The H.G. Wells Scrapbook, 1978 *The H. G. Wells Scrapbook* Peter Haining, 1978 **The H.G. Wells Scrapbook** Jack Williamson, 1978 **H.G. Wells on Film** Don G. Smith, 2015-06-08 One of the most influential thinkers of his era H G Wells is primarily known for his science fiction writings that looked ahead in time to teach and warn These novels and stories inspired many filmmakers to bring his visions if often greatly altered or misfocused to life on screen He himself wrote screenplays and closely supervised the production of some of his work This book is a study of every theatrically released film from 1909 to 1997 that is based even loosely on the writings of H G Wells including *The Time Machine* *The Island of Dr Moreau* *The Invisible Man* *The War of the Worlds* *The First Men in the Moon* *The Food of the Gods* and *The Empire of the Ants* to name a few For each film the author discusses the circumstances surrounding its creation its plot how it compares with the literary work its production and marketing and its strengths and weaknesses based on aesthetic qualities H.G. Wells and the Twenty-First Century Bill Cooke, 2023-09-15 H G Wells has been branded as a novelist who betrayed his vocation But Wells saw himself as what we would today call a public intellectual How credible is this claim And what happens when we look at him in this way So typecast has Wells s reputation become that neither of these questions has been previously asked but when we look at Wells as a thinker we find a whole new quality to his later works which have invariably been dismissed by literary scholars as of low quality or even not worth reading In particular Wells s prescience as a prophet of our current environmental problems stands out for example he foresaw anthropogenic climate change as early as 1931 Popular conceptions of Wells as racist imperialist and eugenicist are also challenged What emerges is a new perspective on a significant public intellectual and pioneering prophet of the twenty first century H.G. Wells W. Warren Wagar, 2004-09-22 A look inside one of the greatest minds of the 20th century **H.G. Wells: Another Kind of Life** Michael Sherborne, 2013-11-01 An unlikely lothario one of the most successful writers of his time a figure at the heart of the age s political and artistic debates H G Wells life is a great story in its own right When H G Wells left school in 1880 at 13 he seemed destined for obscurity yet he defied expectations becoming one of the most famous writers in the world He wrote classic science fiction tales such as *The Time Machine* *The Invisible Man* and *The War of the Worlds* reinvented the Dickensian novel in *Kipps* and *The History of Mr Polly* pioneered postmodernism in experimental fiction and harangued his contemporaries in polemics which included two bestselling histories of the world He brought equal energy to his outrageously promiscuous love life a series of affairs embraced distinguished authors such as Dorothy Richardson and Rebecca West the gun toting travel writer Odette Keun and Russian spy Moura Budberg Until his death in 1946 Wells had artistic and ideological confrontations with everyone from Henry James to George Orwell from Churchill to Stalin He remains a controversial figure attacked by some as a philistine sexist and racist praised by others as a great writer a prophet of globalization and a pioneer of human rights Setting the record straight this authoritative biography is the first full scale

account to include material from the long suppressed skeleton correspondence with his mistresses and illegitimate daughter

Monstrous Anatomies Raul Calzoni, Greta Perletti, 2015-09-16 The book explores the significance and dissemination of monstrous anatomies in British and German culture by investigating how and why scientific and literary representations and descriptions of abnormal bodies were proposed in the late Enlightenment during the Romantic and the Victorian Age Since the investigations of late 18th Century natural sciences the fascination with monstrous anatomies has proved crucial to the study of human physiology and pathology Featuring essays by a number of scholars focusing on a wide range of literary texts from the long nineteenth century and foregrounding the most important monstrous anatomies of the time this book intends to offer a significant contribution to the study of the representations of the abnormal body in modern culture The

emphasis on New York and London performances **The Critical Response to H.G. Wells** William J. Scheick,1995-02-28

H G Wells is best known as the author of enduring classics of science fiction such as *The Invisible Man* and *The War of the Worlds*. His tale of space flight *The First Men in the Moon* was written at the turn of the century and anticipated modern space travel. He was also the author of *The Outline of World History*, an ambitious chronicle of the world from antiquity to the beginning of the 20th century. Through essays and reviews, this book records his critical reception. **Claude Rains** David J. Skal, Jessica Rains, 2008-11-07. The first full length biography of the actor known for his roles in *The Invisible Man*, *Casablanca* and other classics based on newly released interviews. Given his childhood speech impediments and his origins in a destitute London neighborhood, the ascent of Claude Rains to the stage and screen was remarkable. Rains's difficulties in his formative years provided reserves of gravitas and sensitivity from which he drew inspiration for acclaimed performances in *The Invisible Man*, *Mr. Smith Goes to Washington*, *Casablanca*, *Notorious*, *Lawrence of Arabia* and other classic films. In this book, noted Hollywood historian David J. Skal draws on more than thirty hours of newly released Rains interviews to create the first full length biography of the man nominated multiple times for an Academy Award for Best Supporting Actor. Skal's portrait also benefits from the insights of Jessica Rains, who provides firsthand accounts of the enigmatic man behind her father's refined screen presence and genteel public persona. As Skal shows, numerous contradictions informed the life and career of Claude Rains. He possessed an air of nobility and became an emblem of sophistication, but he never shed the insecurities that traced back to his upbringing in an abusive and poverty-stricken family. Though deeply self-conscious about his short stature, Rains drew notorious ardor from female fans and was married six times. His public displays of dry wit and good humor masked inner demons that drove Rains to alcoholism and its devastating consequences. Skal's layered depiction of Claude Rains reveals a complex, almost inscrutable man whose nuanced characterizations were in no small way based on the more shadowy parts of his psyche. With unprecedented access to episodes from Rains's private life, Skal tells the full story of the consummate character actor of his generation. This highly readable biography, written with the help of his daughter Jessica Rains, reveals the witty, talented man behind this universally respected Hollywood legend. Tucson Citizen **The 1930**

American Scrap Book, 1930 Ray Bradbury David Seed, 2015-02-28. As much as any individual, Ray Bradbury brought science fiction's ideas into the mainstream. Yet he transcended the genre in both form and popularity, using its trappings to explore timely social concerns and the kaleidoscope of human experience while, in the process, becoming one of America's most beloved authors. David Seed follows Bradbury's long career from the early short story masterpieces through his work in a wide variety of broadcast and film genres to the influential cultural commentary he spread via essays, speeches, and interviews. Mining Bradbury's classics and hard-to-find archival literary and cultural materials, Seed analyzes how the author's views on technology, authoritarianism, and censorship affected his art, how his Midwest dream and dread brought his work to life, and the ways film and television influenced his creative process and visually oriented prose style. The result is a

passionate statement on Bradbury's status as an essential literary writer deserving of a place in the cultural history of his time
