Small Savings Mobilization And Asian Economic Development The Role Of Postal Financial Services:

Small Savings Mobilization and Asian Economic Development Naoyuki Yoshino, 2004 Postal savings systems in Asian developing countries play a significant role in social and economic development In many of these countries and others around the world postal savings and giro remittances are the only means of providing financial services to all segments of the population particularly women rural communities and the urban poor Postal savings in many countries also account for the largest share of individual and household savings among competing institutions This book examines the postal financial systems of some twenty countries visited by the author and also includes case studies by expert author from different developing nations Among the topics covered are savings product development investing mobilized funds receiving overseas remittances and utilizing financial technology Small Savings Mobilization and Asian Economic Development , 2004

Small Savings Mobilization and Asian Economic Development Mark J. Scher, Naoyuki Yoshino, 2015-06-11 Postal savings systems in Asian developing countries play a significant role in social and economic development In many of these countries and others around the world postal savings and giro remittances are the only means of providing financial services to all segments of the population particularly women rural communities and the urban poor Postal savings in many countries also hold the largest share of individual and household savings among competing institutions This book examines the postal financial systems of some twenty countries visited by the author and also includes case studies by expert authors from different developing nations Among the topics covered are savings product development investing mobilized funds receiving overseas remittances and utilizing financial technology *The People's Post Office* Patricia L. Maclachlan, 2020-03-17 In 2001 Prime Minister Koizumi Jun ichir launched a crusade to privatize Japan's postal services The plan was hailed as a necessary structural reform but many bemoaned the loss of traditional institutions and the conservative values they represented Few expected the plan to succeed given the staunch opposition of diverse parties but four years later it appeared that Koizumi had transformed not only the post office but also the very institutional and ideological foundations of Japanese finance and politics By all accounts it was one of the most astonishing political achievements in postwar Japanese history Patricia L Maclachlan analyzes the interplay among the institutions interest groups and leaders involved in the system's evolution from the early Meiji period until 2010 Exploring the postal system's remarkable range of economic social and cultural functions and its institutional relationship to the Japanese state this study shows how the post office came to play a leading role in the country's political development It also looks into the future to assess the resilience of Koizumi's reforms and consider the significance of lingering opposition to the privatization of one of Japan's most enduring social and political sanctuaries East Asian Development Model Shiping Hua, Ruihua Hu, 2014-12-17 Given the impressive growth in East Asia after World War II initially led by Japan the region's development models have been scrutinized since the 1980s The shared Confucian cultural heritage strong government guidance and export led economies were often cited as

contributors to the impressive growth. However, major changes have taken place in Asia on and around the turn of the century. Japan experienced two decades of economic slow down while World Bank figures reveal that China is poised to become the largest economy in the world in 2014, overtaking the United States. Bearing this in mind, is it even possible to formulate an East Asian development model in the context of a shifting twenty-first century? And if so, what is it? This book addresses this issue by looking at the economic, political, and cultural perspectives of China, Japan, and South Korea, focusing on dynamism and potential consensus regarding an East Asian development model. The chapters offer a historical background to the East Asian development model as well as in-depth case studies of each of the countries concerned to show that whilst the East Asian development model does have distinct characteristics as compared with other areas, and other countries may draw some insights from the East Asian experience, it is not a panacea that fits all circumstances and fits all times. This book will be welcomed by students and scholars of Asian economics, Asian politics, international political economy, and development studies.

Alternative Banking and Financial Crisis Kurt von Mettenheim, Olivier Butzbach, 2015-10-06 The recent banking crisis has brought into question the business model used by most large banks. This collection of essays explores the success of alternative banks, savings banks, cooperative banks, and development banks using case studies from around the world and discussion of both the historical and theoretical context of banking practices.

Islamic Finance as a Complex System Haider Ali Khan, Karamo N.M. Sonko, 2020-07-24 There has been a rapid increase in the interest in the study of Islamic finance, resulting in a dramatic rise in financing since the beginning of the century. By the end of 2017, global industry assets had reached 2.4 trillion and were forecasted to reach 3.2 trillion by 2020 despite historic challenges to Islam itself at the same time. This collection of chapters provides key theoretical, empirical, and policy insights into Islamic finance from an overall complex financial and economic systems perspective. Within the complex financial and economic systems framework, this book addresses questions such as how to conceptualize Islamic financial institutions in a nonlinear general equilibrium system, how to promote Islamic Finance in Africa, how Islamic is Islamic finance, and how it affects price stability among other topics. The book provides case studies in Africa and Asia, addresses the subject in a structural financial CGE model, demonstrates the development impact of Islamic finance, and presents an Islamic version of the Iceland Plan for Monetary Reform.

Household Finance Sumit Agarwal, Wenlan Qian, Ruth Tan, 2020-10-07 Household finance studies is a relatively recent field exploring a growing understanding of how households make financial decisions relating to the functions of consumption, payment, risk management, borrowing, and investing; how institutions provide goods and services to satisfy these financial functions of households; and how interventions by firms, governments, and other parties affect the provision of financial services. This timely book analyses existing findings about household behavior as well as findings related to policy interventions. With international case studies, this book reviews a topic of global importance and brings a crucial up-to-date survey of the field for researchers and postgraduate students.
