The Idea Of The Ordinary

John Locke

The Idea Of The Ordinary:

The Idea of a Text and the Nature of Textual Meaning Anders Pettersson, 2017-04-15 In his account of text and textual meaning Pettersson demonstrates that a text as commonly conceived is not only a verbal structure but also a physical entity two kinds of phenomena which do not in fact add up to a unitary object He describes this current notion of text as convenient enough for many practical purposes but inadequate in discussions of a theoretically more demanding nature Having clearly demonstrated its intellectual drawbacks he develops an alternative boldly revisionary way of thinking about text and textual meaning His careful argument is in challenging dialogue with assumptions about language in use to be found in a wide range of present day literary theory linguistics philosophical aesthetics and philosophy of language

God's Autopsy and the Living Truth of Soul Hal Childs, 2022-08-22 The Grand Narrative of Christianity that the Bible created is dead and the Bible is silent Does the Bible have anything relevant to say to our modern circumstances We ask where did God come from What happened to God God's Autopsy reinterprets soul and God as

historical psychological phenomena related to the cultural structure of consciousness the invisible shared context of thought which has changed dramatically over the past three millennia This book offers a new way to understand the trajectory of Western civilization by making the implicit foundation of Western consciousness soul visible and conscious Our modern Western consciousness is radically different from that of antiquity when the Bible emerged Jung s psychological philosophical insight that whenever we speak about the psyche it is the psyche speaking about itself leads to the realization that today consciousness has come home to itself Beginning with preliterate polytheism the emergence of the transcendent god Yahweh and Christ which led directly to the Enlightenment objective soul continues to unfold itself How did late modernity become a topsy turvy quantum virtual digital impersonal and abstract world that appears to be running away from us The answer is unexpectedly and shockingly in the Bible itself Truth and Realism Patrick Greenough, Michael Patrick Lynch, 2006 Is truth objective or relative What exists independently of our minds This book is about these two questions The essays in its pages variously defend and critique answers to each grapple over the proper methodology for addressing them and wonder whether either question is worth pursuing In so doing they carry on a long and esteemed tradition for our two questions are among the oldest of philosophical issues and have vexed almost every major philosopher from Plato to Kant to Wittgenstein Fifteen eminent contributors bring fresh perspectives renewed energy and original answers to debates which have been the focus of a tremendous amount of interest in the last three decades both within philosophy and the culture at large

Marx's Construction of Social Theory (RLE Marxism) J.M. Barbalet, 2015-04-17 This study first published in 1983 explores the connections between Marx's philosophy and his empirical analysis of society and state by showing the different meanings of many of Marx's concepts as their role in his theory changes and the theory itself develops Beginning with an examination of Marx's search for a sound epistemological basis on which to build a social theory Dr Barbalet then gives an analysis of the way in which Marx continually modifies the concepts he uses and continues with an examination of the different functions they are given in different theoretical settings Various nuances of Marx's thought often obscured by the simplistic early/late dichotomy are revealed by Dr Barbalet's close attention to the progressive transformation of Marx's concepts and by his scrupulous analysis of them in not only their textual but also their theoretical context Finally the book examines the manner in which Marx's construction of social theory by its very nature means that some material is replaced by other theoretical fabric as the theoretical structure itself is in different ways dismantled and reorganised as Marx's thought evolves and develops
