The Reality Record and Builder, 1903 *Realism, Form, and Representation in the Edwardian Novel* Charlotte Jones, 2021-01-07 The real represents to my perception the things that we cannot possibly not know sooner or later in one way or another wrote Henry James in 1907 This description riven with double negatives hesitation and uncertainty encapsulates the epistemological difficulties of realism for underlying its narrative and descriptive apparatus as an aesthetic mode lies a philosophical quandary What grounds the real of the realist novel What kind of perception is required to validate the experience of reality How does the realist novel represent the difficulty of knowing What comes to the fore in James's account as in so many is how the forms of realism are constituted by a relation to unknowing absence and ineffability *Realism Form and Representation in the Edwardian Novel* recovers a neglected literary history centred on the intricate relationship between fictional representation and philosophical commitment It asks how or if we can conceptualize realist novels when the objects of their representational intentions are realities that might exist beyond what is empirically verifiable by sense data or analytically verifiable by logic and are thus irreducible to conceptual schemes or linguistic practices a formulation Charlotte Jones refers to as synthetic realism In new readings of Edwardian novels including Conrad's *Nostromo* and *The Secret Agent* Wells's *Tono Bungay* and Ford's *The Good Soldier* this volume revises

and reconsiders key elements of realist novel theory metaphor and metonymy character interiority the insignificant detail omniscient narration and free indirect discourse causal linearity to uncover the representational strategies by which realist writers grapple with the recalcitrance of reality as a referential anchor and seek to give form to the force opacity and uncertain scope of realities that may lie beyond the material In restoring a metaphysical dimension to the realist novel s imaginary Realism Form and Representation in the Edwardian Novel offers a new conceptualization of realism both within early twentieth century literary culture and as a transhistorical mode of representation

Conrad and Impressionism John G. Peters, 2001-03-15 In this 2001 book John Peters investigates the impact of Impressionism on Conrad and links this to his literary techniques as well as his philosophical and political views Impressionism Peters argues enabled Conrad to encompass both surface and depth not only in visually perceived phenomena but also in his narratives and objects of consciousness be they physical objects human subjects events or ideas Though traditionally thought of as a sceptical writer Peters claims that through Impressionism Conrad developed a coherent and mostly traditional view of ethical and political principles a claim he supports through reference to a broad range of Conrad s texts Conrad and Impressionism investigates the sources and implications of Conrad s impressionism in order to argue for a consistent link between his literary technique philosophical presuppositions and socio political views The same core ideas concerning the nature of human experience run throughout his works

Poets of Reality Joseph Hillis Miller, 1992

The Reality of the Unreal Judit Borbély, 2005 In the nineteenth century the great cities underwent the most conspicuous transformation The beauties and the dark side of urban existence soon came to be one of the central issues in contemporary literature and art In *The Reality of the Unreal* the works of four great English writers of the time are analyzed with the focus on their representation of the city Through the concrete image of London and Paris around the turn of the century as well as through the metaphorical role of the city as a concept this book a new volume in the Philosophiae Doctores series provides differing views about the age as seen by H G Wells George Gissing Joseph Conrad and Henry James The book s analysis arrives at the complex image of civilization at the end of the nineteenth century

The Impressionists Handbook Robert Katz, Dars Celestine, 1999 The two authors who are both knowledgeable writers with extensive background in the study of art and art history write engagingly about the history of impressionism and the life and works of Pissarro Manet Degas Monet Renoir and Sisley At 7x8 5 the book is compact but the format is large enough to accommodate decent reproductions of many of the paintings under consideration This is a thoughtfully prepared well written treatment of the subject with none of the ponderousness that handbook might imply It was originally published in 1991 by Bookmart Ltd UK Annotation copyrighted by Book News Inc Portland OR

human mind and soul These penetrating studies explore the deep psychological and formal affinities between defining figures of their epochs from Giotto and Dante through Picasso and illuminate ways that artists and thinkers encounter the world and translate it through the unique language of imagination The principal sections of this important book are Giotto and Dante Picasso Painter and Engraver Giotto and Picasso The Condition of Modern Art and Thought Theory and Practice of the Novel William Wolfgang Holdheim,1968 *Technology and Reality* J.K. Feibleman,2012-12-06 In the following pages I have endeavored to show the impact on philosophy of technology and science more specifically I have tried to make up for the neglect by the classical philosophers of the historic role of technology and also to suggest what positive effects on philosophy the almost daily advances in the physical sciences might have Above all I wanted to remind the ontologist of his debt to the artificer technology with its recent gigantic achievements has introduced a new ingredient into the world and so is sure to influence our knowledge of what there is This book then could as well have been called Ethnotechnology An Explanation of Human Behavior by Means of Material Culture but the picture is a complex one and there are many more special problems that need to be prominently featured in the discussion Human culture never goes forward on all fronts at the same time In our era it is unquestionably not only technology but also the sciences which are making the most rapid progress Philosophy has not been very successful at keeping up with them As a consequence there is an enormous gulf between scientists and philosophers today a gulf which is as large as it has ever been 1 I can see that with science moving so rapidly its current lessons for philosophy might well be outmoded tomorrow *Illusion and Reality* John Raymond Dugan,2014-10-08 No detailed description available for Illusion and Reality Virtual Reality Howard Rheingold,1992-08-15 Breaking the reality barrier the reality industrial complex virtual reality and the future
