UML for Real Luciano Lavagno, Grant Martin, Bran V. Selic, 2007-05-08 The complexity of most real time and embedded systems often exceeds that of other types of systems since in addition to the usual spectrum of problems inherent in software they need to deal with the complexities of the physical world That world as the proverbial Mr Murphy tells us is an unpredictable and often unfriendly place Consequently there is a very strong motivation to investigate and apply advanced design methods and technologies that could simplify and improve the reliability of real time software design and implementation As a result from the first versions of UML issued in the mid 1990 s designers of embedded and real time systems have taken to UML with vigour and enthusiasm However the dream of a complete model driven design flow from specification through automated optimised code generation has been difficult to realise without some key improvements in UML semantics and syntax specifically targeted to the real time systems problem With the enhancements in UML that have been proposed and are near standardisation with UML 2 0 many of these improvements have been made In the Spring of 2003 adoption of a formalised UML 2 0 specification by the members of the Object Management Group OMG seems very close It is therefore very appropriate to review the status of UML as a set of notations for embedded real time systems both the state of the art and best practices achieved up to this time with UML of previous generations and where the changes embodied in the 2

Management from Heart - For the New Generation Anil Kumar Bhatia, 2023-03-09

Past 6 7 decades have seen Organizations turning into Offices My generation GenX being largely responsible for it I firmly believe that a time has come and the new generation has already started the journey to change Offices back into Organizations The process has started This is an effort to bring forth some factors which have to be addressed using the new technological developments to build wonderful happy and work full tension free Organizations leading to happy societies nation and the whole world THEY WERE OVERJOYED TO JOIN A common story Jack and Jill were overjoyed to join my Organization They celebrated with their families and friends They started picturing and dreaming about their new assignments Wonderful expectations and all positivity in the thoughts Our management and associating Associates were also very happy to have associated old school recruited hired the best As a senior management isn t it wonderful to have such positive energy What can I do to keep this level of positivity till the retirement age of every Jack and Jill who Associates with my Organization No power in this world can restrict the growth of my our Organization if we can sustain this positivity WHY Why do the bright candidates start looking for greener pastures soon after joining Why do the wonderful candidates become dull and unfriendly Associates after joining It all starts from the top We hire readymade packages to take care of our issues and we want to get the job done our way Humans are not capital assets or resources Humans are Management Associates We all have to associate the candidates to build them into our Management Associates Associations have to be for long term Simple but not easy but worth the effort definitely

Risk and Crisis Communications Pamela (Ferrante) Walaski, 2011-07-07 The go to guide for learning what to say and how to say it In this climate of near constant streams of media messages organizations need to know how to effectively communicate risks to their audiences and what to say when a crisis strikes Risk and Crisis Communications Methods and Messages is designed to
