit this web page, it will be thus definitely easy to get as competently as download lead The Last Parallel

It will not admit many become old as we tell before. You can attain it even though measure something else at home and even in your workplace. suitably easy! So, are you question? Just exercise just what we manage to pay for under as well as evaluation **The Last Parallel** what you following to read!
