Last King of the Sports Page Ted Geltner, 2012-06-29 Part crusader part comedian Jim Murray was a once in a generation literary talent who just happened to ply his trade on newsprint right near the box scores and race results During his lifetime Murray rose through the ranks of journalism from hard bitten 1940s crime reporter to national Hollywood correspondent to the top sports columnist in the United States In *Last King of the Sports Page* The Life and Career of Jim Murray Ted Geltner chronicles Jim Murray's experiences with twentieth century American sports culture and journalism At the peak of his influence Murray was published in more than 200 newspapers From 1961 to 1998 Murray penned more than 10 000 columns from his home base at the Los Angeles Times

His offbeat humor and unique insight made his column a must read for millions of sports fans. He was named Sportswriter of the Year an astounding fourteen times and his legacy was cemented when he became one of only four writers to receive the prestigious Pulitzer Prize for coverage of sports. Geltner now gives readers a first look at Murray's personal archives and dozens of fresh interviews with sports and journalism personalities including Arnold Palmer, Mario Andretti, Kareem Abdul Jabbar, Yogi Berra, Frank Deford, Rick Reilly, Dan Jenkins, Roy Firestone, and many more. Throughout his life, Murray chronicled seminal events and figures in American culture and history, and this biography details his encounters with major figures such as William Randolph Hearst, Henry Luce, Marilyn Monroe, Marlon Brando, John Wayne, Mickey Mantle, Muhammad Ali, and Tiger Woods. Charming and affecting moments in Murray's career illustrate the sportswriter's knack for being in on the big story. Richard Nixon running for vice president on the Eisenhower ticket in 1952 revealed to Murray the contents of the Checkers speech so it could make the Time magazine press deadline. Media mogul Henry Luce handpicked Murray to lead a team that would develop Sports Illustrated for Time Life in 1953, and when terrorists stormed the Olympic village at the 1972 Munich games, Murray was one of the first journalists to report from the scene. The words of sports journalist Roy Firestone emphasize the influence and importance of Jim Murray on journalism today. I'll say without question: I think Jim Murray was every bit as important of a sports writer, forget sport writer, every bit as important a writer to newspapers as Mark Twain was to literature. Readers will be entertained and awed by the stories, interviews, and papers of Jim Murray in *Last King of the Sports Page*.

Automotive Carbon Fiber Composites Jackie D. Rehkopf, 2011-11-29. The development of new materials that are technically and economically viable is no small endeavor. The risks, costs, and time involved in research are usually so high that only governments or private consortia can bear them. And so it has been with the trajectory of carbon fiber reinforced composites, which are capable of providing the lightweighting needed for fuel efficiency and the mechanical strength required for safety. After a long development cycle, this material is now being widely used by the military in commercial aircraft and in the automotive industry. *Automotive Carbon Fiber Composites: From Evolution to Implementation*, written by Dr. Jackie Rehkopf, senior researcher at Plasan Carbon Composites, gives a high-level summary on carbon reinforced fiber composites specific to the automotive industry in today's market and its vision for the next 5 to 10 years. It begins with a comprehensive and easy-to-read overview of how composites started to be investigated as a possible alternative to metals, mostly driven by military demands, going on to cover fiber and resin types for automotive applications, composite constructions, manufacturing processes, machining and joining, reclaiming and recycling of these materials, among other topics. The title approaches the future with the realistic optimism of those who work with the challenges of creating new solutions to problems that will stay with us for some time to come: the need to conserve energy and make transportation ever more affordable without the loss of safety. Carbon fiber reinforced composites have demonstrated real value in positively addressing these issues. *Automotive Carbon Fiber Composites: From Evolution to Implementation* is an excellent guide for

those involved in technical material strategy and research as well as those who need to understand the basics of this subject to support better business decisions
