statues stelae seals and coins Demonstrates how different types of evidence both textual and archaeological including material of uncertain provenance can be used to address a single historical question Offers critical discussion of the dating criteria used by archaeologists for Egyptian Late Period material Elucidates strategies used by the Persians to establish and maintain control of Egypt Examines how these strategies may have affected the lives of people living in Egypt during the 27th Dynasty Creates a new explanatory model for the introduction of coinage to ancient Egypt Previous studies have characterised Achaemenid rule of Egypt either as ephemeral and weak or oppressive and harsh These characterisations however are based on the perceived lack of evidence for this period filtered through ancient and modern preconceptions about the Persians Henry Colburn challenges these views by assembling and analyzing the archaeological remains from this period including temples tombs irrigation works statues stelae sealings drinking vessels and coins By looking at the decisions made about material culture by Egyptians Persians and others it becomes possible to see both how the Persians integrated Egypt into their empire and the full range of experiences people had as a result
