The Gyrfalcon Eugene Potapov, Evgeni? Potapov, 2005 This book is the first monograph on one of the most beautiful and admired birds in the world The Gyrfalcon is the world s largest and most powerful falcon a truly awe inspiring bird which inhabits the ferociously inhospitable Arctic taiga from Greenland and Iceland right across Siberia and northern Canada Its plumage varies from a dark mottled grey to pure white the white birds in particular are coveted by birders and falconers Like other titles in the series it covers all aspects of the species biology taxonomy distribution status and historical associations with mankind The result is an exhaustively researched and enthrallingly readable biography of a spectacular bird illustrated throughout with photographs and line drawings a good read presenting much previously inaccessible information as well as some interesting insights into some of the most remote and inhospitable places on earth British Birds Bloomsbury Publishing , **Gyrfalcon** Norman Barichello, 2020-03-13 Gyrfalcons and humans have shared a remarkable relationship since prehistoric times These extraordinary arctic falcons have been revered coveted as an item of commerce persecuted and enjoyed as a spectacle of sport for at least ten thousand years Today climate change has brought new challenges with habitat in the far north changing rapidly as natural cycles begin to break down Drawn from over thirty years of study and observation this in depth study provides a comprehensive view of the gyrfalcon s place in the arctic ecosystem including their inextricable link to their primary prey the ptarmigan and their antagonistic relationship with golden eagles It explores the connection the bird has had with humanity in both legend and practice and the challenges it faces as its habitat continues to change This definitive look at the gyrfalcon shows us both sides of the majestic bird the master of its domain and a threatened species facing an uncertain future
