Beyond Lion Rock Gavin Young, 2012-04-26 In 1946 Roy Farrell and Syd de Kantzow's beloved battered wartime DC-3 touched down in Shanghai for the first time On board was a cargo of morning coats and toothbrushes from New York forging the first post-war supply route across the treacherous eastern Himalayas The international airline now known as Cathay Pacific was born Gavin Young tells the swashbuckling story of an empire of the air a thrilling action-packed adventure that began in an era closer to Biggles and biplanes held together by wire and safety pins than to our own Pioneers like Farrell and de Kantzow would have had plenty of time to enjoy the dawn over Kangchebjunga Would they think of us with envy or contempt cruising seven miles up with hundreds of passengers air conditioning in-flight concerts movies hot four-course meals with an elaborate wine list and all mod cons All this in forty years Could the world have changed so much and so fast This is Gavin Young himself eloquently reflecting on the extraordinary changes in air travel There can be little doubt where his own sympathies lie

Milky Way Repo Michael Prelee, 2015-11-25 Blue-collar Sci-Fi in the vein of *Firefly* Running a starship repo company isn't easy or cheap It's just an endless string of fuel costs ship maintenance legal red tape unhappy debt bailers shady associates and uncooperative dock officials from one end of the galaxy to the other Nathan Teller owns and operates Milky Way Repossessions a company that tracks down and repossesses starships And although he's only

managing to break even on his debt he wouldn't trade it for anything His ex wife holds that against him No surprise there When Nathan and his crew successfully steal a freighter from the clutches of a particularly tenacious and corrupt dock official he earns the respect of their high profile employer Opportunity seems a sure thing Nathan should be happy But when that lucrative job op turns into a ransom delivery for a starship crew being held hostage by a cult he suddenly finds himself pursued by a self immolating loan shark hell bent on collecting a gambling debt How will it all turn out You never know Especially when Nathan and his Starship repo agents are up against a cult and the mob I think Milky Way Repo carves out a unique niche in science fiction by presenting protagonists that work hard for a living sort of a genre of blue collar sci fi The world is bigger than them and there isn't a large fascist government operating against them In this case the characters struggle to make ends meet and do so against forces that are relatable the economy employers that hold sway over workers religious elements and organized crime figures that move in the shadows Michael Prelee author
