The Ingenuity Gap:

The Ingenuity Gap Thomas Homer-Dixon, 2001-05-15 Human beings have been smart enough to turn nature to their ends generate vast wealth for themselves and double their average life span But are they smart enough to solve the problems of the 21st century Thomas Homer Dixon In The Ingenuity Gap Thomas Homer Dixon global guru the Toronto Star asks is our world becoming too complex too fast paced to manage The challenges facing us converge intertwine and remain largely beyond our ken Most of suspect the experts don't really know what's going on that as a species we've released forces that are neither managed nor manageable We are fast approaching a time when we may no longer be able to control a world that increasingly exceeds our grasp This is the ingenuity gap the term coined by Thomas Homer Dixon the critical gap between our need for practical innovative ideas to solve complex problems and our actual supply of those ideas Through gripping narrative stories and incidents that exemplify his arguments he takes us on a world tour that begins with a heartstopping description of the tragic crash of United Airlines Flight 232 from Denver to Chicago and includes Las Vegas in its desert a wilderness beach in British Columbia and his solitary search for a little girl in Patna India He shows how in our complex world while poor countries are particularly vulnerable to ingenuity gaps our own rich countries are not immune and we are caught between a requirement for ingenuity and an increasingly uncertain supply When the gap widens political disintegration and violent upheaval can result reaching into our own economies and daily lives in subtle ways In compelling lucid prose he makes real the problems we face and suggests how we might overcome them *The Ingenuity Gap* Maren Leed, 2010 American officers are the bedrock of military success They face a whirlwind of change that is picking up speed yet their preparation is dictated by a system based on stability and predictability that if they ever existed certainly do not exist today Others have identified many of the same problems and have offered some of the same solutions explored in much greater depth than we were able to accomplish here Yet strikingly few changes have been made This reluctance primarily cultural and institutional cannot persist Failing to adapt the officer management system to better align with the future will put U S officers at a growing disadvantage placing more and more of a burden upon them as individuals to overcome a bureaucracy that ideally would be dedicated to supporting their success The ingenuity gap is real and growing and our officers are caught in it DOD should immediately implement changes to officer management to close this gap The Ingenuity Gap Thomas Homer-Dixon, 2002-08-13 Despite all of society's advances our problems proliferate Wars abound environmental degradation accelerates economies topple overnight and pandemics such as AIDS and tuberculosis continue to spread The Internet and other media help to disseminate knowledge but they've also created an info glut and left us too little time to process it What's more advances in technology have made the world so bewilderingly fast paced and complex that fewer people are able even to grasp the problems let alone generate solutions That space between the problems that arise and our ability to solve them is the ingenuity gap and as we careen towards an increasingly harried and hectic future the gap

seems only to widen As he explores the possible consequences of this gap Thomas Homer Dixon offers an absorbing assessment of the state of the world and our ability to fix it Culling from an astounding array of fields from economics to evolution political science to paleontology computers to communications he integrates his vast knowledge into an accessible and engaging argument This is a book with profound implications for everyone that we can ill afford to ignore *The Ingenuity Gap* Thomas F. Homer-Dixon, 2002

Prologue and Chapter 1 Careening Into the Future: The Ingenuity Gap Thomas Homer-Dixon, *Hurry Up and Slow Down* Paul Faris, 2003 To explore the idea of education to close the ingenuity gap I use Thomas Homer Dixon s work to define ingenuity The notion that the supply of ingenuity to solve our technical and social problems is not keeping pace with the ingenuity required to solve those problems is called the ingenuity gap Man made technological developments are increasing the density intensity and pace of globalisation People must reorganise decision making organisations and problem solving methods to pragmatically combat the growing ingenuity gap John Dewey s work illustrates the fundamental attitudes for the thinking and judgment associated with educating for ingenuity Howard Gardner s idea that truth beauty and morality ought to form the core values and tenets of the philosophy of educating for ingenuity is integral to this thesis The act of teaching facilitates the invitation to the communication necessary to foster ingenuity John Novak discusses the five relationships of educational leadership that enhance an environment of ingenuity The International Baccalaureate IB is an existing model of global education one that defines some of the school experiences and academic development of core values of educating for ingenuity Expanding upon the structure of the IB and other research within this thesis I speculate upon what my school where educating for ingenuity so as to close the ingenuity gap is the goal would be like *The Ingenuity Gap* Maren Leed, 2010-01-19 American officers are the bedrock of military success They face a whirlwind of change that is picking up speed yet their preparation is dictated by a system based on stability and predictability that if they ever existed certainly do not exist today Others have identified many of the same problems and have offered some of the same solutions explored in much greater depth than we were able to accomplish here Yet strikingly few changes have been made This reluctance primarily cultural and institutional cannot persist Failing to adapt the officer management system to better align with the future will put U S officers at a growing disadvantage placing more and more of a burden upon them as individuals to overcome a bureaucracy that ideally would be dedicated to supporting their success The ingenuity gap is real and growing and our officers are caught in it DOD should immediately implement changes to officer management to close this gap Water Management in Megacities Cecilia Tortajada, Olli Varis, Asit K. Biswas, Jan Lundqvist, 2013-09-13 Efficient and equitable water wastewater and stormwater management for the megacities is becoming an increasingly complex task The special issue will focus on water management in its totality for megacities including their technical social economic legal institutional and environmental dimensions through a series of specially invited case studies from different megacities of the world At present around one out of two of the earth s 6.3 billion people

live in urban areas Each year the world population grows by around 80 millions Practically all of this growth is urban primarily due to migration World s urban population is expected to reach 5 billion by 2030 which is nearly 2 3rd more than in 2000 and would mean that 60% of world s population will live in urban areas The case studies analysed include some of the most interesting and challenging megacities of this planet Dhaka Istanbul Jakarta Johannesburg M xico City Riyadh and S o Paulo They assess different aspects of how water is intermingled in the overall development milleau The special issue will considers the magnitudes nature and extent of the present and future challenges and how these could be meet in socially acceptable and cost effective ways The contributors are all acknowledged water experts from different parts of the world This book was previously published as a special issue of the International Journal of Water Resource s Development

