increasingly visible in the rapprochement So what does the West make of the East How does ex communist Europe come across through the lens of the Western media This book presents research conducted on all material concerning Bulgaria on the BBC website over a period of five years starting with the early years of EU accession in 2007 up to the hysteria regarding a wave of Bulgarian immigrants to the UK in 2012 Three types of methodologies are applied namely content analysis critical discourse analysis and corpora techniques Several coding categories are employed for the content analysis including what type of stories are published about Bulgaria in comparison with countries of a similar size and standing which stories were not covered by the BBC and what areas are of specific interest in the coverage of former communist countries A new taxonomy is established for thematic threads and continuous coverage which sets off significant value laden aspects of news reporting Critical discourse analysis reveals that Bulgarians are construed via a different set of referential terms while English people living abroad are called ex patriots Bulgarians are immigrants In its plentiful criticism of Bulgaria Euro Speak is reproduced where nominalisations such as we cannot delay their integration reveal a mental frame of rejection not integration The BBC uses EU jargon between inverted commas the effects of Bulgaria s integration into the Schengen zone are grave instead of a factual taxonomic adjective naming the actual consequences Thus the language used reveals hidden attitudes Corpora techniques include establishing words whose frequency in the articles about Bulgaria is higher than in a balanced corpus of English Such nouns in the five year corpus include CORRUPTION POOR and POOREST Maybe the BBC reporters believed they were covering events as they happened but the results evoke a grim picture prompting unfavourable attitudes to Bulgarians That is why the images spawned by news coverage need to be monitored and moderated for which this book offers an array of methodologies   Mass Media in the Asian Pacific Bryce Telfer McIntyre,1998 A compilation of recent research findings on mass communication in the Asia Pacific region The studies focus mainly on Hong Kong China and Taiwan The unfolding drama of China s take over of Hong Kong and Taiwan s potential reunification with the mainland are also addressed   Absolute Beginner's Guide to Microsoft Windows XP Media Center Steve Kovsky,2004 Although the Windows XP Media Center is designed as a consumer product it is actually more complex than the conventional computer and home entertainment devices it replaces That s why this book written in the fun friendly Absolute Beginner s style is required reading for buyers of these multitasking media centric machines It is written in an easy to understand tone that won t confuse readers with lots of technical jargon   The normal eye, determination of refraction, diseases of the media, physiological optics, and theory of the ophthalmoscope Edward Greely Loring,1893   DIY Media Michele Knobel,Colin Lankshear,2010 Schools remain notorious for co opting digital technologies to business as usual approaches to teaching new literacies DIY Media addresses this issue head on and describes expansive and creative practices of digital literacy that are increasingly influential and popular in contexts beyond the school and whose educational potential is not yet being tapped to any significant degree in classrooms This book is very much concerned with engaging students in do it yourself digitally

mediated meaning making practices As such it is organized around three broad areas of digital media moving media still media and audio media Specific DIY media practices addressed in the chapters include machinima anime music videos digital photography podcasting and music remixing Each chapter opens with an overview of a specific DIY media practice includes a practical how to tutorial section and closes with suggested applications for classroom settings This collection will appeal not only to educators but to anyone invested in better understanding and perhaps participating in the significant shift towards everyday people producing their own digital media   Four Corners Level 4 Teacher's Edition with Assessment Audio CD/CD-ROM Jack C. Harmes,Barbara Harmes,Meredith A. Harmes,2021-10-28 The image of the nurse is ubiquitous both in life and in popular media One of the earliest instances of nursing and media intersecting is the Edison phonographic recording of Florence Nightingale s voice in 1890 Since then a parade of nurses good bad or otherwise has appeared on both cinema and television screens How do we interpret the many different types of nurses real and fictional lifelike and distorted sexual and forbidding who are so visible in the public consciousness This book is a comprehensive collection of unique insights from scholars across the Western world Essays explore a diversity of nursing types that traverse popular characterizations of nurses from various time periods The shifting roles of nurses are explored across media including picture postcards film television journalism and the collection and preservation of uniforms and memorabilia   *Ambient Media* Paul Roquet,2016-02-01 Ambient Media examines music video art film and literature as tools of atmospheric design in contemporary Japan and what it means to use media as a resource for personal mood regulation Paul Roquet traces the emergence of ambient styles from the environmental music and Erik Satie boom of the 1960s and 1970s to the more recent therapeutic emphasis on healing and relaxation Focusing on how an atmosphere works to reshape those dwelling within it Roquet shows how ambient aesthetics can provide affordances for reflective drift rhythmic attunement embodied security and urban coexistence Musicians video artists filmmakers and novelists in Japan have expanded on Brian Eno s notion of the ambient as a style generating calm and a space to think exploring what it means to cultivate an ambivalent tranquility set against the uncertain horizons of an ever shifting social landscape Offering a new way of understanding the emphasis on reading the air in Japanese culture Ambient Media documents both the adaptive and the alarming sides of the increasing deployment of mediated moods Arguing against critiques of mood regulation that see it primarily as a form of social pacification Roquet makes a case for understanding ambient media as a neoliberal response to older modes of collective attunement one that enables the indirect shaping of social behavior while also allowing individuals to feel like they are the ones ultimately in control   **New Media, Old Media** Wendy Hui Kyong Chun,Thomas Keenan,2006 In this history of new media technologies leading media and cultural theorists examine new media against the background of traditional media
