The Ignorant Schoolmaster Five Lessons In Intellectual Emancipation:

The Ignorant Schoolmaster Jacques Rancière, 1991 Recounts the story of Joseph Jacotot vii *Redescribing Christian Origins* Ronald Dean Cameron, Merrill P. Miller, 2004 These essays challenge the traditional picture of Christian origins Making use of social anthropology they move away from traditional assumptions about the foundations of Christianity to propose that its historical beginnings are best understood as reflexive social experiments The Politics of Performing Shakespeare for Young People Jan Wozniak, 2016-03-10 What is the value of performing Shakespeare's plays for young people Using interviews with theatre workers rehearsal observations and workshops with young people this book argues that rather than promoting a range of pre determined textual understandings of the plays it is by trusting young people's experience of performances that they might gain most benefit It argues that by privileging the meanings young people make of Shakespeare new and exciting interpretations of his work might be found Drawing on case studies from theatre companies such as the Royal Shakespeare Company The Hip Hop Shakespeare Company Tiny Ninja Theatre Company and Company of Angels Theatre Company Jan Wozniak shows how the collaboration and materiality of performance is central to empowering young people to engage with enjoy and challenge Shakespeare Ranciere and Music Cachopo Joao Pedro Cachopo, 2020-04-15 The place of music in Ranciere's thought has long been underestimated or unrecognised This volume responds to this absence with a collection of 15 essays by scholars from a variety of music and sound related fields including an Afterword by Ranciere on the role of music in his thought and writing The essays engage closely with Ranciere's existing commentary on music and its relationship to other arts in the aesthetic regime revealed through detailed case studies around music sound and listening Ranciere's thought is explored along a number of music historical trajectories including Italian and German opera Romantic and modernist music Latin American and South African music jazz and contemporary popular music Ranciere's work is also set creatively in dialogue with other key contemporary thinkers including Adorno Althusser Badiou and Deleuze Good Education in an Age of Measurement Gert J. J. Biesta, 2015-11-17 The widespread use of the measurement of educational outcomes in order to compare the performance of education within and across countries seems to express a real concern for the quality of education This book argues that the focus on the measurement of educational outcomes has actually displaced questions about educational purpose Biesta explores why the question as to what constitutes good education has become so much more difficult to ask and shows why this has been detrimental for the quality of education and for the level of democratic control over education He provides concrete suggestions for engaging with the question of purpose in education in a new more precise and more encompassing way with explicit attention to the ethical political and democratic dimensions of education Epistemologies of Ignorance in Education Erik Malewski, Nathalia Jaramillo, 2011-03-01 Epistemologies of Ignorance provide educators a distinct epistemological view on questions of marginalization oppression relations of power and dominance difference philosophy and even death among our youth The

authors of this edited collection challenge the ambivalence ignorance found in the construction of curriculum teaching practices research guidelines and policy mandates in our schools Further ignorance is also considered a necessary by product of knowledge production In this sense the authors explore not only issues of complicity but also issues of oppression in spite of educators liberatory intentions While this is the first systematic effort to transfer epistemologies of ignorance to the educational scene this movement has its roots in race class gender and sexuality studies particularly the work of Charles Mills Eve Kosofsky Sedgwick Shannon Sullivan and Nancy Tuana It is our unequivocal belief that while this is transformative and powerful scholarship the study of ignorance remains understudied and under theorized in education scholarship from curriculum studies and cultural foundations to science education and educational psychology This collection highlights without apology why this dangerous state of affairs cannot continue Beyond Bruce Lee Paul Bowman,2013-03-26 In order to understand Bruce Lee we must look beyond Bruce Lee to the artist s intricate cultural and historical contexts This work begins by contextualising Lee examining his films and martial arts work and his changing cultural status within different times and places The text examines Bruce Lee s films and philosophy in relation to the popular culture and cultural politics of the 1960s and 1970s and it addresses the resurgence of his popularity in Hong Kong and China in the twenty first century The study also explores Lee s ongoing legacy and influence in the West considering his function as a shifting symbol of ethnic politics and the ways in which he continues to inform Hollywood film fight choreography Beyond Bruce Lee ultimately argues Lee is best understood in terms of cultural translation and that his interventions and importance are ongoing *Jacques Ranciere* Jean-Philippe Deranty,2014-12-05 Although relatively unknown a decade ago the work of Jacques Ranciere is fast becoming a central reference in the humanities and social sciences His thinking brings a fresh innovative approach to many fields notably the study of work education politics literature film art as well as philosophy This is the first full length introduction to Ranciere s work and covers the full range of his contribution to contemporary thought presenting in clear succinct chapters the key concepts Ranciere has developed in his writings over the last forty years Students new to Ranciere will find this work accessible and comprehensive an ideal introduction to this major thinker For readers already familiar with Ranciere the in depth analysis of each key concept written by leading scholars should provide an ideal reference

On the Question of Truth in the Era of Trump, 2020-04-28 Using a range of critical perspectives On the Question of Truth in the Era of Trump closely examines notions of truth in crisis leading up to and after the election of Donald Trump The authors explore how truth is constructed along the lines of race social class and gender as filtered through the self-referential characteristics of social media in particular The authors assert that the US left has shown itself inadequate to the task of confronting right-wing ideologies which have only intensified since the 2016 election resulting in increased mobilization of white supremacist and nationalist groups Whether underestimating Trump by downplaying the threat of his candidacy during the primaries trivializing the concerns of women and minorities as identity politics or rushing to prioritize the free speech rights of the far right left academics and the media have found themselves unable to use their traditional arsenal of evidence rational discourse and appeals to diversity of viewpoints The authors assert that political resistance to the right is not a matter of playful use of signs and symbols or discourse alone and has to be fought directly and in solidarity At this point it is clear that Trump and his supporters have not just deployed relativism as a form of strategy but have fully weaponized it against their perceived enemies women immigrants minorities LGBTQ people along with educational scientific and journalistic institutions It is hoped that this in-depth critical dissection of truth in the current political reality will assist in the project of resistance Contributors are Faith Agostinone Wilson Mike Cole Jeremy T Godwin Jones Irwin Austin Pickup Daniel Ian Rubin and Eric C Sheffield

Responding to the increasing need for new and peaceful forms of emancipation Stuart Blaney offers a unique solution in the synergy between two pioneering strands of continental philosophy Michael Foucault s ideas on freedom and Jacques Rancière s ideas on equality Building a dialogue between these two thinkers Blaney presents new perspectives on their work and a clear picture that emancipation comes from everyday practices rather than any particular movement or revolution In exploring these combined views of equality and freedom Blaney draws on some of the central facets of both concepts including revolution disagreement care for the self free speech and stoicism To put these ideas into a practical framework of real lived experience we are introduced to the figure of Louis Gabriel Gauny the 19th century worker poet and self confessed plebeian philosopher Gauny is a nexus for Rancière s and Foucault s ideas his life exemplifying a dual mode of existence in between conformity and political revolution This lived philosophy of equality and freedom shows the strong synergy between the two concepts with one reinforcing the other and strengthening their efficacy as forms of emancipatory practice
