Laegreid, Shannon D. Smith, 2019-07-01 Mari Sandoz born on Mirage Flats south of Hay Springs Nebraska on May 11 1896 was the eldest daughter of Swiss immigrants She experienced firsthand the difficulties and pleasures of the family's remote plains existence and early on developed a strong desire to write Her keen eye for detail combined with meticulous research enabled her to become one of the most valued authorities of her time on the history of the plains and the culture of Native Americans *Women in the Writings of Mari Sandoz* is the first volume of the Sandoz Studies series a collection of thematically grouped essays that feature writing by and about Mari Sandoz and her work When Sandoz wrote about the women she knew and studied she did not shy away from drawing attention to the sacrifices hardships and disappointments they endured to forge a life in the harsh plains environment But she also wrote about moments of joy friendship and for some a connection to the land that encouraged them to carry on The scholarly essays and writings of Sandoz contained in this book help place her work into broader contexts enriching our understanding of her as an author and as a woman deeply connected to the Sandhills of Nebraska [Regionalists on the Left](#) Michael C. Steiner, 2015-02-02 Nothing is more anathema to a serious radical than regionalism Berkeley English professor Henry Nash Smith asserted in 1980 Although regionalism in the American West has often been characterized as an inherently conservative backward looking force regionalist impulses have in fact taken various forms throughout U S history The essays collected in *Regionalists on the Left* uncover the tradition of left leaning western regionalism during the 1930s and 1940s Editor Michael C Steiner has assembled a group of distinguished scholars who explore the lives and works of sixteen progressive western intellectuals authors and artists ranging from nationally prominent figures such as John Steinbeck and Carey McWilliams to equally influential though less well known figures such as Angie Debo and Amrico Paredes Although they never constituted a unified movement complete with manifestos or specific goals the thinkers and leaders examined in this volume raised voices of protest against racial

environmental and working class injustices during the Depression era that reverberate in the twenty first century Sharing a deep affection for their native and adopted places within the West these individuals felt a strong sense of avoidable and remediable wrong done to the land and the people who lived upon it motivating them to seek the root causes of social problems and demand change Regionalists on the Left shows also that this radical regionalism in the West often took urban working class and multicultural forms Other books have dealt with western regionalism in general but this volume is unique in its focus on left leaning regionalists including such lesser known writers as B A Botkin Carlos Bulosan Sanora Babb and Joe Jones Tracing the relationship between politics and place across the West Regionalists on the Left highlights a significant but neglected strain of western thought and expression *Nebraska: A Guide to the Cornhusker State* Federal Writers' Project,1939

Left in the West Gioia Woods,2018-12-17 In this edited collection Gioia Woods and her contributors bring together histories biographies close readings and theories about the literary and cultural Left in the American West as it is distinct from the more often theorized literary left in major eastern metropolitan centers Left in the West expands our understanding of what constitutes the literary left in the U S by including writers artists and movements not typically considered within the traditional context of the literary left In doing so it provides a new understanding of the region s place among global and political ideologies From the early 19th century to the present a remarkably complex and varied body of literary and cultural production has emerged out of progressive social movements While the literary left in the West shared many interests with other regional expressions labor class anti fascism and anti imperialism the influence of Manifest Destiny the distinct history of settler colonialism in western territories caused western leftists to develop concerns unique to the region Chapters in the volume provide an impressive range of analysis covering artists and movements from suffragist writers to bohemian Californian photographers from civil rights activists to popular folk musicians from Latinx memoirists to Native American experimental writers to name just a few The unique consideration of the West as a socio political region establishes a framework for political critique that moves beyond class consequences anti fascism and civil liberties and into distinct Western concerns such as Native American sovereignty environmental exploitation and the legacies of settler colonialism What emerges is a deeper understanding of the region and its unique people places and concerns

The Nature of the Place Diane Dufva Quantic,1995-06-01 The Great Plains has long been fertile ground for literature The Nature of the Place is a comprehensive study of novels and stories by such Plains writers as Willa Cather Wright Morris Mari Sandoz Laura Ingalls Wilder Frederick Manfred Wallace Stegner and Bess Streeter Aldrich Throughout Diane Dufva Quantic is aware of the region s collective social and cultural history aware of the immensely fruitful clash between that complex history and Plains myth such as Garden of the World and Great American Desert In the vast and changeable Great Plains as Wright Morris once remarked Many things would come to pass but the nature of the place would remain a matter of opinion
