In the background, there are lush green trees and a stone pillar. A small black lantern is visible on the balcony floor.

The Fullness of the Logos in the Key of Life Anna-Teresa Tymieniecka, 2009-03-08 Lamentations over the disarray and disorientation in the philosophical quest may be heard from all sides today The horizon of the All no longer beacons for our hope of attaining it seems ever to recede Yet challenging the mistrust of reason that pursuit is precisely engaged in what is undertaken here Our forty year elaboration of the onto-poiesis phenomenology of life as first philosophy phenomenology in its unravelling of the metamorphic deployment of the logos of life has laid the foundations for the retrieval of the metaphysical vision Here the classic concerns of philosophy are not negligently dismissed but are ciphered afresh in the light of innumerable perspectives and insights brought to philosophical attention in a New Enlightenment by advances in the sciences of life and of human apprehension Strikingly enough pursuit of the greatest enigma of all namely that of the All enhancing Divine is revived in the revelation that the logos informing life is the Fullness of God In the Fullness being revealed in the infinite intricacies of the operations of the Logos of Life we find the plenitude of God's experiencing man In times when the prevailing critique of reason casts aspersions on the quest for God through reason the full revelation of the logos brings to the entire human experience the infinities of God Experiential Anatomy Leila Stuart, 2024-07-18 An

Eye hEar The Visual in Music Simon Shaw-Miller, 2017-07-05 Eye hEar The Visual in Music employs the concept of the visual in proximate relation to music producing a tension is it not the case that there is a gulf between painting and music between the visible and the audible One is full of colour and light yet silent one is invisible and marvellously noisy Such a belief this book argues betrays an ideological constraint on music desiccating it to sound and art to vision The starting point of this study is more hybrid and hydrating that music is never employed without numerous and complex intersections with the visual By involving the concept of synaesthesia the book evokes music's multi sensory nature stops it from sounding alone and offers music as a subject for art historians Music bleeds into art and visuality in its graphic depiction in notation in the theatre of performance its sights and sites This book looks at music in its absolute guise as a model for art at notation and the conductor as the silent visual fulcrum around which music circulates at the music and image of Erik Satie at the concert hall as white cube at the symphonic film 2001 A Space Odyssey and at the liminality of John Cage and Andy Warhol

Sustainability and the Humanities

Walter Leal Filho, Adriana Consorte McCrea, 2018-08-22 This book explores the strong links between sustainability and the humanities which go beyond the inclusion of social sciences in discussions on sustainability and offers a holistic discussion on the intellectual and moral aspects of sustainable development. The contributions from researchers in the fields of education, social sciences, religion, humanities and sustainable development fulfill three main aims. They provide university lecturers interested in humanities and sustainable development with an opportunity to present their work, foster the exchange of information, ideas and experiences acquired in the execution of teaching and research and discuss methodological approaches and projects that provide a better understanding of how the humanities can contribute to the debate on sustainable development. Prepared by the Inter University Sustainable Development Research Programme and the World Sustainable Development Research and Transfer Centre, the book reiterates the need to promote integrated approaches to sustainable development. Including practice-based lessons learnt that can be replicated further, it is a valuable resource for scientists and practitioners working in the humanities and sustainable development.

A Sufi-Jewish Dialogue Diana Lobel, 2013-03-01 Written in Judeo Arabic in eleventh century Muslim Spain but quickly translated into Hebrew, Bahya Ibn Paquda's *Duties of the Heart* is a profound guidebook of Jewish spirituality that has enjoyed tremendous popularity and influence to the present day. Readers who know the book primarily in its Hebrew version have likely lost sight of the work's original Arabic context and its immersion in Islamic mystical literature. In *A Sufi Jewish Dialogue*, Diana Lobel explores the full extent to which *Duties of the Heart* marks the flowering of the Jewish Arab symbiosis, the interpenetration of Islamic and Jewish civilizations. Lobel reveals Bahya as a maverick who integrates abstract negative theology, devotion to the inner life and an intimate relationship with a personal God. Bahya emerges from her analysis as a figure so steeped in Islamic traditions that an Arabic reader could easily think he was a Muslim, yet the traditional Jewish seeker has always looked to him as a fountainhead of Jewish devotion. Indeed, Bahya represents a genuine bridge between religious cultures. He brings together as well a rationalist philosophical approach and a strain of Sufi mysticism, paving the way for the integration of philosophy and spirituality in the thought of Moses Maimonides. *A Sufi Jewish Dialogue* is the first scholarly book in English about a tremendously influential work of medieval Jewish thought and will be of interest to readers working in comparative literature, philosophy and religious studies, particularly as reflected in the interplay of the civilizations of the Middle East. Readers will discover an extraordinary time when Jewish, Christian and Islamic thinkers participated in a common spiritual quest across traditions and cultural boundaries.

With Roots and Wings Jay B. McDaniel, 2009-06-26 In *With Roots* to be open to the insights of people of other faiths as well as to share our own and to become centered on God, McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ, where they complement and where they supplement one another. *With Roots Wings* shows how to experience both green grace that comes from opening one's self to the rhythms of the cosmos and red grace symbolized in the crucifixion of Christ, both of which are vital to a

Christian ecological spirituality and praxis Most impressive is McDaniel s ability to absorb and reflect important lessons Christians can learn from Native Americans from Buddhists and Hindus from Muslims and Jews The complexity of the issues he addresses and his ability to explain them simply and clearly makes With Roots and Wings must reading for the general reader as well as ecological activists clergy and laity alike Nothing else comes near it in depth power and insight