Ecoviolence Thomas F. Homer-Dixon, Jessica Blitt, 1998 Ecoviolence explores links between environmental scarcities of key renewable resources such as cropland fresh water and forests and violent rebellions insurgencies and ethnic clashes in developing countries Detailed contemporary studies of civil violence in Chiapas Gaza South Africa Pakistan and Rwanda show how environmental scarcity has played a limited to significant role in causing social instability in each of these contexts Visit our website for sample chapters *Food and Fuel*, 2009-02-15 The twenty first century has been dominated by two major global crises a scarcity of food and fuel Both have had detrimental effects on the environment and both are at the root of the fragile health of the global economy Combining the best of the critically acclaimed Fuelling the Future and Feeding the Future this timely and provocative collection of essays from leading thinkers such as Thomas Homer Dixon Gordon Laird Jeremy Rifkin Frances Moore Lappe and Anna Lappe offers valuable strategies to combat global famine and fast food fat business models for sustainable food production and power sources and descriptions of emerging technologies and sciences

The Defiant Imagination Max Wyman, 2009-12-01 From the late 60s to the late 90s Max Wyman was by turns the Vancouver Sun s dance critic music critic drama critic arts columnist and book review editor Since retiring he has represented Canada on a UNESCO cultural policy commission The Defiant Imagination is his impassioned plea to keep culture at the heart of the Canadian experiment *Climate Change, Adaptive Capacity and Development* Joel B. Smith, Saleemul Huq, Richard J. T. Klein, 2003 The Third Assessment Report of the Intergovernmental Panel on Climate Change IPCC has presented strong evidence that human induced climate change is occurring and that all countries of the world will be affected and need to adapt to impacts The IPCC points out that many developing countries are particularly vulnerable because of their relatively low adaptive capacity **Reproductive Health and Gender Equality** Guang-zhen Wang, 2016-04-08 Since the late 1990s approaches to women s reproductive health has shifted from a service based model to a human rights approach This approach associates reproductive health with freedom from discrimination and enjoyment of a satisfying and safe sex life and full access to information and services related to reproduction In spite of this shift and the global effort to promote women s reproductive health through the enhancement of human rights and gender equality

progress has been very slow In this book the author fills a much needed empirical study of women s reproductive health The author assesses data from 137 developing countries or areas and challenges the prevailing bioscience and public health models by linking women s reproductive health to gender equality measures and development policies Discussion on abortion rights regional variations and reproductive health needs among refugees and internally displaced persons are also discussed This is a timely study which provides a theoretical and social policy basis for monitoring and improving women s reproductive health in developing countries This is particularly important in the light of insufficient research in the field and a lack of analysis on the empirical and theoretical linkages between reproductive health and gender equality The book will be of interest to researchers professionals and students interested in women s health issues gender women s studies and human rights

The "Big Three's" Takeover of Sport EARLE F. ZEIGLER Ph.D. LL.D. D.Sc.,2011-06-10 In the *The BigThrees Takeover of Sport* Dr Zeigler argues that such a take over of competitive sport by capitalism nationalism and democracy has become a very serious problem that gradually became a crisis as the twentieth century wore on The main purpose of this bookto show that the commandeering or take over of sport by the conglomerate of three enumeratedhas created a situation where competitive sport has been increasingly degraded to a destructive professional morality espousing a mentality that screams Winning is now not the most important thing in sport it is the only thing If indeed such is the case this means that we must move now to assess the evolving situation more carefully than ever before *Through the Eyes of a Concerned Liberal* Earle F. Zeigler,2004 A self help book to assist the reader confront the 21st Century by determination of 1 philosophy of life and or religion 2 position on a socio political spectrum 3 individual recreation RQ and 4 rationale for finding a life purpose

The American Crisis in Physical Activity Education F. Zeigler Earle F. Zeigler,Earle F. Zeigler,2010 The American Crisis in Physical Activity Education was written because the author is terribly upset about what is happening to physical activity education and so called educational sport within the education system He lives in North America as a dual citizen and he feels sad that we appear to be a large part of the world s problem He thought that the world would be a better place for all people by the year 2000 Because now it definitely doesn t seem to be heading in that direction he is forced to conclude 1 that in many ways we are confused about what our values are at the present 2 that we need to reconsider them and then re state exactly what we believe they are in light of the changing times and 3 finally that we will then need to assess more carefully on a regular basis whether we are living up to those values we have chosen and so often glibly espouse Physical activity education including what is called educational sport is a field that in the 21st century is facing one more crossroad in its torturous historical development

Digital Bridges: Developing Countries in the Knowledge Economy Afele, John, 2002-07-01

Globalization and global equity are built on the premise of peace. The causes of many divisions and tensions in human communities lie in the imagined or real gain of financial or material assets of some elements of the community to be at the expense of others. The global community however lacks clear definitions and methods of stability whether political, economic or social. Digital Bridges: Developing Countries in the Knowledge Economy provides insight into the methods and theories behind the globalization of information technologies.
