and often disturbing story about shifts in thought about consciousness and the individual person from the first public waxworks portraits at the end of the eighteenth century to stories of hauntings possession and loss of self in modern times She probes the perceived distinctions between fantasy and deception and uncovers a host of spirit forms angels ghosts fairies revenants and zombies that are still actively present in contemporary culture **Structure** Wendy Pullan,Harshad Bhadeshia,2000-10-12 Bridges and buildings DNA the periodic table flora and fauna machines circuits human beings and the societies of which they are part even thoughts and ideas all can be understood as particular structures which are part of our world and our experience of it Yet the notion of structure whether organic or inorganic natural or artificial is far more intangible Too often the implication is of something rigid and complete yet structure and the process of structuring can be both open and dynamic These eight essays consider structure as an inclusive open ended theme offering itself to interpretation within many disciplines of the sciences arts and humanities Each essay represents an attempt to ponder and assess the role of structure in a particular discipline by an author eminent in that field In doing so the essays become acts of structuring structure true to the rich dynamic nature of the topic *The Melancholy Android* Eric G. Death, Memory and Material Culture Elizabeth Hallam,Jenny Hockey,2020-05-26 How do the living maintain ongoing relationships with the dead in Western societies How have the residual belongings of the dead been used to evoke memories Why has the body and its material environment remained so important in memory making Objects images practices and places remind us of the deaths of others and of our own mortality At the time of death embodied persons disappear from view their relationships with others come under threat and their influence may cease Emotionally socially politically much is at stake at the time of death In this context memories and memory making can be highly charged and often provide the dead with a social presence amongst the living Memories of the dead are a bulwark against the terror of forgetting as well as an inescapable outcome of a life s ending Objects in attics gardens museums streets and cemeteries can tell us much about the processes of remembering This unusual and absorbing book develops perspectives in anthropology and cultural history to reveal the importance of material objects in experiences of grief mourning and memorializing Far from being invisible the authors show how past generations dead friends and lovers remain manifest through well worn garments letters photographs flowers residual drops of perfume funerary sculpture Tracing the rituals gestures and materials that have been used to shape

and preserve memories of personal loss Hallam and Hockey show how material culture provides the deceased with a powerful presence within the here and now **Gothic television** Helen Wheatley,2017-06-01 Gothic television is the first full length study of the Gothic released on British and US television An historical account the book combines detailed archival research with analyses of key programmes from Mystery and Imagination and Dark Shadows to The Woman in White and Twin Peaks and uncovers an aspect of television drama history which has until now remained critically unexplored While some have seen television as too literal or homely a medium to successfully present Gothic fictions Gothic television argues that the genre in its many guises is and has always been well suited to television as a domestic medium given the genre s obsessions with haunted houses and troubled families This book will be of interest to lecturers and students across a number of disciplines including television studies Gothic studies and adaptation studies as well as to the general reader with an interest in the Gothic and in the history of television drama **The Arts Therapies** Phil Jones,2020-07-28 The separate arts

Marina Warner Laurence Coupe,2006 This is the first full length study of Marina Warner s work *Old Fields* John R. Stilgoe,2014-03-04 Glamour subverts convention Models images and even landscapes can skew ordinary ways of seeing when viewed through the lens of photography suggesting new worlds imbued with fantasy mystery sexuality and tension In Old Fields John Stilgoe one of the most original observers of his time offers a poetic and controversial exploration of the generations long effort to portray glamour Fusing three forces in contemporary American culture amateur photography after 1880 the rise of glamour and fantasy and the often mysterious quality of landscape photographs Stilgoe provides a wide ranging yet concentrated take on the cultural legacy of our photographic history Through the medium of shop theory the techniques tools and purpose made equipment a maker uses to realize intent Stilgoe looks at the role of Eastman Kodak in shaping the ways photographers purchased cameras and films while also mapping the divisions that were created by

European made cameras He then goes on to argue that with the proliferation of digital cameras smart phones and Instagram young people s lack of knowledge about photographic technique is in direct correlation to their lack of knowledge of the history of glamour photography In his exploration of the rise of glamour and fantasy in contemporary American culture Stilgoe offers a provocative and very personal look into his enduring fascination with and the possibilities inherent in creating one s own images

Fantastic Metamorphoses, Other Worlds Marina Warner,2004-02-05 Metamorphosis is a dynamic principle of creation vital to natural processes of generation and evolution growth and decay yet it also threatens personal identity if human beings are subject to a continual process of bodily transformation Shape shifting also belongs in the landscape of magic witchcraft and wonder and enlivens classical mythology early modern fairy tales and uncanny fictions of the nineteenth and twentieth centuries This collection of essays given as the Clarendon Lectures in English 2001 takes four dominant processes of metamorphosis Mutating Hatching Splitting and Doubling and explores their metaphorical power in the evocation of human personality Marina Warner traces this story against a background of historical encounters with different cultures especially with the Caribbean Beginning with Ovid s great poem The Metamorphoses as the founding text of the metamorphic tradition she takes us on a journey of exploration into the fantastic art of Hieronymous Bosch the legends of the Taino people the life cycle of the butterfly the myth of Leda and the Swan the genealogy of the Zombie the pantomime of Aladdin the haunting of doppelgangers the coming of

photography and the late fiction of Lewis Carroll *The Ekphrastic Encounter in Contemporary British Poetry and Elsewhere* David Kennedy, 2016-03-23 Examining a wide range of ekphrastic poems David Kennedy argues that contemporary British poets writing out of both mainstream and avant garde traditions challenge established critical models of ekphrasis with work that is more complex than representational or counter representational responses to paintings in museums and galleries Even when the poem appears to be straightforwardly representational it is often selectively so producing a virtual work that doesn't exist in actuality Poets such as Kelvin Corcoran Peter Hughes and Gillian Clarke Kennedy suggests relish the ekphrastic encounter as one in which word and image become mutually destabilizing Similarly other poets engage with the source artwork as a performance that participates in the ethical realm Showing that the ethical turn in ekphrastic poetry is often powerfully gendered Kennedy also surveys a range of ekphrastic poets from the Renaissance and nineteenth century to trace a tradition of female ekphrastic poetry that includes Pauline Stainer and Frances Presley Kennedy concludes with a critique of ekphrastic exercises in creative writing teaching proposing that ekphrastic writing that takes greater account of performance spectatorship may offer more fruitful models for the classroom than the narrativizing of images **A**
