Dreaming the Graphic Novel Paul Williams, 2020-01-17 Winner of the Best Book Award in Comics History from the Grand Comics Database Honorable Mention 2019 2020 Research Society for American Periodicals Book Prize The term graphic novel was first coined in 1964 but it wouldn't be broadly used until the 1980s when graphic novels such as Watchmen and Maus achieved commercial success and critical acclaim What happened in the intervening years after the graphic novel was conceptualized yet before it was widely recognized Dreaming the Graphic Novel examines how notions of the graphic novel began to coalesce in the 1970s a time of great change for American comics with declining sales of mainstream periodicals the arrival of specialty comics stores and at least initially a thriving underground comix scene Surveying the eclectic array of long comics narratives that emerged from this fertile period Paul Williams investigates many texts that have fallen out of graphic novel history As he demonstrates the question of what makes a text a graphic novel was the subject of fierce debate among fans creators and publishers inspiring arguments about the literariness of comics that are still taking place among scholars today Unearthing a treasure trove of fanzines adverts and unpublished letters Dreaming the Graphic Novel gives readers an exciting inside look at a pivotal moment in the art form's development *Conversations with James Thurber* James Thurber, 1989 In *Conversations with James Thurber* this remarkable man who has been called America's twentieth century Mark Twain and who was one of the great talkers of his time expresses his opinions on just about

everything and recounts stories and anecdotes about his life which provided the basis for much of his humor writing These entertaining interviews conducted by Arthur Miller Harvey Breit George Plimpton Arthur Gelb and others span twenty two years from 1939 1961 In them Thurber recalls his youth in Columbus Ohio his struggles as a student at Ohio State University and his days of literary and journalistic apprenticeship in Europe as a code clerk and newspaperman who had to recreate entire stories from a few words of coded copy provided by the wire service He tells too of his early days in New York City when he joined the staff of The New Yorker of the origins of his drawings of the pleasures that word games and mental puzzles gave him and of his increasing blindness and its effect on his work and his perception of the world As a man who like to express his opinions and to have an audience Thurber enjoyed interviews and rarely refused to grant them With the interview format he became so skilled that he perfected the interview monologue into a Thurberesque art form the oral equivalent of the autobiographical essay that he refined in his prose The Columbia Companion to the Twentieth-century American Short Story Blanche H. Gelfant, 2000 This resource provides information on a popular literary genre the 20th century American short story It contains articles on stories that share a particular theme and over 100 pieces on individual writers and their work There are also articles on promising new writers entering the scene Will Cuppy, American Satirist Wes D. Gehring, 2013-10-11 Back in the golden age of humor books late 1920s early 1950s when wits of the pantheon like Robert Benchley James Thurber and S J Perelman were producing their signature works there was another singular satirist who more than held his own with such fast company Will Cuppy 1884 1949 This factual funnyman s metier is dark comedy that flirts with nihilism His agenda is baldly stated in such classic Cuppy book titles as How to Be a Hermit 1929 How to Tell Your Friends from the Apes 1931 and The Decline and Fall of Practically Everybody 1950 This biography doubles as a critical study of a satirist whose shish kebabing of humanity was often done through the veiled anthropomorphic use of animals For a biographer Will Cuppy represents a treasure trove of possibilities He was a great humorist and most of his best work is still in print but until now he has never been the subject of a book length study His mesmerizingly complex and eccentric private life almost trumps the comic accomplishments of his public persona *Imprint*, 1962 **The Complete Idiot's Guide to American Literature** Laurie E. Rozakis, 1999 Looks at American authors from Washington Irving to John Updike and provides brief biographical sketches excerpts and summaries of major works and explanations of major literary movements

Literary Cultures and Twentieth-Century Childhoods Rachel Conrad, L. Brown Kennedy, 2020-09-12 This collection of essays offers innovative methodological and disciplinary approaches to the intersection of Anglophone literary cultures with children and childhoods across the twentieth century In two acts of re centering the volume focuses both on the multiplicity of childhoods and literary cultures and on child agency Looking at classic texts for young audiences and at less widely read and unpublished material across genres including poetry fiction historical fiction or biography picturebooks and children s television essays foreground the representation of child voices and subjectivities within texts explore challenges to received

notions of childhood and emphasize the role of child oriented texts in larger cultural and political projects Chapters frame themes of spectacle self and specularity across the twentieth century question tropes of childhood explore identity and displacement in narrating history and culture and elevate children as makers of literary culture A major intent of the volume is to approach literary culture not just as produced by adults for consumption by children but also as co created by young people through their actions as speakers artists readers and writers *The Parables in Q* Dieter Roth,2018-05-17 Few New Testament topics have been discussed as often and as intensely as Q the hypothesized second major source alongside the gospel of Mark for the gospels of Matthew and Luke and the parables And yet no monograph to date has been devoted to considering the parables in Q In addition to filling this gap in New Testament scholarship Dieter T Roth addresses the need to move scholarship on both Q and the parables forward along methodological and interpretive lines Roth considers Q not as a text behind Matthew and Luke that needs to be reconstructed but rather as an intertext between Matthew and Luke that offered plots characters and images in parables that were taken up by Matthew and Luke and utilized in their own respective texts In addition Roth draws on recent parables research in his examination of the 27 parables in Q two spoken by John the Baptist one by the Centurion and 24 by Jesus in order to consider their purpose and function in this early Christian text

Ecology and Literatures in English Françoise Besson,2018-12-14 In all latitudes writers hold out a mirror leading the reader to awareness by telling real or imaginary stories about people of good will who try to save what can be saved and about animals showing humans the way to follow Such tales argue that in spite of all destructions and tragedies if we are just aware of and connected to the real world around us to the blade of grass at our feet and the star above our heads there is hope in a reconciliation with the Earth This may start with the emergence or rather the return of a nonverbal language restoring the connection between human beings and the nonhuman world through a form of communication beyond verbalization Through a journey in Anglophone literature with examples taken from Aboriginal African American English Canadian and Indian works this book shows the role played by literature in the protection of the planet It argues that literature reveals the fundamental idea that everything is connected and that it is only when most people are aware of this connection that the world will change Exactly as a tree is connected with all the animal life in and around it texts show that nothing should be separated From Shakespeare s theatre to ecopoetics from travel writing to detective novels from children s books to novels all literary genres show that literature responds to the violence destroying lands men and nonhuman creatures whose voices can be heard through texts
