Ethics and Human Values in Medical Sciences Niru Hazarika, 2016-01-01 The book is an attempt to understand the state of ethics and human values in the medical services with the perspective of Indian culture and traditions The process of dehumanization of the old well established Indian society based on human culture must be prevented and we expect a good beginning will be made by the medical professionals of the country very soon through realization of the deep rooted harm caused by it to the nation Efforts must be made for emergence of genuine commitment to the service to humanity The moral foundation of any public service organization in a democracy requires that administrators and public officials to show a genuine care for their fellow citizens The book is trying to underline ethical aspects of major religions of India Gandhi s ideas social culture in ancient India contribution of India towards development of medical science and technology to highlight the state of human culture in the medical sciences

A Human Values Pathway for Teachers Suma Parahakaran, Stephen Scherer, 2021-03-19 This book combines perspectives from psychology spiritual education and digital teaching pedagogies in a transnational framework to discuss the Education in Human Values Program EHV for child development with a focus on silent sitting mindfulness meditation and story telling as tools in the classroom Through positive guidance in the early stages of child development using EHV tools teachers will be better equipped to handle disciplinary

issues in primary and secondary schools These practices are also useful for the higher education community as teachers and educators from tertiary institutions may adopt these practices in their teaching and become reflective practitioners Topics such as teacher morale and school climate and its impact on children are discussed in relation to building resilience reflective capacities and inner strength shared values using an intrinsic and transformational approach The discussions also include perspectives from the neurosciences With contributions from teachers and educators from the US South Africa Malaysia Australia Hong Kong and Mauritius this edited volume addresses the challenges strengths and weaknesses associated with daily teaching practices in primary and secondary schools and higher education institutions The content is relevant to policymakers and researchers in child development studies with a particular focus on the impact of silent sitting mindful practices and meditation on children s self regulation and resilience The authors collectively espouse that silent sitting techniques can help a child to grow and discover their hidden potential thus enhancing their social emotional spiritual and physical capacities

Human Values and Ethics in the Workplace Glenn Martin, 2011-02-18 This book presents a framework for understanding human values and their role in life work business and leadership It offers an explanation for the spectrum of human behaviour from a self focused survivalist mindset that has scant regard for ethics through to compliance with laws and conventions and then to the aspiration to live a higher ethical and spiritual life The book offers a practical guide on how to develop a more ethical way of working and being both personally and in organisations Rather than being an additional burden on people or organisations ethics and values are a liberating force enabling higher performance better quality relationships and an expanded sense of purpose and identity

Culture and Human Values Jacob Abram Loewen, 1975 Christian Intervention in Anthropological Perspective Culture and Human Values explores the intricate relationship between culture and the values that shape human behavior and beliefs Drawing from real life encounters and ethnographic research Jacob Loewen delves into the profound influence of culture on individuals and communities examining how cultural values become the core of people s way of life Through captivating anecdotes and insightful analysis the book uncovers the significance of cultural universals in various societies It highlights the crucial role of values as the hub around which cultures revolve affecting every aspect of human existence From the impact of money in missionaries lives to the centrality of war for ancestral cultures the Loewen demonstrates how values shape perceptions actions and even spirituality Moreover the book underscores the importance of cultural awareness for effective cross cultural communication particularly in the context of missionary work It emphasizes the need for missionaries to comprehend and respect the values of the cultures they encounter as well as the reciprocal learning that takes place in such interactions By exploring these themes Culture and Human Values offers valuable insights into the complexities of culture and its profound influence on human behavior providing a compelling perspective on the intersection of culture values and communication

Values At The Core: How Human Values Contribute To The Rise Of Nations Thomas Grandjean, Chinhwee Tan, 2020-12-03 A thought provoking

