That Half-barbaric Twang Karen Linn, 1994 Long a symbol of American culture the banjo actually originated in Africa before European Americans adopted it Karen Linn shows how the banjo despite design innovations and several modernizing agendas has failed to escape its image as a half barbaric instrument symbolic of antimodernism and sentimentalism Caught in the morass of American racial attitudes and often used to express ambivalence toward modern industrial society the banjo stood in opposition to the official values of rationalism modernism and belief in the beneficence of material progress Linn uses popular literature visual arts advertisements film performance practices instrument construction and decoration and song lyrics to illustrate how notions about the banjo have changed Linn also traces the instrument from its African origins through the 1980s alternating between themes of urban modernization and rural nostalgia She examines the banjo fad of bourgeois Northerners during the late nineteenth century the African American banjo tradition and the commercially popular cultural image of the southern black banjo player the banjo s use in ragtime and early jazz and the image of the white Southerner and mountaineer as banjo player

Music, Modernity, and the Global Imagination Veit Erlmann, 1999-06-03 How was Africa seen by the West during the colonial period How do Europeans and Americans conceive of Africa in today s postcolonial era Such questions have preoccupied anthropologists historians and literary scholars for years But few have asked the reverse how did and do Africans see Europe and the United States Fewer still have wondered how Western images of Africa and African representations of the West might mirror one another In a detailed study spanning from the late nineteenth century to the present renowned anthropologist and ethnomusicologist Veit Erlmann examines the very creation of a global imagination for black South Africans Europeans and African Americans To this end he explores two striking episodes in the history of black South African music The first is a pair of tours made by two black South African choirs in England and America in the early 1890s the second is a series of engagements with the international music industry as experienced by the premier choral group Ladysmith Black Mambazo after the release of Paul Simon s celebrated Graceland album in 1986 Readers will find the cast of characters involved in these intertwined and international dramas at once telling and impressive Among the many players are African National Congress co founder Saul Msane Queen Victoria African American musician and impresario

Orpheus McAdoo Xhosa Christian prophet Ntsikana W E B Du Bois Michael Jackson and Spike Lee Music Modernity and the Global Imagination tells the story of how these artists activists and agents effectively invented each other in travel diaries religious hymns concert performances music videos Broadway plays and autobiographies Erlmann also argues that the resultant mixture of myths and fictions as distinctly imagined by these diverse historical actors entangled South Africa and the West in ways that often obscured the newly emergent global imbalances of power or else blurred the polarities of the colonial and postcolonial world Ultimately this book reports on a transatlantic dialogue that carries direct and profound implications for the world s arts and cultures It is the black diasporic discussion between South Africa and the West and it is a conversation about society music and Utopia that is still in progress

The Socialist Sixties Anne E. Gorsuch, Diane P. Koenker, 2021-12-22 A very engaging collection of essays that adds much to an evolving literature on the social history of the Soviet Union and broader socialist societies Choice The 1960s have reemerged in scholarly and popular culture as a protean moment of cultural revolution and social transformation In this volume socialist societies in the Second World the Soviet Union East European countries and Cuba are the springboard for exploring global interconnections and cultural cross pollination between communist and capitalist countries and within the communist world Themes explored include flows of people and media the emergence of a flourishing youth culture sharing of songs films and personal experiences through tourism and international festivals and the rise of a socialist consumer culture and an esthetics of modernity Challenging traditional categories of analysis and periodization this book brings the sixties problematic to Soviet studies while introducing the socialist experience into scholarly conversations traditionally dominated by First World perspectives

The Spirit of the Sixties James J. Farrell, 2013-10-18 The Spirit of the Sixties explains how and why the personal became political when Sixties activists confronted the institutions of American postwar culture The Spirit of the Sixties uses political personalism to explain how and why the personal became political when Sixties activists confronted the institutions of American postwar culture After establishing its origins in the Catholic Worker movement the Beat generation the civil rights movement and Ban the Bomb

protests James Farrell demonstrates the impact of personalism on Sixties radicalism Students antiwar activists and counterculturalists all used personalist perspectives in the here and now revolution of the decade These perspectives also persisted in American politics after the Sixties Exploring the Sixties not just as history but as current affairs Farrell revisits the perennial questions of human purpose and cultural practice contested in the decade **Africanizing Knowledge** Toyin Falola, 2017-11-30 Nearly four decades ago Terence Ranger questioned to what extent African history was actually African and whether methods and concerns derived from Western historiography were really sufficient tools for researching and narrating African history Despite a blossoming and branching out of Africanist scholarship in the last twenty years that question is still haunting The most prestigious locations for production of African studies are outside Africa itself and scholars still seek a solution to this paradox They agree that the ideal solution would be a flowering of institutions of higher learning within Africa which would draw not only Africanist scholars but also financial resources to the continent While the focus of this volume is on historical knowledge the effort to make African scholarship more African is fundamentally interdisciplinary The essays in this volume employ several innovative methods in an effort to study Africa on its own terms The book is divided into four parts Part 1 Africanizing African History offers several diverse methods for bringing distinctly African modes of historical discourse to the foreground in academic historical research Part 2 African Creative Expression in Context presents case studies of African art literature music and poetry It attempts to strip away the exotic or primitivist aura such topics often accumulate when presented in a foreign setting in order to illuminate the social historical and aesthetic contexts in which these works of art were originally produced Part 3 Writing about Colonialism demonstrates that the study of imperialism in Africa remains a springboard for innovative work which takes familiar ideas about Africa and considers them within new contexts Part 4 Scholars and Their Work critically examines the process of African studies itself including the roles of scholars in the production of knowledge about Africa This timely and thoughtful volume will be of interest to African studies scholars and students who are concerned about the ways in which Africanist scholarship might become more African **Folksinger's Wordbook** Oak Publications, 1973-01-01 A first rate collection of words to more than