book bringing readers outside their comfort zones It challenges us to think beyond the typical macro and microeconomic Read Full Review A TanFT readers best 2021 summer books Throughout the history of mankind the rise of societies whether civilizations nations or communities has been a story of human achievement From the rise of the Akkadian empire in ancient Mesopotamia to the re emergence of modern China people constitute the basic denominator upon which societies build their success The way people around the world think and behave is guided by a complex system of values These values constitute key factors in the way economies are structured and their potential for further growth To a large extent they explain why Japan has gone through multiple lost decades why Nordic countries accept the highest tax rates in the world making their societies much more equal why China has such a large trade surplus with the United States or why some nations become stuck in a middle income trap It is these values coupled with the right policies that ultimately determine the destiny of nations In this book we explore how the combination of human values and policies affects national economic outcomes We focus on certain key values conducive to growth are people of a given nation on average hardworking thrifty Do they trust each other Are they risk takers The harder people work the higher the growth potential Different savings patterns determine to a large extent whether a country will grow through investments and exports or consumption and have generated large global imbalances over time Trust goes a long way in explaining wealth and income inequalities and the role that governments can play in minimizing those inequalities Economies with highly risk averse citizens will stall We also identify policies which have the greatest impact on economies Political stability much more so than any form of governance is a precondition for growth Free markets imply a process of creative destruction free and fair competition and a level playing field among companies An educated workforce is a vital enabler of higher productivity and innovation Corruption can seriously derail growth once it becomes endemic Sound fiscal and monetary policies stabilize an economy as it goes through cycles and can greatly contribute to a more equal society and a more robust financial sector

The little book of ethics: A human values approach Glenn Martin, 2011 Ethics is a central part of our lives It is as basic and pervasive as thinking and feeling And it is not just what keeps us compliant with the law it is the gateway to the quality of our relationships and the spiritual fulfilment of our lives The Little Book of Ethics introduces us to ethics through the lens of values and offers us five core human values honesty peace right action love and insight It shows how these values are applied in different domains of our lives and relates them to six aims of human life where ethics is united with meaning and purpose

Social Psychology and Human Values Anselm L. Strauss, 2017-07-05 Reflecting the contributions of M Brewster Smith to social psychology and personality study this selection includes not only his best known essays but also previously unpublished material Professor Smith s consistent striving for a psychology both scientific and humane unifies the collection it is a valid and valuable overview of the relevance of social psychology to human experience and societal problems by a man at the midstream of his career An introductory essay traces the major themes in Professor Smith s work Part I discusses the interdisciplinary

relations of social psychology with other behavioral sciences it shows that social psychology standing at the crossroads of the social sciences must articulate its contributions with those of the other disciplines and it delineates the problems involved in this articulation Part II presents the author's principal contributions to the social psychology of attitudes and values a central topic in the field in which he is a major proponent of the functional approach Part III is devoted to the broader issues of personality theory focusing on the self as the object of personal attitudes and including a classic paper on the phenomenological approach Parts IV and V probe human effectiveness and mental health consider the social development of personal competence and examine from a social psychological perspective a variety of social problems foreign students and cross cultural education population growth ethnic prejudice and student protest The final group of essays deals with perennial human concerns the nature of rationality the ethics of behavioral research the psychology of literature and the problems of evil

Wealth, Energy, and Human Values Thomas P. Wallace, 2009 The degradation of the modern American culture including its 2008 financial and economic crisis and the modern rejuvenation of Asian cultures are best understood within the context of 4 000 years of human history Such are the consequences of the dynamics of cultural change responding to societal variables of wealth energy and human values This work provides a unique and formidable science based framework for civilization development that complements and enhances the work of preeminent historians and sociologists Accordingly the foundation for societal progress is placed on restrictive scientific definitions principles and concepts of energy and wealth consumption rather than solely on behavioral perspectives derived from empirical data and historical events Society's dynamic forces are linked to the cultural deterioration and collapse of Ancient Greece and Rome Imperial Spain and Great Britain Specific chapters are devoted to stagnation of Western civilization Asian and Islamic resurgence deterioration of the American culture and ecological degradation of North America's largest estuary the Chesapeake Bay collateral damage of socio economic profitability The characteristics of America's current cultural deterioration parallel those of previous great civilizations These include abuse of wealth and energy resources excessive individual and national debt lack of cultural civility discipline integrity and ethics unaffordable militarism escalating income and wealth disparities unresolved crises in health care and public education and stultifying cultural complexity and bureaucracy Themes include the underlying principles responsible for the eventual deterioration of all known civilizations the basis for the recurring sequential periodicity of civilization success and failure and the roles and significance of militarism and religion in civilization growth decay and rebirth Addressing these themes necessitates the integration of the academic disciplines of history sociology economics and science reflecting human nature and socioeconomic and political realities that fundamentally and continuously alter human values priorities and behavior thus creating human history
